THE MARYLAND GAZETTE, [Numb. 833.]  
Containing the latest Advices foreign and domestic.

THURSDAY, April 23, 1761.

ST. JOHN'S (in Antigua) February 25.

WE hear from Martinico, that M. Latouche, the new Governor of that Island, is arrived there with 3 Frigates; and that the French Privateers have lately carried in a great Number of Prizes. It is said there is a List upwards of 30, some of which were Lumbered Vessels, whose Cargoes are very much wanted here.

Captain Power, who arrived here last Thursday from Bristol, was attacked by Windward, by four French Privateers, three of which he obliged to run away, and the other struck; but for want of men he could not take Possession of her. And Captain Potts, of the Ship Julius Cæsar, bound from London to Jamaica, was also attacked about 3 Leagues to Windward of this Island, by six Privateers, all which he beat off with considerable Loss on the Side of the Enemy. Captain Potts had only one Man slightly wounded, but suffered much in his Rigging, that he was obliged to return here to refit.

Captain Tucker, of the Levant Frigate, has returned in here a Prize Schooner.

March 4. The Diadem, of 74 Guns, and two French Frigates, have been blocked up in the Harbour of Granada near a Month, by Sir James Douglas, who had with him five Ships of the Line, one of 84 Guns, two of 74, one of 64, and one of 56; but a Vessel which arrived here two Days ago met the Foudroyant and Dublin, two of his Squadron, beating up to Barbados. The French Ships fell in with his Majesty's Ship under some Leagues from Granada, and might have taken her, if they had pushed for it. It is believed the new French Governor is on board.

A Ship bound from Naples to Martinico, taken by Captain Reid, of the Ship Alexander, from London, arrived here last Thursday. And we hear a large Prize Ship has been carried into St. Christophers.

March 11. His Excellency the General embarked this Morning, on board his Majesty's Ship the Aquilon, William Tucker, Esq; Commander, to visit the Islands to Leeward, under his Government; his Excellency was received in Town by a considerable Detachment of Regulars, and attended to the Sea by several of the principal Gentlemen of the Island.

Commodore Sir James Douglas has left the Island of Granada, without attempting any Thing against the French Ships there, it being judged they could not be destroyed without Bombs; but the Reasonable and Montague still remain there, and continue to block them up. It now seems pretty certain, that the new French Governor will not be at the Granades. He arrived at Martinico in a Frigate, agreeable to our former Accounts, and the other Ships were intended for that Island, but were cut off the Land by one of the Ships of the Squadron and a Frigate, and chased down to Canada. M. Beaufremont is expected at Martinico with a Squadron and regular Troops, and will he may come. If an Attack should be meditated against that Island, his Squadron may be (like that at Louisburg) to increase its Force; and his offensive Designs can give us no Concern at the present State of our Troops and Militia, which whilst supported by 20 Men of War, which we already have upon this Station.

A French Privateer of 8 Guns, and a retaken Ship from Africa, have been brought in by the Aliquinox and Crescent. The Enemy had taken 20 Negroes out of the Snow, and got clear off with them.

CHRISTOPHERS, February 28. The Fleet from London arrived here on Wednesday last. His Majesty's Ship Emerald, Charles Middleton, Esq; Commander, sent Yesterday into

the Road of Basseterre, a Sloop loaded with Molasses; and a French Pettiaugre loaded with Provisions, bound from St. Eustatius for Martinico.

March 14. On Thursday was brought into the Road of Basseterre, a Sloop bound from New-York for the Coast of Guiney: She was retaken by the Foudroyant, Captain Duff.

BOSTON, March 12.

This Morning about Half an Hour after Two, the People of this Town were awaked with an EARTHQUAKE, which lasted about 20 Seconds, but without doing any Damage to our Houses. It was divided into two Shakes, with a short Pause between; and the last was the greatest. The Weather was Moderate for the Season, like that of the preceding Day; and a perfect Calm rested upon both Land and Water. The Stars overhead shone clear; but the Horizon all around was covered with a whitish Fog, which appeared as if there had been a Light behind it.

We also learn by some Fishermen that were upon the Water coming in at that Time, that the Course of this Earthquake was nearly from the S. W. to the N. E. and that they perceived the Noise, as of a distant rising Wind, some considerable Time before the Shaking came on.

March 16. Last Thursday Evening arrived here his Majesty's Ship Fowey, Captain Tonyn, from New-York; she has brought five Boxes of Portuguese Gold, amounting to Fifty-six Thousand Pounds Sterling, being Part of the Sixty Thousand Pounds granted by Parliament in 1759, to recompense this Province, for the extraordinary Expence they had been at in carrying on the War in North-America: On Saturday the Money was landed and safely guarded to the Treasurer's by a Party of Marines.

April 6. The General Court of this Province, in order to provide for the Security of his Majesty's Dominions in North America, and particularly of the Possession of his Majesty's Conquests there, during the Absence of such Part of the Regular Forces as shall be employed in an Enterprize against the Enemy; hath made Provision for raising 3000 Men, to be formed into 3 Regiments, under the Command of Gentlemen of this Province, to be commissioned for that Purpose, and to be put under the supreme Command of General Amherst.

