March 21. The Honourable House of Representatives, in their last Session, preferred a humble, dutiful and loyal Petition to the K.I.N.G; and also forwarded Let-

ters to the Earl of Shelburne, General Conway, Marquis of Rockingham, Earl of Cambden, Earl of Chatham, Lords of the Treasury, their Agent, &c. representing their Grievances, relative to the late Act for imposing Duties in America, and carnelly intreating their Aid and Patronage. Copies of which we have obtained, and shall present them to our Readers.—The Petition to the KING, is as follows, viz.

An humble PETITION to the KING's Most Excel-lent MAJESTY.

Most Gracious Sovereign,

Y OUR Majefty's faithful Subjects, the Representatives of your Province of the Massachusetts-Bay, with the warmest Sentiments of Loyalty, Duty and Affection, beg Leave to approach the Throne; and to lay at your Majesty's Feet, their humble Supplications, in Behalf of your distressed Subjects the People of the Province.

Our Ancestors, the first Settlers of this Country, having, with the Royal Confent, which we humbly apprehend involves the Confent of the Nation, and at their own great Expence, migrated from the Mother Kingdom, took Possession of this Land, at that Time

Kingdom, took Pollession of this Land, at that Time a Wilderness, the Right whereof they had purchased for a valuable Consideration, of the Council established at Plymouth, to whom it had been granted by your Majerty's Royal Predection King James the First.

From the Principles Loyalty to their Sovereign, which will ever warm the Breast of a true Subject, tho' remote, they acknowledged their Allegiance to the English Crown: And your Majesty will allow us, with all Humility, to say, that they and their Posterity, even to this Time, have associated frequent and signal Proofs of their Zeal for the Honour and Service of their Prince, and their firm Attachment to the Parent Country. and their firm Attachment to the Parent Country.

With Toil and Fatigue, perhaps not to be conceived by their Brethren and Fellow Subjects at home, and with the conflant Peril of their Lives, from a numerous,

with the conftant Peril of their Lives, from a numerous, favage and warlike Race of Men, they began their Settlement, and God prospered them.

They obtained a Charter from King CHARLES the First, wherein his Majesty was pleased to grant to them and their Heirs and Assigns for ever, all the Lands therein described, to hold of them, and his Royal Successors, in free and common Soccase; which we humbly conceive is as absolute an Estate as the Subject can hold under the Crown. And in the same Charter, were

bly conceive is as absolute an Estate as the Subject can hold under the Crown. And in the same Charter, were granted to them, and their Posterity, all the Rights, Liberties, Privileges and Immunities of natural Subjects, born within the Realm.

This Charter they enjoyed, having, as we most humbly conceive, punctually complied with all the Conditions of it, til in an unhappy Time, it was vacated. But after the Revolution, when King WILLIAM and Queen MARY, of glorious and blessed Memory, were established on the Throne, in that happy Reign, when, to the Joy of the Nation, and its Dependencies, the Crown was settled in your Majesty's illustrious Family, the Inhabitants of this Province shared in the common Blesses. fing. Then they were indulged with another Charter, in which their Majesties were pleased, for themselves, their Heirs and Successors, to grant and confirm to them as ample Estate in the Lands or Territories as was granted by the former Charter, together with other the most effential Rights and Liberties contained therein: The principal of which, is that which your Majesty's Subjects within the Realm have ever held a most facred Right, of being taxed only by Representa-tives of their own free Election.

Thus bleffed with the Rights of Englishmen, through

Thus bleffed with the Rights of Englishmen, through the indulgent Smiles of Heaven, and under the auspicious Government of your Majesty, and your Royal Predecessors, your People of this Province have been happy, and your Majesty has acquired a numerous Increase of loyal Subjects, a large Extent of Dominion, and a new and inexhausible Source of Commerce, Majesty and Clark.

and a new and inexhaustible Source of Commerce, Wealth and Glory.

With great Sincerity, permit us to assure your Majesty, that your Subjects of this Province ever have, and still continue to acknowledge your Majesty's High Court of Parliament, the supreme legislative Power of the whole Empire; the supremeding Authority of which is clearly admitted in all Cases, that can consist with the fundamental Rights of Nature and the Constitution; to which your Majesty's happy Subjects in all Parts of your Empire, conceive they have a just and equitable Claim.

It is with the deepest Concern, that your humbles

It is with the deepest Concern, that your humble

It is with the deepest Concern, that your humble Suppliants would represent to your Majery, that your Parliament, the Rectitude of whose Intentions is never to be questioned, has thought proper to pass divers Acts, imposing Taxes on your Majesty's Subjects in America, with the sole and express Purpose of raising a Revenue. If your Majesty's Subjects here, shall be deprived of the Honour and Privilege of voluntarily contributing their Aid to your Majesty, in supporting your Government and Authority in the Province, and defending and securing your Rights and Territories in defending and securing your Rights and Territories in America, which they have always hitherto done with the utmost Chearfulness: If those Acts of Parliament shall remain in Force, and your Majesty's Commons in Great-Britain shall continue to exercise the Power of granting the Property of their Fellow-Subjects in this

Great-Britain shall continue to exercise the Power of granting the Property of their Fellow-Subjects in this Province, your People must then regret their unhappy Fate, in having only the Name left of free Subjects.

With all Humility we conceive, that a Representation of your Majesty's Subjects of this Province in the Parliament, considering their local Circumstances, is utterly impracticable: Your Majesty has been heretofore graciously pleased to order your Requisitions to be laid before the Representatives of your People in the General Assembly, who have never failed to assort the meessay had to the Extent of their Ability, and sometimes beyond it; and it would be ever grievous to your Majesty's faithful Subjects to be called upon in a Way, that should appear to them to imply a Distrust of their most ready and willing Compliance.

Under the most sensible Impressions of your Majesty's wife and paternal Care for the remotest of your faithful Subjects, and in full Dependance on the royal beclarations in the Charter of this Province, we most sumbly beseeth your Majesty to take our present unhappy Circumstances under your royal Consideration, and assort us Relief in such Manner as in your Majesty's great Wisdom and Clemency shall seem meet.
