

THE COMMISSIONER SHALL MAKE APPLICATION FORMS REASONABLY AVAILABLE AT CONVENIENT LOCATIONS THROUGHOUT THE STATE.

REVISOR'S NOTE: This section is new language derived without substantive change from former Art. 100, § 80B(d), (c)(2) and the second sentence of (1), and, as it related to the contents of the application, (b).

In subsection (a)(1)(i) of this section, the phrase "on the form that the Commissioner provides" is substituted for the former word "written", to conform to subsection (e) of this section.

In subsections (a)(1)(ii) and (b)(6) and (10) of this section, the word "applicant" is substituted for the former words "farm labor contractor" to conform to other references throughout this section. See also the General Revisor's Note to this title. Similarly, in subsection (c) of this section, the reference to an "applicant or ... licensee" is substituted for the former words "farm labor contractor" since the former reference to a "change in the application or certificate" suggested that subsection (c) of this section also is to apply to the period during which an application is pending.

In subsection (b)(3), (4), and (6) of this section, the phrase "for consideration" is added to conform to § 7-301 of this subtitle.

In subsection (b)(3) of this section, the references to services "that the applicant will perform" is substituted for the former reference to "activities for which the certificate is requested" since a certificate — now a "license" — does not limit a licensee to particular services but, rather, is a general authorization to perform any service that constitutes farm labor contracting.

In subsection (b)(5) of this section, the reference to "records of wages" is substituted for the former reference to "payroll records", for clarity and to conform to similar references used elsewhere in this title. See, e.g., § 7-403(a) of this title.

In subsection (b)(6) of this section, the words "use ... to perform a farm labor contracting service" are substituted for the former words "employ to perform any farm labor contracting activity", for clarity. Performing a farm labor contracting service includes other acts in addition to employing workers. Use of the term "farm labor contracting activity", in former Art. 100, § 80B(b)(5), suggested that the General Assembly intended the applicant to compute the number of workers on the bases of all of the acts that constitute performing a farm labor contracting service, rather than only those workers whom the farm labor contractor employs.

In subsection (b)(7)(ii) of this section, the word "address" is substituted for the former reference to a "statement identifying any facilities", for brevity and conformity to practice.
