ADVERTISEMENTS of a moderate
after: And Long Ones in Proportion.

HIS Serene Highness the Hereditary Prince set out for *Hays* in a Post Chaise, attended only by one Gentleman and two Domestic, to pay a Visit to Mr. *Pitt*, with whom he had a Conference of near two Hours, and expressed great Satisfaction.
Jan. 25. This Day his Majesty went to the House of Peers with the usual State, and gave the Royal Assent to the Bill for Naturalizing his Serene Highness the Prince of Brunswick; to the Bill for punishing Mutiny and Desertion; and to some private Bills. His Serene Highness was present at the House when the above Bills were signed; dined afterwards at Leicester-House with the Princess and her younger Brothers and Sisters, and then set out with her Serene Highness for Lord *Abercorn's*, in his Way to *Harwich*. His sudden Departure has occasioned much Speculation.
Dr. *Pierce*, Bishop of *Rocheester*, and Dean of *Westminster*, resigned both his See and Deanery, and retired to a private Life. His great Age disabled him for the conscientious Discharge of his Function, which was the sole Motive of his Resignation. He has no Pension or other Reward.
It is said all Officers belonging to the Regiments in North America, now in Great Britain and Ireland, on Leave of Absence, have received Orders to embark for their respective Corps without Delay.
It is said the present exorbitant and furious Proceedings of certain naval and military Agents, in Consequence of many heavy Complaints, will soon be curtailed by a parliamentary Restriction.
Jan. 29. It is reported, that a Commission has been lately dispatched to our naval Commanders in North-America, to deal with all French Ships of Force, who shall appear within a certain Latitude of *Newfoundland* (where it may be presumed they have no lawful Business) as if the two Nations were at open War.
We hear six Regiments of Infantry from Great-Britain and Ireland, are soon to embark for North-America.
Jan. 20. Among the several Articles of the Growth of our new Colonies lately imported, are some Stalks or Fibres of Hemp raised in *Florida*, which are singly of so strong a Texture as to raise a Weight of Fifty Pounds; and at the same Time may be split so as to equal fine Silk; it is said that great Expectations with regard to Trade are formed from the Growth and Culture of this valuable Manufacture.
Upwards of Five Thousand German and other Protestant Families, are preparing, in the Course of the ensuing Summer, to embark, with all their Effects, for the English Settlements in North-America.
It is said Orders are sent down to *Woolwich* to make a draught from the royal Regiment of Artillery, to fill up the deficiencies in the different Corps stationed in the Garrison of North-America, and that they will embark as soon as the season will permit.
Jan. 21. A new Packet will shortly be ordered on the *New-York Station*, in the room of the *Countess of Leicester*, lately lost.
We hear a Plan has been presented to the Lords of the Admiralty, for building some light Frigates, with Eighteen Guns of a Side, and to carry 16 or 18 Guns, to be made use of in the West-Indies, instead of larger Ships.
We hear the Currency of the two *Floridas* is at last settled Five for One, which is thought to be the most proper Medium between that of the Islands and the Northern Colonies. They write from *Germany*, that the River *Walter* has very much overflowed its Banks, and hath laid the flat Country under Water, and several Vessels were carried out of the current into the Marshes, where they were lost.
Damage done in the Downs. On the 14th Inst. a Sloop named *Ramsgate*, whose Master says he saw two Ships of the same name, one of which foundered, and the other appeared to be in great Distress. A Brig, supposed to have been taking Goods out of the *Earl of Holderness's*, was seen foundering in the *Gulph Stream*. One Ship in the Downs, lost all her Masts. A large Dutch Ship came into *Ramsgate* with only her Foremast standing. A Brig is ashore at *Head-Rais*, with her Mainmast gone. A Brig was ashore at the *North Foreland*, but afterwards drove out to Sea with her Bow-sprit gone; and three or four Sloops ashore at *Ramsgate*, which are since got off, and in Harbour.
Jan. 24. So great was the Curiosity of some Ladies to see Hereditary Prince, that several offered Five Guinea's each a Seat in the Boxes of *Covent-Garden Theatre* on Thursday Night.
They write from *Ireland*, that a Beggarman died lately at *London*, in that Kingdom, aged 103 Years; and at *Akerrmore*, the County of *Wicklow*, Mr. *Henry Dyson*, formerly a considerable Farmer in the said County, died 120 Years old. He died at *Rofs*, Mrs. *Elizabeth Clifford*, aged 117; she died to see her Offspring to the Fifth Generation.
Jan. 28. They write from *Newbury*, *Berks*, that the waters have been so much out, that the Church sunk two feet perpendicular, and the Inhabitants were obliged to use Sticks to get Suffenance.
