ALGIERS, June 16.

SOME Weeks ago, the Aga, who is
the Chief General of the Regency,
marched with a great Body of
Troops against the Moors, who in-
habit the Mountains, to oblige them
to pay their annual Tribute; which
as they refused, he was oblig'd to
make War against them. In the
he met with great Success, but the Moors
afterwards considerably reinforced, routed
the Regency being inform'd by Letters from
Generals, that this Defeat was owing to the
nce of the Aga, the Dey gave orders that he
be strangled. As soon as the Order was shewn
he put himself in a Posture of Defence, and
ur'd to make his Escape; but Eight Men, who
pared for that Purpose, massacred him with
res. Upon taking an Inventory of his Effects,
ere found in his House 19,000 Sequins, 66 Dia-
mms, and a great Number of Gold Watches,
ere confiscated.

It has hardly ceased raining
Six Weeks, during which Time the Wind has
bl, and we have had some Hail. It is to be
at this Weather, so unusual at this Season, will
be lamented, as all the Necessaries of Life
are excessive dear.

It is said that several Prelates
Kingdom are preparing an Act of Accession to
eral Confederacy. Among them are the Arch-
ep of Lemberg, the Prince Bishop of Cracow, and
ep of Kamineck. It is added, that the new
e has had some private Conferences with them
Subject.

The last Advices from Corsica
that the Inhabitants of Calvi, in Concert with
malcontents, had contriv'd to bring into the
Arms concealed in Fascines and Sacks: Their
as, to have put themselves in a Condition of
g the Defeat of the Genoese, when the French
ould have embark'd; but the Plot being dis-
d, the French Commander had caus'd the Arms
ized, and Seven of the principal Inhabitants to
ed.

Prince Charles de Radzivil, of
the General Confederacy of Poland, arriv'd
esterday.

Affairs of this Kingdom seem to be daily more
ld. The Confederates do not agree with re-
to the Abuses that are to be redress'd, and the
al Confederacy is not the most favourable to
ms. From some Circumstances it even seems as
General Confederacy, if it was not for the
e of the new Primate, had already lost the
ence of Prince de Repnin, the Russian Am-
br.

The General Confederacy of
has sent the several Waywodes of this King-
requiring their Compliance with the following
s. I. That all Gentlemen who have not yet
the said Confederacy, shall do it immediately.
at all the Courts of Justice shall subsist as hereto-
but shall not judge any of the Confederates.
that the Marshals of the Crown shall not pass any
ce without the Participation of at least Four of
confederates. IV. That the Marshals of the Crown
e Treasurers shall be immediately restored to the
on of their respective Rights.

Members of the Commission of War, and the
ry, have demand'd their Dismission; and others
on the First of this Month, the Oath to the
and the General Confederacy; after which these
Tribunals resumed their Sittings.

The Public has hitherto in vain
ed a Manifesto from the King of Spain against
suits of this Kingdom. It is now said that this
Paper (if there should be one) will be only deli-
to the Sovereigns of Europe.

LONDON, August 15.

Yesterday Morning some Dispatches arriv'd in Town
the Hon. Colonel O'Hara, Governor of Sene-
ga, which were immediately carried to the Secre-
tary of State.

It is heard that as soon as a new Ministry is formed,
Earl of Chatham will take a Tour to Italy, for the
recovery of his Health.

Physicians are now convinc'd through what Channel
ream of Court Favour runs, when the Secretary
unpopular Nobleman, is appointed Secretary to
eroy of a neighbouring Kingdom.

British Minister, at a foreign Court, has lately
home, that none of his Memorials had the least
tion paid to them, on account of the contemp-
tuous Idea which they entertain'd of the Infatigability of
Councils at home.

Ridiculous Error generally prevails, that no Irishman
ver be appointed to the chief Government of our
Nation, as if we could have any Objection to in-
or Fellow Subjects of that generous Kingdom with
in Office, when they are every Day appointed to
Employments (the Secretaryship, for Instance)
Side the Water.

It is written from Smyrna, that a Knight of Malta,
had been a Prisoner in the Castle of the Seven
towers, near Constantinople, Ten Years, lately made

his Escape on board a French Man of War, and had
the good Fortune to get clear off.

This Day arriv'd a Mail from Holland, by which
there is Advice, that a Squadron of Four Venetian
Men of War was arriv'd at Algier, on board one of
which Ships was a Member of the Senate of that Re-
public, who had Orders to offer Peace to the Dey and
Regency, and in case the Conditions were not accept'd,
to declare War against them immediately.

