

expand the educational or drug treatment services provided to inmates or to supplement the loss of federal funding to support such educational or drug treatment services. The General Assembly directs the Department of Health and Mental Hygiene, the Maryland State Department of Education, the Department of Budget and Management, and the Department of Public Safety and Correctional Services (DPSCS) to submit a report to the budget committees on or before September 1, 2004, which develops a plan entitled the Reentry Enforcement Services Targeting Addiction, Rehabilitation, and Treatment (RESTART) plan that addresses addiction, rehabilitation, and treatment of inmates in the State's custody and specifically responds to the following concerns:

- (1) programs available for each category of release (e.g., parole, mandatory release, and expiration of sentence);
- (2) space available for programmatic activities;
- (3) effectiveness of mandatory treatment from a substance abuse and criminological perspective;
- (4) information technology needs to implement this program;
- (5) security impact and costs of increased inmate movement;
- (6) current criminological, psychological, and substance abuse needs of the target population;
- (7) differences in the proposed program and the boot camp program;
- (8) operating costs by program component;
