JAPS FIRE WEST BORNEO OIL STORAGE DEPOT AS AUSTRALIANS ADVANCE

Doomed Garrison On Okinawa Makes Last-Ditch Stand—Chinese Recapture Hopyun, Lose Ishan—Marine Flyers Smash At Resistance East of Davao

The Japanese fired west Borneo's rich Seria oil field storage tanks last night—over an Allied force led before the Nipponese captured this island with its vast stores of oil early in the war. Seria is 60 miles south of the point where Australian troops landed three days ago on the Borneo mainland at Brunel Bay. The Aussies sped their southward push in the general direction of Seria by making a small scale amphibious landing on the Brunel river. The landing, 15 miles from the original invasion point, cut behind Japanese who were opposing the push toward Brunel town.

PUSH TWO MILES The main force was nine miles from Brunel when the amphibious operation was made to close the pincer. On Labuan island in Brunel Bay, where the largest Australian force is involved, a drive pushed two miles beyond the captured airstrip. Japanese in several strong pockets are resisting, mostly with rifles and machineguns although one artillery piece was captured after it was knocked out. Meanwhile the Australian Ninth Division Infantry pushed ahead steadily against only light to moderate opposition on two main fronts, as Lt. Gen. R. L. Morshead predicted at a press conference that "the real fighting is yet to come."

Request Hearing In Senate Navy Committee To Discuss Acquisition Of College By Navy

Request for a hearing before the Senate Naval Affairs Committee for officials of St. John's College to present the stand of the college on the question of its acquisition by the Navy Department has been made by Dr. Thomas Parran. Dr. Parran, Surgeon General of the U. S. Public Health Service and chairman of the Board of Visitors and Governors of the college made the request to Senator David I. Walsh, chairman of the Senate committee.

Officials who would speak at the hearing are Dr. Parran, Dr. Stringfellow Barr, president of the college, and Richard F. Cleveland, secretary of the Board. Dr. Barr and Dr. Parran appeared yesterday at a hearing in the House Naval Affairs Committee which deferred action on the proposed acquisition until a subcommittee has made further study of the question.

NATHANIEL HATCH DIES AFTER LONG ILLNESS

Nathaniel Thayer Hatch, 92 years of Eastport, died yesterday in Baltimore after an extended illness. Survivors include two daughters, Mrs. Daniel T. Wiggins, and Mrs. William E. Predict Hall Of Records May Be Moved

Proposed St. John's Acquisition By Navy May Involve Transfer Of State Institution

What will become of the Maryland Hall of Records if the property of St. John's College is taken over by the Navy? This question goes hand in hand with the debate in Congress over the acquisition of the college property by the Navy Department and has not been answered by the state which owns the Hall of Records, situated beside the college and surrounded by college grounds.

Governor O'Connor said today the state had not entered into negotiations with the Navy and Dr. Morris L. Radoff, State Archivist, declared he had had no communication concerning any proposed change of location of the archives building.

Nevertheless the rumor persists that it is planned to move the building itself to another site in Annapolis. When asked whether it would be feasible to move the building Dr. Radoff said that it is not because of its immense weight and its peculiar construction.

The archivist said today that he believed the Hall of Records would go if the college were taken but deplored the loss of the efficient and costly building in which the equipment cost nearly \$400,000.

The state institution looks to be part of the college and was designed to conform with the architecture of college buildings. Only the ground on which it stands and a few feet surrounding are state owned and even the walk from College avenue to the entrance is college owned. An easement on this walk was granted by St. John's to the Hall of Records which faces east toward the college in the plan of the buildings.

The present building was erected in 1935 as part of the tercentenary celebration of the landing of the first settlers. It seems too bad to destroy such a monument 10 years after it was built, Dr. Radoff said.

The building houses all non-current state records of every governmental agency that ever functioned in the state. The records of the Maryland State Penitentiary, of the Baltimore City Jail are among the documents of land, court, marriage, vital statistics, tax, finance and military. In addition county and municipality records and a large private collection are housed there.

The recent General Assembly passed a bill permitting all county documents and land records also to be housed there for their preservation, repair and filing to assure their safekeeping for posterity.