We hear that the Earl of Chatham's present Illness
is principally a nervous Fever, attended with a kind of
rheumatick Ague, affecting the Head chiefly; and it is
suppos'd to have been occasion'd by his Journey to
Town from Bath, in a Fit of the Gout, in the severest
Weather of last Winter. Dr. Addington now resides
in his Lordship's House, as his Indisposition requires the
constant Attendance of one of his Physicians.

The Assertion in the Papers, that Lord Clive, with
his late Acquisitions, is now worth Eighty Thousand
Pounds per Annum, is void of Truth; and the Public
may be assur'd, that his Lordship has not made the
least Addition to his Fortune by his late Expedition to
India.

We are inform'd, that a great Personage's late Re-
signation of a very high Office, was by no Means vo-
luntary, he having previously declar'd, that if it was
taken from him, he never would accept of any other
Place from the C---t, especially while the present
M---y continued in Power, at whose Behaviour he
is so much irritat'd, that it is thought he will be a
perpetual Thorn in their Side for the future.

They write from Glasgow, that a surprizing Take
of Herrings was lately made at the Isle of Sky, which
amounted to One Hundred Boat Loads; and they had
likewise great Success in the Bays of Glenluce and
Kintyre.

In most of the Counties in England, and Part of
Scotland, the Corn in general looks extremely well;
and although not quite so forward as is usual at this
Season, yet there is a better Prospect of a good Crop
of Grain than has been seen at any Time within these
Twenty Years past.

A Plan is said to be under Consideration,
in order for discovering a North-West Passage over
North-America by Land, which has so often, in vain,
been attempted by Sea.

We hear from repeated Trials of North-American
Oak, at the principal Dock-Yards in this Kingdom,
the Master-Builders are entirely of Opinion, that the
Timber of that Country is by no Means hard enough,
or of sufficient Durance, to be us'd in the Construction
of his Majesty's Ships of War.

Letters from Paris are full of the Resolutions of the
Parliament of Paris against the whole Body of Jesuits,
for totally depriving them of their Privileges and Pre-
rogatives, and banishing them out of the Kingdom for
ever.

Letters from Paris, dated August 7, say, "The
Duke of York is to go with the King, the 10th Instant,
to Chantilly, where the Prince of Conde has invit'd
about 300 Persons, approv'd of by the King."

We hear from Paris, that a Shark, Twenty-two Feet
long, was lately caught in the Mouth of the River
Seine, and was shew'd about the Country as a great
Curiosity.

It is said there is no less than 200,000 Papiests at this
Time in and about London; so that their Number has
increas'd above One Third within these 20 Years.

From Scotland we are inform'd, that the Pleadings
and excellent Speeches of the Lawyers, in the famous
Cause of Hamilton and Douglas, reflect great Honour
both to themselves and their Country, being nothing
inferior, in Point of Eloquence and Subtilty, to any
that has ever been made in Westminster-Hall, or
either of our British Senates: In short, Greece or
Rome, in the most flourishing and distinguished Periods
of those famous Republics, never produc'd greater
Orators than North-Britain does at present.

A Waiter at a certain well-known Tavern,
it is said, keeps no less than a Phaeton, with a Pair of
handsome Hunters, and a Footman in Livery.

A Bishop, we are told, has a Play to be perform'd at
One of our Theatres the next Season.

A Gentleman of Eminence on the Stage; we hear, is
shortly to be ordain'd a Clergyman.

By Accounts from various Parts of the
Continent, they have a Prospect of the most plentiful
Harvest that hath been known for many Years past.

We hear that a great Patriot intends to do
all in his Power the next Sessions of Parliament, to put
a Stop to the future Practice of Reversionary Grants,
and divers other lucrative Sinectures, and that the latter
may die with the present Possessors.

We hear orders will soon be given for raising Twelve
Companies of Foot to be sent out in the next Ships for
the East-Indies.

This Morning some Dispatches of Im-
portance were sent off from the Secretary of State's
Office, for his Excellency Governor Bernard, of New-
England.

They write from Brest, that Dispatches
had been just sent off to the Governors of the French
West-India Islands, containing some fresh Instructions
concerning a Regulation of Trade between the Subjects
of their Britannick and Most Christian Majesties in A-
merica.

We are credibly inform'd that the Quantity of Bohea
Tea in the East-India Company's Sale, which is to com-
mence on the First of September, is prodigious great,

so that it may reasonably be expected that Article will
be sold for less, than has been known in the Memory
of Man.

They write from Paris, that the Govern-
ors of all the Sea-Ports in the South of France, had
received strict Orders to prevent the Embarkation of
his Majesty's Subjects, whether Labourers or Artificers,
on board any foreign Ships, as the Court had received
Information, that great Numbers were preparing to
leave that Kingdom, to go and settle in North Amer-
ica.

