

60.

(d) The Board of License Commissioners for Anne Arundel County shall accept and process applications for alcoholic beverage licenses prior to the erection of a building or premises on the property for which the application is made, when those applications are accompanied by detailed plans of the building or premises to be erected, the parking area to be provided, and the general traffic flow in the area. The applications shall be processed in the same manner as license applications for property on which the building or premises is already constructed, except that approval by the Board of License Commissioners is subject to the completion of the building or premises in accordance with the plans or specifications, and approval by the building inspector, the health department and the inspector for the Board of License Commissioners. In addition to the notice of hearing required in subsection (a) of this section, the applicant shall post conspicuously and keep posted conspicuously a suitable sign or notice, similar to those used for zoning purposes, upon the premises described in the application, for a period of at least ten days immediately before the date of the hearing application, and the notice also shall specify the class of license applied for and the time and place fixed by the Board for the hearing upon the application. If the license for which application was approved is not in use one year from the date of [approval] APPROVAL, the approval has no effect unless written application is made to the Board of License Commissioners for an extension of time. It is solely up to the Board of License Commissioners to approve or deny a time of extension. The Board shall give written notice to the applicant at the time of application that if the license is not activated within one year from the approval date, the approval has no effect.