The State Archivist stated, however, that he is not disposed to accept these county records until the question of the future location of the building is settled because they add to the problem of moving, an extremely complicated task.

The housing of records in this one superbly equipped building marked the first time any state ever assembled all documents in one place. Now every state in the union has followed or is preparing to follow.

Parley Defeats Amendment To Veto Formula

Australian Measure Voted Down 20 To 10

By JOHN M. HIGHTOWER Associated Press Diplomatic News Editor

SAN FRANCISCO, June 13 (AP)—Defeat of an Australian amendment cleared the way today for approval in a United Nations Conference committee of the Big-Five demand for total veto control of proposed machinery for world security.

The amendment, which would have removed the veto from steps to settle international disputes peacefully and limited it to use of force, was voted down 20 to 10. Fifteen nations abstained and five were absent.

Simultaneously small nations were beginning to rally behind a proposal that they should be promised another crack at the veto about 10 years hence.

Right To Amend In other words, they are calling for the right to amend the charter.

State To Assist Health Clinics

\$8,000 Allotted County For Medical Care Alone

By JOHN M. HIGHTOWER Associated Press Diplomatic News Editor

A program of medical care, recently inaugurated by the State legislature, will assist, somewhat, the efforts of the Health Clinics throughout Anne Arundel county, asserted Dr. William French yesterday at a meeting of Board members of the Health Center Association at Davidsonville. A sum of \$8,000 out of a total of \$200,000 has been allotted this county for medical care alone; none of this fund is to be used for administrative purposes. A committee of seven members, chosen from among dentists, the Medical Society, the Medical Bureau, etc., will act in an advisory capacity.

Miss Margaret Wohlgenuth, Supervisors of Nurses for Anne Arundel County, announced at the same meeting, held after a benefit luncheon, that she had selected Mrs. William F. Joachim as chairman of the lay group working with the State Organization for Public Health Nursing, which aims to "get over" to the public the purpose of the health service and clinics.

Other business and reports carried on at the June session of the Davidsonville Health Association included the election of Mrs. George M. Birk of Riva, to fill a vice-president vacancy; the report of Miss Beatrice Armiger, public health nurse, on the immunization from tick fever of three persons at the Mayo School last month; the acquisition of a new kit-and-carryer for the premature babies for the Health Center at Davidsonville; and the appointment of two committees, the first composed of Mrs. Hiltabide and Mrs. J. Stevens, the second of the Misses Mar-

MISS FLORENCE WOOLLEY DIES AT CATONSVILLE

Miss Florence M. Woolley, 85, whose home is on Charles street, Annapolis, died this morning at Catonsville after a lingering illness.

Miss Woolley was a member of Calvary M. E. Church and for many years was proprietor of a millinery store on West street and Church Circle. She is survived by a sister, Mrs. William H. Feldmeyer, a brother, George E. Woolley and three nieces. Funeral arrangements are in charge of John M. Taylor will be announced later.

\$18,525 SALE OF WAR BONDS AT FARM RALLY

War bonds to the amount of \$18,525 were sold at the rally sponsored by the Anne Arundel County Farm Bureau at Owensville Hall last night. The sale was a "prompt" response to Lt. Comdr. William H. McCorkle's statement that "the men at the fighting front are depending on those at home to back them up with prayers and with war bonds" made by his talk to the assembly.

Lt. Comdr. McCorkle, chaplain with the Marine Corps, illustrated by stories of men at the fighting front their need for the home bond purchases. "The men who are fighting are making the real personal sacrifice," he said, "let our job at home is as important."

The rally was a dinner meeting at which members of the Ladies' Auxiliary of the Farm Bureau served a meal of fried chicken and crab cakes.

Arthur Jones, president of the Bureau, presided at the meeting. Oscar Crimes and Stanley E. Day, County Agent, war bond chairman for the event, spoke briefly.

Moscow Parley On Polish Question Set

Representative Poles And Big Three Spokesmen To Attend

By JOHN M. HIGHTOWER Associated Press Diplomatic News Editor

LONDON, June 13 (AP)—Poles and Big Three representatives will discuss reorganization of the Polish Provisional Government in Moscow Friday, it was announced today.

