

2. Except as related to disinfection purposes, not modified by blending with another type of water or by the addition or deletion of dissolved solids.

(ii) "Natural water" includes:

1. Artesian water;
2. Mineral water;
3. Glacier water;
4. Spring water; and
5. Well water.

(iii) "Natural water" does not include water that is derived from a municipal system or public water supply.

(iv) "Natural water" may be collected by means of pipes, pumps, trucks, tunnels, or other devices.

(6) "Purified water" means bottled water that:

(i) Is produced by distillation, deionization, reverse osmosis, or any other means approved by the Department; and

(ii) Meets all the requirements of the United States Pharmacopoeia definition of purified water.

(7) (i) "Spring water" means bottled water derived from an underground aquifer from which water flows naturally to the surface of the earth.

(ii) "Spring water" shall be collected:

1. At the natural orifice; or
2. If the water retains all of the physical properties of, and the same composition as, water that flows naturally to the surface of the earth, from a borehole near a spring that intercepts the same source of water as the spring.

(iii) "Spring water" shall meet all the requirements of natural water.
