Extrast of a Letter from Liften, Dec. 30, 1-61. "I have this Moment heard of a Vefiel being on Departure for Philadelphia, would not therefore miss the Opportunity of advining you that the Court of Spain has now thrown on the Mask, seized all the English Ships in their Ports, and pubkined a Manifello, which amounts to a Declaration of War, fo confequently Hostilities will commence

on both Sides.'

Our other Advices from Lisbon are, That the Spaniards at Cadiz, on receiving the King of Spain's Manifesto, seized all the English Vessels at that Port, and confined all the Masters and Merchants:—That Admiral Saunders, with 30 Sail of Men of War, was cruizing in the Streights, and that it was thought he would foon have Orders to bombard Cadiz; where, it is faid, they had taken up the Pavement, being in Expectation of a Visit from the English :- That 10 Sail of English Men of War of the Line were at Lisbon: And that a Spanish Vessel had been taken and carried in there by one of our Cruizers: -Also that the Earl of Brittol was failed for England in a 50 Gun Ship, and that the English Consul at Cadiz was arrived

NEW-YORK, March 29. Saturday Evening last the Ship Amherst Frigate, Capt. Nicholfon, arrived here Express Vessel from General MONCKTON, at Port St. Pierre, in MARTINICO, which Place she left the 23d of February last, and has had 32 Days Passage, three Weeks of which Time she was beating on the Coast, between this Port and Bermuda, occasioned by the late hard Gales. On board this Ship came Capt. Clarke, of the 77th, and Lieut. Monro, of the 4th Battalion of Royal Americans, with Difpatches to his Excellency General AMHERST, and to his Honour Lieutenant-Governor COLDEN, from which, and from private Letters, we have been favoured with the following Particulars of the Attack, Siege and Surrender of that very important Island Martinico to his Britannic Majesty's Arms, on Tuesday the 15th of February last.——A Conquest that will always beautify and add an additional uftre to the Annals of Europe; One that none but the British Nation could compleat in so short a Tine and One that none but Ex-

13th, Four French Grenadiers were taken Prifoners by only One of Montgomery's Regiment, for which he was handlomely rewarded. The General reimbarked, and the rest of the Army

Bay, without Opposition, the Ships of War having previously silenced many Batteries along Shore. The Enemy, with their whole Strength collected, had Possession of the two remarkable strong Hills, called Mornes Tartafnon and Garnier, with many fireng Redoubts, mounted with Cannon, Batteries, Breattworks, &c.

17th, 18th, 19th, 20th, 21st, 22d, and 23d Days, erecting Batteries, and fkirmishing with the Eremy.

That on the 24th our Troops croffed a very deep and almost impassable Ravine or Gully, and that in the Face of the Enemy, to the Attack of their Works on the Monte Fortenson, so impregnably posted as the Enemy seemed to be. It was really amazing to fee the Ardor with which our Troops advanced; they drove them out of one Work, and then another, and in a few Hours we were in Possession of all their Works, consisting of not less than ten Redoubts, with Cannon; strong, and most uffy fituated. The Enemy retired in the utmost Confusion to the Monte Granier, which commanded the Ground we had got Possession of, and where they had also Redoubts mounted with Cannon, and a deep Ravine, or Gully between us.

The 25th and 26th we were annoyed a good deal with Canron and Shells from Fort Royal and

Monte Granier.

The 2-th, in the Afternoon, the Enemy had the Temerity ,impired with a good Quantity of !

L'eau de Vie, alias Strong Liquer) to attack with about 3000 Men, under Cover of a new erested Battery) the Brigade of the Army on the Left: They were received properly, and inftantly repulfed, and the happy Confequence was, that one Troops pursuing them, passed the Riviere, and gor Possession of Monte Granier, where two Brigades, the Light Infantry, and Grenadiers, took Post that Night, in order to attack their strong Works of the Morrow; but that Trouble was saved, by the Enemy evacuating them in the Night

Parley.
4th, The Fort furrendered, and the first Division
took Possession of it.

5th, The French regular Garrison marched out with the Honours of War; but those of the Island had none allowed them.

6th, Nothing extraordinary.
7th, In the Evening Pigeon Island surrendered.
8th, Nothing remarkable from this Day till the igth, when Monfieur de la Touche, the French Governor, sent Proposals of Capitulation, which having been agreed upon, General Monekton em-barked on the Fifteenth for St. Pierre, and took Possession of that Place, and the whole Island on the Sixteenth.

The Citadei of Fort-Royal (as it was faid before) furrencered by Capitulation (the Garrison becoming Prisoners of War on the 4th of February, in Confequence of two Defeats the Enemy received on the 24th and 27th of January, in their strong Posts on the Monte Fortenson and Granier, in which they had not less than a Thousand killed and wounded, and many taken Prisoners. The Enemy had every Advantage of Situation they could wish for; be our Troops with the most irresistible Impetuosity, carried every Thing before them. Immediately upon the Surrender of Fort-Royal, Deputies from a Majority of the Quarters of the Island came in, and submitted to Terms of Capitulation, whereby they became Subjects of Great-Britain.

What adds greatly to this Conquest is, that it has been accomplished with the Loss of only seven Officers, and about 97 Privates killed, and 400 wounded. The Names of the Officers killed,

Captain Stamper, of the Artillery. Captain Coburn, and Lieuts. Barclay, and Hugh Gordon, of the Royal Highlanders. Lieut. German, of the 22d.

Lieut. Hume, of the 4th, or King's Regiment, And an Officer belonging to Ogden's Rangers. Lieut. Edminston, of the 48th, is shot thro the Body; but in a fair Way of Recovery.

A large Spanish Ship, mounting 24 Guns, and loaded with Artillery, for the Havannah from Cadiz, is taken by one of our Frigates, and carried into Barbados: She fired first into the Frigate, and killed her nine Men; but she soon got such a Dose as obliged her to strike. The Captain of the Spanish Ship said, he had Orders not to suffer himself to be stopped or searched by any Vessel

whatfoever. [But it feems be could not bein it.]