A British Foreign Office commentator said "A very serious deadlock has been broken," but cautioned that "it is contrary to all our experience to say that it is going to be clear sailing from now on."

A simultaneous announcement in London, Washington and Moscow said reorganization of the Warsaw regime on a broad democratic basis as "provided for in the Crimea Agreement on Poland" would be discussed in the Soviet capital by representatives of Britain, Soviet Russia and the United States, spokesmen for the Provisional Government in Warsaw and Polish democratic leaders.

ing to follow the plan of the State of Maryland. Those states which have erected archives buildings have sent archivists here to study the Hall of Records and have patterned structures closely corresponding to its design. The State Archives building in Delaware is a duplicate of the Hall of Records in Annapolis.

If the Navy Department finds it essential to include the site of the Hall of Records in the proposed transfer of college property, negotiations would be conducted between the department and the State of Maryland. Neither the archivist nor the Hall of Records Commission can do anything about the disposal of grounds which is in the hands of the state Board of Public Works.

In an interview today Dr. Radoff stated "It seems inevitable that the Hall of Records will have to go even if the Navy doesn't take it immediately because the architect, Lawrence Hall Fowler, was given the task specifically to design the building to conform to the style of other St. John's buildings.

While the actual moving of records is a highly complicated process, he pointed out that where records go "we are still in business because the records are the heart of our business. So the situation is different from that of the college."

The building can be replaced, he said, but at terrific cost and the question now is "where to go?" No temporary quarters should be accepted because of the responsibility to the state and to the counties which have housed records there, he said.

To move the building itself is impractical. The archivist explained that the stack area is six stories of steel and concrete built as a well that goes deep into the ground and is fireproof. The remainder of the building is built around the stack.

Meantime archivists from all over the country and from Canada will assemble Friday at the Hall of Records for classes in a training program offered by the American University in Washington, D. C., in cooperation with the National Archives and the Hall of Records. Dr. Radoff is the instructor.

organized by Britain and the United States, were conspicuously absent from the list of Poles who will take part in the discussion.

Responsible quarters here said that Julian Zakowski, 48-year-old

architect and one of three London Poles invited to the conference had decided to turn down the Big Three on the ground that he has never been connected with politics. Regarded as a Liberal Socialist who has no affiliation with the exiled administration, he was understood to have been nominated by the Warsaw Provisional Government.

A dispatch from Moscow by Associated Press Correspondent Eddy Gilmore said a reliable diplomatic authority stated the conference was to be held on the basis of re-

organizing the government with the Soviet-sponsored Provisional Government as a nucleus. Gilmore said diplomats in Moscow believed there were several good reasons to be optimistic.

Big Three

Big Three representatives to the conference will be Russian Foreign Commissar Vyacheslav Molotov, U. S. Ambassador W. Averell Harriman, and British Ambassador Sir John Archibald Clark Kerr. Principal Polish leaders selected to attend were Boleslaw Beirut, President of the Warsaw Provi-

sional Government; Wincenty Witos, former Premier and leader of the democratic group inside Poland not affiliated with the Warsaw Government; and Stanislaw Mikolajczyk, Peasant Party leader who resigned as Premier and withdrew from the exiled government in London last year.

Windland Participates In Okinawa Campaign

ABOARD A U. S. BATTLESHIP OFF OKINAWA—Hugh E. Wind-

land, Chief Buglemaster, whose wife, Mrs. Elizabeth Windland, lives at Ferndale, Md., had a grandstand seat from which to view the invasion of Okinawa.

This hard-hitting ship, while under threat of air attack, moved up within 3,000 yards of the shore, cruising slowly back and forth and pulverizing the beach targets at point-blank range. The crew could clearly see the explosions from the ship's shells as her guns smashed pillboxes, gun emplacements, warehouses and trench fortifications.

The ship's anti-aircraft gunners fought off deadly air assaults during the bombardment period, and on one occasion only skilled maneuvering of the vessel by her commanding officer saved her from a torpedo which had been dropped.