By a Letter from *Casnarvon*, in *Wales*, we are informed a remarkable Wedding lately consummated at *Llanbellig*, Parish Church of that Town, between *Anthony Thomas*, of the said Parish, aged 45, and *Ellin Pritchard*, of Parish of *Trewalchmai*, in *Anglesey*, aged 22; they had having been born deaf and dumb; and each had been a long Time their mutual Affection for each other, that whenever they met, they could never part without a seemingly great Reluctance.
Feb. 1. One of the most affecting Scenes at the Departure of the Princess *Augusta*, was as follows: When her Highness, who had kept up her Spirits surprisingly, was on the

Point of taking Coach, in going through the Hall, she foyed all her Servants, drawn up in a row, to take their last Farewell of an indulgent and most dearly beloved Mistress. The Sight of them instantly melted her into Tears, and clapping her Handkerchief before her Eyes, she hastened to her Carriage, unable to express the Emotions she felt in any Manner.
Feb. 11. The following little Anecdote is too affecting, and too interesting to every English Breast, to be passed over in Silence: When the *Yatch* made Sail, in which was her Royal Highness the Princess of Brunswick, she was importuned by those about her to quit the Deck, and partake of some Tea or Coffee which was prepared below. No, she said, in one half Hour I shall be out of Sight of England, and I will gaze at the last Cliff of my dear native Country, till I can see it no longer.
Feb. 13. On Wednesday last a Duel was fought on Epping Forest, between *Cornet Gardiner* of the *Carribineers* (and not *Capt. Gardiner* of the *Matines*, who distinguished himself last War at the Siege of *Guadaloupe*, tho' it was confidently reported to be the latter) and the *Rev. Mr. Hill*, Chaplain of *Bland's* Dragoons, when the latter received a Wound in his Body, of which he died on Friday Night, at his Lodgings in *Johnfon's Court*, *Charing Cross*.
Feb. 14. It is said that the *Right Hon. Lord Clive* is preparing with all Expedition to set out for the *East-Indies*, in the first Ship that sails, his Lordship's Presence being thought necessary in those Parts.
His Grace the *Duke of Bedford's* Estate, which is situated at *Thorney*, about five or six Miles from *Peterborough*, which consists of above 19000 Acres of Land, is entirely under Water, 3 Feet deep, so that it looks like an continued Sea. Last Week died on board a Ship in the River, coming from *Bermuda*, *William Poppel*, Esq; Governor of that Island.
Sunday last the Wife of a Barber, in the City of *Durham*, who was married the Day before, was delivered of Three Sons and a Daughter, who were immediately baptized by the Names of *Abraham*, *Isaac*, *Jacob* and *Sarah*. The Woman is in a tolerable good Way, but there seems but little Probability of the Children doing well. [This good fertile Wife was really VERY QUICK.]
We learn from *Hull* in *Yorkshire*, that the Country adjoining to that Town, on the *Holderness* Side of the *River Hull*, is totally under Water for several Miles, that though there are several Drains into that River, which carry off a great Quantity of Water, the Inundation rather increases than diminishes; that some Villages were quite destitute of Inhabitants, and that it was not without much Danger the Country People came to that Town, tho' over the Place where there was once a good Turnpike Road.
A Letter from *Yarm* in *Yorkshire* says, "This Place has undergone a second Inundation within this Month. The former, of the first of December, you are already acquainted with from the public Papers; the latter began on Thursday, the 29th in the Morning, and rose to the Height of several Feet in every House in the Town. The Current of the River through the Streets was very violent, and attended with a terrible Wind, which seemed to threaten us with utter Destruction. As the Inhabitants had so lately suffered from the same Cause, they very readily took the Alarm upon the first rising of the River, and removed their Effects, and perishable Commodities into their upper Rooms, which happily prevented much greater Losses than otherwise they must have unavoidably sustained, as the Flood continued for two whole Days. We have hardly a Garden Wall standing about the Town; and our Houses are so well steeped with wet, that the Consequence may be very bad, especially as Coals are very scarce here, on account of the late rainy Season."

BOSTON, April 5.
Extract of a Letter from *London*, Feb. 11, 1764.
"The French King has published an Arret, permitting the free Importation of Horses and Lumber into his Islands, to be paid for in *Rum* and *Melassia*."
