

In the introductory language of this section, the reference to any part of an "individual" coming within 10 feet of a high voltage line is substituted for the former reference to any part of a "person" coming within 10 feet of a high voltage line, since only human beings are protected under this title. As to the definition of "person", see § 1-101 of this article.

Also in the introductory language of this section, the former phrase "under, over, by or near high-voltage lines" is deleted as unnecessary in light of the phrase "within 10 feet of a high voltage line".

Also in the introductory language of this section, the former words "firm or corporation" are deleted as unnecessary in light of the defined term "person". As to the definition of "person", see § 1-101 of this article.

In item (1) of this section, the former word "house" is deleted as included in the word "structure".

Item (3) of this section is revised to refer to the handling of any "object", to conform to the reference to an "object" in the introductory language of this section. Accordingly, item (3)(i) through (viii) of this section is revised to list examples of objects.

In the introductory language of item (3) of this section, the former words "but not limited to" are deleted as unnecessary in light of Art. 1, § 30 of the Code, which provides that the term "including" is used "by way of illustration and not by way of limitation". Similarly, in item (3)(viii) of this section, the former reference to "other similar facilities" is deleted as unnecessary in light of the word "including" and, to the extent that the word "similar" suggested a limitation, as inconsistent with the usual meaning of "including".

In item (3)(vi) of this section, the former word "supplies" is deleted as unnecessary in light of the word "material".
