JABEZ BAILEY, Administrator.

WHEREAS the Subscriber, hath lately begun to erect a new Furnace for making Pig-Iron at the upper End of *Shanado Falls*, on *Patowmack River* Side, to be water'd by a Spring, commonly called *Elk Branch*, making use of the said River, on the *Virginia Side*, which said Work he expects to get in Blast by the middle of July next; and he is desirous to have chief Part of the Pig-Iron Metal made necessary to be cast into Pots, Stoves, Ovens, and into Bars, with the Casting of Pots, Stoves, Ovens, &c. in order to ease the Expence of Land Carriage, and to be a greater Quantity made than can be disposed of in the back Parts of the Country: And as he hath been at a great Expence in purchasing Lands, Ore, &c. on both Sides of the said River *Patowmack*, on the promising Prospect of a convenient Place for a Set of Forges, Mills, &c. which he expects at the Beginning of the said Falls, and especially at the Beginning of the said River, he hereby gives this public Notice, that it is his request and desire, that two or three Gentlemen, acquainted with Affairs of that Nature, should come and view the said Falls, particularly the Place where the Works are to be erected, and he will not be the least Doubt but they will be immediately convinced that what he Designs to do at the before-mentioned Place will be far from prejudicing the Navigation that it will greatly contribute to assist it, as at present the Water being confined within narrow Limits, and having a considerable Fall, with a rocky uneven Bottom, it is rendered equally impracticable in dry Summers or Freshes. The Subscriber, therefore, hopes in a little Time to satisfy the Persons whom it may concern that he has not the least View or Intention to obstruct the passing of Craft up and down the said River, and that he will be glad to assist in every thing relative thereto, which as the same shall be taken into Consideration.

He hereby also informs the Public that as there are many convenient Places for erecting of Iron Works, Merchant Mills, and Saw Mills, belonging to Gentlemen unacquainted with the Nature of such Works, the Situation suitable as to Water, Wood and Ore, as well as in the Expences attending such Buildings: For the better Encouragement of those Gentlemen, and more Satisfaction to Gentlemen that have such Conveniences, the Subscriber will, at any Time when he shall be desired, wait upon any Person that would expect all, or any of the said Works, being well acquainted in every Branch of the said Works, and would also give a particular Estimate of the Expences in Building, and likewise the Profits when carried on with either Furnace, Forge, Merchant Mill, or Saw Mill, for a reasonable Consideration; and would undertake the erecting of such Buildings at his own Expence, if they should choose, rather than do it themselves; being well acquainted with the Nature of Workmen, and long Experience in those particular Branches of Business, with the building of strong Dams, and carrying any Stream of Water whatever, which he will warrant to stand good at a certain Price as may be agreed on: Likewise in the blowing of Stone above or under Water, in any Part of which may be seen at the Falls of *Ocegon*, in *Queen-Anne County*, where all those Works, of every Kind, are well completed, by
JOHN BALLENDINE.
