

A. The costs attributable to upgrading an onsite sewage disposal system to the best available technology for the removal of nitrogen;

B. The cost difference between a conventional onsite sewage disposal system and a system that utilizes the best available technology for the removal of nitrogen; or

C. The cost of repairing or replacing a failing onsite sewage disposal system with a system that uses the best available technology for nitrogen removal or another wastewater treatment system; and

2. The reasonable costs of the Department, not to exceed 8% of the funds deposited into the separate account, to:

A. Implement an education, outreach, and upgrade program to advise owners of onsite sewage disposal systems and holding tanks on the proper maintenance of the systems and tanks and the availability of grants and loans under item 1 of this item;

B. Review and approve the design and construction of onsite sewage disposal system or holding tank upgrades;

C. Issue grants or loans as provided under item 1 of this item; and

D. Provide technical support for owners of upgraded onsite sewage disposal systems or holding tanks to operate and maintain the upgraded systems; and

(ii) Transfer 40% of the funds to the Maryland Agriculture Water Quality Cost Share Program in the Department of Agriculture in order to fund cover crop activities.

(3) Funding for the costs identified in paragraph (2)(i)1 of this subsection shall be provided in the following order of priority:

(i) For owners of all levels of income, the costs identified in paragraph (2)(i)1A and B of this subsection; and

(ii) For low-income owners, as defined by the Department, the costs identified in paragraph (2)(i)1C of this subsection:

1. First, for best available technologies for nitrogen removal; and
