

Washington D. C.

Aug. 14-1917.

Mr. Harrington :-

Dear Sir,

I am interested in

Mrs. Brandon murder case, and I suggest if it is not too late to get the blood hound and try, which they do in Virginia. I have heard and read of murders being caught by using the dogs and I think it would be

very good if Maryland could  
get them from Virginia and try  
them as I do not think Maryland  
has the dogs. I would like  
to see them hounds tried out  
on this case and if it would be  
a success, Maryland and every  
place could use them, and I  
~~would~~ am anxious for the brutal  
murder of Mrs. Brandon be run  
down as it is the brutalest murder  
I think Maryland has ever had.  
Hoping my suggestion of using  
the blood hounds will bring  
success in a very short time.

The Governor of Virginia will be very glad to help in this case I think by getting the reward for you.

Hoping a few words of mine will help to catch the bullet murder.
