(a) In this section, "aviation trauma technician" means an individual who:

(1) (i) Has completed an aviation trauma technician course or its equivalent as determined by the Board and the Director of Emergency Medical Services; and

(ii) Has been examined by the Board and certified as an aviation trauma technician by the Board;

(2) Is enrolled in an aviation trauma technician program that meets the standards set by the Board; or

(3) (i) Has completed an aviation trauma technician course or its equivalent as determined by the Director of Emergency Medical Services; and

(ii) Resides in and is authorized to provide emergency health care services by any state adjoining this State and who is called on to render emergency health care services in this State or to transport emergency patients from the adjoining state to a health care facility in this State if:

1. The aviation trauma technician is not affiliated with an ambulance department or company in this State or is not engaged in providing emergency health services in this State on a regular basis; and

2. The same privileges are extended to aviation trauma technicians of this State by the adjoining state.

(b) Subject to the rules, regulations, and orders of the Board, an aviation trauma technician, while delivering emergency health care services or undergoing training, may:

(1) Perform all phases of prehospital advanced life support;

(2) Administer drugs or intravenous solution as directed by a licensed physician by radio, telemetry, or written or oral instruction; and

(3) Obtain blood for laboratory analysis.

(c) Subject to the hearing provisions of § 14-405 of this title, the Board, on the affirmative vote of a majority of its full authorized membership, may reprimand or place an aviation trauma technician on probation or suspend or revoke the certification of an aviation trauma technician for any conduct prohibited under the provisions of this section or prohibited under any regulation adopted pursuant to the provisions of this section.]
