**For the Cure of the GOUT and RHEUMATISM, A NEW DISCOVERED MEDICINE, CALLED,**

**ELIXIR of BARDANA.**  
 THE BARDANA is a common innocent *British* Plant, its Virtues against the Rheumatism have always been known; and the Physicians of EDINBURGH, who have distinguished themselves eminently in the Improvement of Me-

dicine, now give it constantly and successfully in that Disease: The Author claims no Merit but that of extending its Use, assisting its Efficacy, and reducing it to a Form in which it may be more conveniently taken. It is pleasant, safe and effectual; and if we judge from the first Experience upon himself, and the happy Effects of its Use in a great Number of other Cases in London, there is Ground to hope these Diseases will no longer so grievously torture Mankind.

To prevent the Return of the Gout has been hitherto found impossible; and perhaps is not to be wished; but to relieve those who suffer it greatly is in our Power; to reduce the Number, and shorten the Continuance of the Fits; and to alleviate the Pain of them: So much will be effected by this Medicine. The Author is known, and the Afflicted may take it without Fear; for however limited his Power may be in doing good to Mankind, he would not for any Consideration be the possible Cause of doing Harm to any.

Among the Numbers who have taken it in the Course of the last eight Years, it is to be affirmed, with perfect Truth, there is not one who has not found great Benefit. The Author by the Use of it has reduced the Gout, which used to confine him a third Part of the Year, to a slight Fit of three or four Days, Spring and Fall, with perfect Health in the Intervals: And others who have persevered in its Use, have found the like Advantage. These are its Effects in the Gout, which are as great as a considerate Person would desire:

**In the RHEUMATISM**

It is a certain and absolute CURE, and the Disease NEVER RETURNS.  
 The Dose is a Tea Spoonful in a Wine Glass of Water Night and Morning.  
 Its Operation is by insensible Perspiration, and slightly by Urine.