According to one of the Morning Papers, it is said
his Portuguese Majesty insists on having an Article in-
serted in the intended new Treaty, that his Subjects
shall enjoy the same Privileges in this Kingdom, as the
British Subjects do in Portugal.

We have an Account from the Palatinate
of Marienburgh in Prussia, that the whole Town of
Tolmekir was reduc'd to Ashes on the 29th Ult. the
Cattle and Two or Three Barns only being left stand-
ing: And the poor Inhabitants were not able to save
any Thing but their Lives.

The Expenses of the great Douglas Cause, we are
told, already amount to 60,000l.

The Terror that has spread itself amongst the Papiests
in the Country is, we hear, so great, that all the poorer,
and more ignorant Sort amongst them, have accus'd
themselves, on being ask'd concerning their Religion.

The Earl of Chatham is now judg'd by
his Physicians to be in a fairer Way of Recovery than
for these Two Months past.

By a Gentleman just come from America, we learn,
that our Colonies have increas'd at least One Third, in
Point of Populoufness, since the Peace; that the Cities
of Philadelphia and New-York are greatly enlarg'd
and improv'd; that the Number of Inhabitants in Can-
ada are doubl'd; and that the Settlers invit'd to the
Floridas, from the Continent of Europe are daily in-
creas'ing.

It is assur'd, that a great Nobleman, makes
no Scruple of declaring, that he obtain'd his late In-
crease of Dignity through Lord C---'s Influence
with the K---; a Circumstance which affords room
for Speculation, as it was little thought at one Time,
his Lordship's Influence would have been employ'd to
aggrandize the Allies of the Throne.

We are assur'd that another great Nobleman, whose
bodily Infirmities have lately been the Object of much
popular Conversation, order'd, a few Days ago, up-
wards of Two Hundred Letters, which had been sent
him, to be burnt unopen'd.

We hear that a Commission is preparing to pass the
Great Seal, for appointing the Right Hon. Henry Sey-
mour Conway, Esq; Lieutenant-General of the Ord-
nance, in the room of Lord Viscount Townshend.

They write from Civita-Vecchia, of the 25th of last
Month, that the Genoese have at last concluded a Truce
for Four Years with the Corsican Malcontents; and
that the latter have engag'd themselves to furnish with
Provisions, the Spanish Jesuits in Corsica.

Letters from Naples, dated July 28, advise, that the
Guards on the Frontiers of that Kingdom, had some
Time ago stopp'd Two Persons near San Germano,
who were not provided with Passports. That they had
with them several Balés, One of which was fill'd with
Gold Coin; and a great Number of Ingots of the same
Metal, together with a Casket of Jewels; that they
have undergone frequent Examinations, but had hi-
therto persister'd in concealing themselves, tho' there is
great Reason to believe that they are Jesuits in Disguise.

By a Private Letter from Bombay, by the Speaker
Indiaman, we learn, that the Arabs on the Sea Coast
up the Gulph, have lately cut off One of our Country
Vessels, Captain's Name Brewer; and that they are fit-
ting out, at Bombay, Two of the Company's Frigates,
and the Salamander Bomb, to go in quest of the Rob-
bers. The same Advices add, that they are getting
ready Troops there to go out upon an Expedition to
Mocha.

Letters from Berlin, of the 8th Instant, say, that
the Day before, being the Birth-Day of the Princess
Wilhelmina, of Prussia, that Princess received a Pre-
sent of Jewels of very considerable Value from the
Prince Stadtholder, with a Letter of Felicitation on
the Occasion.

By Letters from Genoa there is Advice, that a Por-
tuguese Man of War had chas'd a Corfair of Tunis,
mounting 24 Guns, on Shore, near Cape Sparte, on
the Coast of Barbary, and afterwards set her on Fire,
after an Engagement of Two Hours.

They write from Toulon, that M. Bompard, Naval
Commander, had just received an Order from his
Court, to equip a Number of Men of War and Fri-
gates for Sea, with the utmost Expedition.

A Letter from Paris, dated August 7, says, "The
Question agitated here for Two Years past, relating to
the Liberty or the Prohibition of foreign Commerce
in our Colonies, has lately been finally determin'd in
a Council at Compeigne. The Letters Patent of 1727,
respecting the Prohibitive Laws, are confirm'd, not-
withstanding which, the Two Free Ports are establish'd,
One at St. Lucia, for the Levant Islands, and the
other at St. Nicholas, for the Leeward Islands, whither
Strangers may not only resort and import Ship Timber,
and certain other Goods, but Liberty is given for the
Purchase of whatever Staple Commodities the Colonists
may bring thither. It is also agreed, that the Duty
of 10 Livres per Head for each Negro, and Duties on
Cod-Fish, shall be suppress'd; and that the Produce