The Men are to be enlisted to serve till the first Day of July, 1762, at which Time they are to be discharged at all Events. But if a Peace shall intervene, or if the Regular Forces shall return sooner, they will be discharged immediately after either of those Events. They will not be employed South of Albany; and as there is no Probability of there being any War Northward of that Place; they can only serve in doing Duty in Garrison.

The Bounty given on this Occasion, will be Nine Pounds; Three Pounds fourteen Shillings and eight Pence of which will be paid in a compleat suit of Cloaths, &c. the remaining five Pounds five Shillings and four Pence in Money. They will also have a Blanket for each, and suitable Camp Equipage, and all Allowances as usual.

We have Advices from the West-Indies, that Captain Welsh, in a Schooner from Surinam for this Place, was taken by a French Privateer the Day after he came out of that River, and carried into St. Vincents.

We hear from Salisbury, that last Friday the House and Barn of Lieutenant Henry Eaton of that Place, together with the Household Furniture, Hay, &c. was consumed by Fire; also the Town Stock of Powder, which was in the Garret of the House: The Fire was occasioned by some Sparks from the Chimney, which fell on the Top of the House.

From Wrentham we are informed, that there hath been lately made in that Town, a Dutch Machine, for Winnowing Grain, viz. Wheat, Rye, Barley, Oats, Indian Corn, Flax-Seed,

Clover-Seed, &c.—It was made by the Direction of a Gentleman in the Jerseys:—From thence we are assured, that two Boys can winnow 100 Bushels of Wheat in one Day, and do it in the best Manner: It makes all the Wind it wants; and lays the Grain, the Chaff, & the Cobs, in 3 different Heaps.—That it has been tried at Wrentham with the before mentioned Sorts of Grain; and answers the utmost Expectation.—That two Boys about 15 or 16 Years of Age, winnowed 21 Bushels of Rye in 50 Minutes, in the best Manner; which a Gentleman, with his Watch, who was present, can attest to; and since which, it winnowed 50 Bushels in one Hour and an Half, done as well as the other.—It is esteemed a useful Instrument for a Farmer; and being not very cumbersome to move from Place to Place, might serve a large Neighbourhood:—The Director of this Instrument expresses himself thus; I should be glad if the most useful Arts, and the best Methods in Husbandry were more generally known, it would afford the Husbandman renewed Cause of Praise and Thankfulness to that GOD who doth instruct him with Discretion.—We are further informed, that on Monday last it winnowed 40 Bushels in one Hour as can be attested by many Witnesses.

NEW-PORT, April 7.

Yesterday arrived the Brig Fox, of this Port, Audley Clarke, in 16 Days from Monto Christo. Capt. Clarke informs us, that in Latitude 28, he fell in with seven Sail of large Men of War, steering to the Southward, but could nor learn what Ships they were.

The General Assembly of this Colony, at their Session at Providence, the 30th of March last (in Obedience to his Majesty's Command, signified to them by the Right Honourable Mr. Secretary Pitt) ordered a Regiment to be immediately raised, to consist of 665 Men, Officers included, for the ensuing Campaign; of which the following Gentlemen were appointed Field Officers, viz.

John Whiting, Esq; Colonel.  
Samuel Rose, Esq; Lieut. Colonel: And,  
Christopher Hargill, Esq; Major.

NEW-YORK, April 13.

Friday last the Brig Neptune, Captain Morgan, arrived here, in seven Weeks from Lisbon; he informs us, that a French Privateer, of 24 Guns, that had taken seven of the late Virginia Fleet, bound to Europe, and three smaller Ones, were taken by an English Frigate, and carried into Lisbon; and that the Frigate was commanded either by Captain Kennedy or Ogilvie.

Friday Night some Villains entered the House of one Mr. Price, near the Whitehall, and carried off a Chest, which they found in the Entry, in which was Three Hundred Pounds in Cash, and divers other Things; but the Chest being soon miss'd, Hue-and-Cry was raised, and several went in Quest of the Rogues; when they found the Chest unopened, in the Water, by the Battery, which they had cast through one of the Embasures.

Saturday last Captain Rook, in a Ship, arrived here from Lisbon, in forty Days; he confirms the Account brought by Captain Morgan, of one of his Majesty's Frigates having taken four French Privateers, and sent them into Lisbon, and says 'twas the Aquillon, Captain Ogilvie; and that Captain Kennedy, in the Le Blond, sailed on a Cruize about a Week before him.

Effingham Lawrence, late Master of the Brig Audrey, of this Port, came Passenger with Captain Rook, having the Misfortune, on the 17th of January last, on his Voyage from hence for London, to be taken by the Warrior Privateer Ship, of Bayonne, of 16 Guns, and 120 Men, who soon after took a Ship from London for Lisbon, with Corn, which the Captain ranfomed, and Captain Lawrence, and Part of his People, were put on board her, and got safe into Lisbon.

The
