

Q. Was the counting of the votes conducted in a legal manner?

A. It was.

*Mr. Morgan*—(looking at printed testimony.)

Q. Do you know a man called Henry C. Brown?

A. I know several Brown's there.

*Mr. Morgan*—He testifies here that he was badly beaten within six feet of the window.

Witness—I was not an eye witness to that case. It was not my duty to be at the window.

*Mr. Freaner*—Q. You did not see from the window much of what occurred?

A. No, sir, I did not.

Q. What was the height of the barricade?

A. It was higher than a man could look over without standing on his tiptoes.

By *Mr. Hagner*—Q. How high up was the floor of the room in which the polls were held from the outside?

A. You had to ascend a step to it. It was a step higher.

*Alex. Stewart* sworn.

By *Mr. Hagner*—Witness—I was present at the election held on 2nd November last. I voted at the 4th ward. I got there about half-past nine and there was not much difficulty in voting—less than at any election I ever saw.

Testimony of the above witness and *Julius Johnson* ruled out as being cumulative.

*Dr. Wilson* and *Mr. Medders* entered their dissent against not hearing the testimony of these witnesses from the fourth ward.

*James Fleming* sworn.

By *Mr. Hagner*—Witness. I am a little over 64 years of age. I live at 121 North Gay street, and have resided there for 26 years. I was at the election held in the fifth ward, on the 2nd of November last, about three o'clock in the afternoon. I went there and voted; and as I was formerly a judge for ten years in that ward, I congratulated the judges there on the quietness of the election. Through courtesy, they invited me in, but I did not go, I remained round about the polls for about an hour, and I never saw a quieter election held in the fifth ward.

Q. Did you see any unusual amount of pushing?

A. No, I did not. I did not see as much on this election as on many elections that I could call back to memory when I was a judge of election myself.
