**BOSTON, June 16.**  
By a Vessel from Fyal we learn, that there has lately been very severe Earthquakes there, and in the neighbouring Islands; that for above 20 Days together there was almost one continual Trembling of the Earth, which caused so great a Consternation among the Inhabitants, that many of them went off on board Vessels every Night for Safety.

We hear from Nottingham, that last Tuesday about Ten o'Clock in the Forenoon, an alarm Gun was fired at N<sup>o</sup> 4. but on what Account we have not yet learned, and that near 100 of the New-Hampshire Provincials were met on the Road coming back, but for what Reason we know not.

We hear that the Penobscot Indians have withdrawn, and gone off with their Squaws and Children.

**NEW-YORK, June 23.**  
Friday last a Vessel arrived here from Halifax, which she left the 4th Instant, the Captain of which informs, that the Day before he sailed, a Ship arrived from England in 29 Days Passage, who came under Convoy of five Men of War, that were to intercept a Fleet of French Transport Ships of 20 or 30 Sail, which the Ministry at Home had received a certain Account were destined for Quebec. This London Ship also informed, that a Congress for a Peace was certainly to be held at Breda.

The Captain of this Halifax Vessel farther says, that Lord Colvil carried up the River with him five Sail of the Line, and three Frigates; and that Commodore Swanton (in the Vanguard); had either three or five Sail of the Line, and several Frigates, when he went up, so that it was supposed we had about 15 Men of War up St. Lawrence: That the Repulse Frigate sailed with him on a Cruise; that the Penzance Man of War was hove down, and would be ready in about ten Days to proceed to Quebec: That the Louisbourg Garrison was to be sent to Halifax; and the Cannon thereof to be transported to different Parts of the Continent. And likewise, that Letters were received at Halifax from Chignecto, informing of the Siege of Quebec being raised by the Enemy, who suffered great Loss.

*Paragraph of a Letter from Lisbon, Via Boston, &c.*  
His Majesty's Ships the Flamborough and Biddeford, of 20 Guns each, had a very smart Engagement on this Coast the 4th of April, with the Malicieuse of 36 Guns, and the l'Opale of 32, two French Frigates, in which our Captains behaved most gallantly, and obliged them to run away; but our Men of War were so disabled in their Masts and Rigging, that they could not come up with them. The French Ships are gone to Cadiz to refit. Captain Skinner, who commanded the Biddeford, with his Lieutenant, Mr. Knowles, were killed; and also the Lieutenant of Marines belonging to the Flamborough. Captain Kennedy, who commands the Flamborough, is a brave young Officer, and Son of the Collector of New-York.

**PHILADELPHIA, June 26.**  
Captain Hardcastle, from Madeira and Teneriffe, came up on Sunday and informed us, that on the 2d of April, he left Madeira, when the Colchester and Rippon Men of War, Line of Battle Ships, sailed for St. Helena, to convey Home the East-India Men: That the New America and Medway Men of War, of the Line, with the Liverpool Frigate, and South-Sea Castle Store-ship, were at Madeira, on their Way to the East-Indies, to join Admiral Pocock, and were to proceed on their Voyage the 4th or 5th of April: That the Colchester had taken and carried into Madeira, a Martinico Man, laden with Sugar and Coffee: And that the Ship Francis of 22 Guns and 60 Men belonging to Liverpool, and bound to the Coast of Guiney, was lost on the Island of Fortunatus, and 23 of the Hands drowned.

A late Letter, by one of the London Ships, says, "There are many Rumours just now of a Peace, but it is thought it cannot take Place till next Winter."

His Excellency General AMHERST left Albany on Thursday last.

**ANNAPOLIS, July 3.**  
By some Gentlemen from the Northward, who left Philadelphia last Saturday, we have very agreeable News: Letters were received at Philadelphia from New-York, dated June 26, which mentioned, that the Night before, the Post came in there from Albany with an Account of the Safety of QUEBEC: That there was arrived from Montreal about 120 Prisoners, taken at the Battle on the Plains of Abraham the 28th of April, who are on their March. Col. Young was still with the French. The French gave out that they lost in that Battle about 1500 Men, among which were near 100 Officers; but our People say, that by what they could learn while at Montreal, there could not be less than 3000. The French, Captain Surcouf, anchored off the Island of Colons with 6 Prizes, Store Ships from France,

and in the Night sent up two Frigates above the Town, and destroyed the Enemy's Vessels and Boats, which they came down in; and soon after Lord Colvil arrived with his Ships, which put them into such Confusion, that the whole Army abandoned the Field, leaving their Tents, Provisions, Cannon, &c. and run off like luffy Fellows. It is said that in the Battle of the 28th, we had 300 killed, and 700 wounded.

The Intelligence from Carolina, was by a Letter from Governor Bull, to Governor Hamilton, inclosing a Printed Copy of a Letter from Major Grant, second in Command under Colonel Montgomery. It seems that the Cherokees have two large Settlements, one called the Over-Hill-Settlement, and the other the Valley-Settlement, the latter being the largest of the two; and Col. Montgomery being informed, that at the Valley-Settlement, they imagined themselves in a State of Security, not knowing that our Forces were to near them, he made a forced march of 60 Miles without halting, and, unexpectedly falling upon the Indian Towns in that Settlement, captivated and killed many of their People: The Rest escaped over the Mountains in great Consternation, leaving their Towns to be destroyed, which was accordingly done, with a considerable Quantity of military Stores and Provisions.

We have certain Information from Talbot County, That at the Collection made in Behalf of the Sufferers by the late unhappy Accident of Fire in Boston, an Honourable and Compassionate Gentleman generously gave Fifty Guineas to the Charity.
