TO BE SOLD

MARLBOROUGH BREWERY,

STRONG BEER and PORTER, at Eighteen Pence, and ALE at a Shilling a Gallon, Virginia Currency, in Cask, equal in Goodness to any that can be imported from any Part of the World: As nothing but the genuine best Malt and Hops will be used, without any Mixture or Substitute whatsoever; which if the many Treaties of Brewing published in Great-Britain, did not mention to be frequently used there, the Experience of those who have Drank those Liquors imported from thence, would point out to be the Case, from their pernicious Effects.

The severe Treatment we have lately received from our Mother-Country, would, I should think, be sufficient to recommend my Undertaking (tho' I should 'not be able to come up to the English Standard, which I don't question constantly to do) Yer, as I am satisfied, that the Goodness of every Commodity is it's best Recommendation, I principally rely upon that for my Success; and my own Interest, having expended near Eight Thousand Pounds, to bring my Brewery to it's present State, is the best Security I can give the Public to assure them of the best Usage, without which, such an Undertaking cannot be supported with Credit.

The Casks to be paid for at the Rate of Four Shillings for Barrels, Five Shillings for those between Forty and Fifty Gallons, and a Penny the Gallon for all above Fifty Gallons; but if they are returned in good Order and Sweet, by having been well Scalded as soon as emptied, the Price of them shall be returned or discounted.

Any Person who sends Bottles and Corks, may have them carefully filled and corked with Beer or Porter, at Six Shillings, or with Ale at Four Shillings the Dozen. I expect in a little Time to have a constant Supply of Bottles and Corks, and if I meet the Encouragement I hope for, propose setting up a Glass-House for making Bottles, and to provide proper Vessels to deliver to such Customers as savour me with heir Orders, such Liquors as they direct, at the several Landings they desire being determined to give them all the Satissation in the Power of