Other Advices from *London* are, that the Trade between the West-Indies and North-America, as also the Revenues of the latter, are now under Consideration. The *Duties on Melassia*, *Sugars*, &c. imported into his Majesty's Plantations from the French, Spanish and Dutch Settlements in the West-Indies, but chiefly from the former, it is said, would be determined by the latter End of *February* last—Various are the Conjectures as to this Affair; by some it is said, a low Duty will be laid on foreign *Melassia*, 1 or 2 Pennies per Gallon; it is thought, it is as much as it will bear: That there will be a Duty of 10s. per Q. Weight on foreign *Sugars*: A very large Duty, or total Prohibition of *French Rum*. It is also said, a Duty will be laid on *Tea*, on *Wine* and *Fruit* from *Spain* and *Portugal*, imported into the Plantations. It is said, that the Duty on *Whalebone*, exported from the Colonies of Great-Britain, will be taken off. It is said a Premium is likely to be granted on *Hemp* raised in, and imported from *N. America*.
The above we publish as Reports; the first Vessel from *London*, it is probable, will bring the Determination of them.
It is rumoured, that *General Monckton* will, at the earnest Request of the Colonies, be appointed Commander in Chief in North-America.

It is reported that *Lord Egmont* is to have the Property of the *Island of St. John* in the *Gulph of St. Lawrence*: The *Tenure*, by which *Lord Egmont* proposes to hold the *Island of St. John*, is, it is said, extremely well calculated for the Cultivation of that *Island*; and for the Advantage of the Trade, and particularly the *Fishery of N. America*; the Government thereof proposed, has not the least Resemblance or Analogy to the Proprietary Form of other Governments, often complained of; but, on the contrary, all their Inconveniencies are obviated.
The *Island of St. Vincent*, in the *West-Indies*, is claimed by *Lord Cordigan*, as Heir to the *Duke of Montague*.
NEW-YORK, April 16.
Our last Advices received from above, are dated the 6th *Instant*, and are authentic, viz.
That *John Johnson*, Esq; *Sir William's* Son, has set off with about 200 *Indians* and *Whites*, to destroy the *Towns* on the *West-Branch* of *Sasquehannah*, &c. as many of the *Delawares* who have not retired farther South, are collecting themselves to have one Trial for their Country, which the whole Body of that Nation must abandon, if repulsed. There are 200 more in the same Service, under *Capt. Montieur*, and two other Officers; so that when *Capt. Johnson* joins them, we may expect to hear that the *Enemy* have received their Deserts.
Since the 8th ultimo, not less than 3000 Persons have been inoculated for the *Small-Pox* in *Boston*; and not above 5 of that Number died, and they were Children under 2 Years old, that had been troubled with other Infirmities.
PHILADELPHIA, April 19.
We hear from *Northampton County*, that one *David Owens*, a Defserter from the *Regulars*, who has lived some Years among the *Indians*, came in last Week to one of our *Out Posts*, bringing with him five fresh *Indian* Scapls, and a white Boy, who was a Prisoner among the *Indians*, being taken by them last Fall, when they killed the People that were crossing *Delaware* in the Flat. They relate, that they were coming down *Sasquehannah* with nine *Indians*, viz. four Men, a Lad, two Women, and two Children, to fetch Corn; that they encamped at Night, and made a Fire to sleep by; that in the Night *Owens* waked the white Boy, and made him go from among the *Indians*, and lie on the other Side of the Fire; that he then removed their Arms, except two Guns, and a Hatchet; with the two Guns he shot dead two of the *Indian Men* immediately, and with the Hatchet dispatched the *Indian Lad*, the two Women, and two Children; but two of the Men made their Escape. *Owens* staid not far from the Place till the Morning, when he scalped the two Men, the Lad, and the two Women; and then gave his Knife to the white Boy, bidding him scalp the two Children; but he declining it, they left them unscalped, and came away. *Owens* reports that 900 *Indians* were assembled, and waiting for others to join them in an Invasion of this Province; but the following Advices make this doubted.
Extract of a Letter from *Johnston Hall*, April 6.
I have now upon Service 400 friendly *Indians*, who will be able to free your Province from the Incursions of the *Delawares*, &c. The *Senecas* have been so greatly alarmed, at the Bodies of *Indians* sent out, that they have begged for Peace, and agreed to every Concession required of them. I thought this News might not be disagreeable to you.
Extract of a Letter from *New-York*, April 16.
Sir William Johnson has concluded a Peace with the *Chenotes*. They are to deliver up the Murderers of *one Hewllick*, and two other *Indian Traders*, and for this have left three Hostages with *Sir William*. They are to deliver up all the Prisoners they have, *Deferers* and *Negroes*, amongst them. They have ceded to His Majesty the *Carrying Place* at *Njagara*, and some other Posts; have taken up the Hatchet against His Majesty's Enemies; are to send a Number of Warriors to act against the *Shawancks* and *Delawares*; and are to call in all their People that are among them. *Sir William* has several Parties out, above 400;
