Approved May 12, 1998.

CHAPTER 526

(House Bill 928)

AN ACT concerning

Ignition Interlock Systems

FOR the purpose of authorizing the Motor Vehicle Administration to impose on a licensee an individual under a certain age who is convicted of certain alcohol related driving offenses an alcohol restriction that requires the licensee to participate in the Ignition Interlock System Program under certain circumstances; requiring the Administration to impose the restriction on an individual convicted of certain offenses; ~~requiring an individual ordered by a court to participate in the Ignition Interlock System Program to show certain proof of installation of an ignition interlock system before receiving a restricted license; altering provisions relating to the return of a license after a period of suspension for driving offenses;~~ providing that a person whose license to drive is suspended for certain administrative offenses may be a participant in the Ignition Interlock System Program; authorizing the Administration to modify a suspension or issue a restrictive license to the participant; ~~authorizing the Administration to modify the suspension of a child's license under certain circumstances; altering conditions for designation of a driver as a habitual offender for purposes of the Ignition Interlock System Program;~~ requiring the Administration to approve and certify certain types of ignition interlock systems for the Ignition Interlock System Program; requiring approved service providers to install, service, and monitor ignition interlock systems; prohibiting a participant in the Ignition Interlock System Program established by the Administration from soliciting or having another person attempt to start or start a motor vehicle equipped with an ignition interlock system; prohibiting a person from attempting to start or starting a motor vehicle equipped with an ignition interlock system for a participant in the Ignition Interlock System Program; prohibiting a person from tampering with or attempting to circumvent
