FALLS OF PATOWMACK
For Encouragement to Trade, &c. I purpose to let out, on
the most reasonable Terms, for a Number of Years, or
otherwise, this Place, with all the valuable Improve-
ments hereafter mentioned.

AT the Landing, and along-side of Six Fathom
Water, a complete Stone Building, 151 Feet
long, 36 wide, and 3 1/2 Stories high.
In this Edifice are contained, 1st, A valuable Mer-
chant Mill, with Two Pair of Stones, Bolting Mills
and Fan new, well fixed, and constantly supplied with
a never failing Stream, sufficient to keep the whole of
them going. I can affirm, that this Mill, with the
Assistance of Four Men and Two Boys, can manu-
facture 50,000 Bushels of Wheat annually, into good
merchantable Flour.

2d, A large Bakery, with Three Ovens; Brakes and
other Necessaries completely fitted, and a fine Bread-
Room above the said Bakery and Ovens.

3d, Two large Granaries, 36 Feet by 30, on each
Side the Mill, so that Grain cannot be stored more
conveniently. Adjoining to these is,

4th, A neat retailing Store, with its Shelves, Coun-
ter, Drawers, &c. completely finished.—Adjacent
to the said Store, is a convenient Accounting Room,
with a Fire-Place, at the Back of which, is a private
lodging Room, with a Fire-Place likewise. From this
Room we enter into a Balcony 24 Feet long, with pro-
per Seats fronting the River, which commands variety
of curious and entertaining Prospects.

5th, The several large Rooms below, for the storing
of Salt and West-India Goods, with their Cellars, &c.
so near the River, that, by the Assistance of a Crane,
a Vessel of any Burthen may discharge her Load safe
in the Stores in as little Time as can be done in any
Port in America; and likewise makes equal Dispatch
in Loading, the Granaries being so near the Vessel,
and the Fall from the House so great, that, by a Spout
from the Windows, the Grain may be conveyed in the
most speedy and easy Manner.—The Loft of this
Building has no Partition, and therefore, being 151
Feet long, and 36 wide, gives great Plenty of Room
to spread Flour to cool, in the Summer, so that no-
thing is wanting but a Capital to make the Place com-
plete.

Contiguous to the Mills, &c. is a very good Dwell-
ing-House, built with Stone, Two Stories high, 96
Feet long, and 28 wide, with convenient Rooms,
Kitchen, Cellars, and Ten Fire-Places thereto belong-
ing, to be let with the said Mills.

I have laid out 53 Lots for a Town here; each Lot
containing Half an Acre, including the Tobacco
Warehouses; most Part are for Sale on moderate
Terms.

I have within those Lots built a Grift Mill, for
Country Custom, and a Saw Mill, and will supply
Scantling and Plank for building, very cheap.

The River Patowmack is so well known, that I need
not be particular in describing it; as from its Mouth
to the very Falls, it is allowed to be the best Naviga-
tion of any River on the Continent.

The Falls are situated 12 Miles above Alexandria,
and 3 Miles above George-Town.—Any Vessel that
comes to Alexandria, or up to George-Town, will find
deeper Water above the said Falls, the Channel be-
ing straight, and easily found. The Falls excel any
Part of the Colony, for beautiful building Stone, in
the greatest Quantity, and the easiest raised. The Soil
is excessively rich, and abounds with the finest of
Springs convenient to every Part. And,

Above all the Advantages before-mentioned, the
Place is noted for one of the finest Fisheries in Virginia;
the whole Season through, the best of Fish is caught
here in great Abundance.

The Falls Landing is Ten measured Miles nearer to
Lesburg, Winchester, and so to the Back Country, than
any other whatsoever. Besides, this Landing being so
much nearer to the Back Inhabitants, and a fine Road,
it receives all the Produce brought down from above
the Great Falls, in Battoes, which Business is now be-
come very considerable, and must improve; as Indian
Corn, Walnut-Plank, and Lumber of all Sorts, will
bear the Land Carriage, from the Falls above, to this
Place; much more, and better, will Wheat, Pig, and
Bar-Iron, and Tobacco. All these Commodities are
made in great Plenty on each Side the River, above
the Falls; the Lands being very fine, the Produce must
be brought to this Spot for Shipping.

For further Encouragement, any Gentleman that
might be willing to settle here, and carry on a Trade
suitable to the Place, may have the Mills, with all Im-
provements; and I will oblige myself to furnish him,
this present Year, with 5000 Bushels of good merchant-
able Wheat, 3000 Bushels next Year, and 10,000
Bushels annually after, of my own Produce, for the
Terms agreed on. Or, if he, or they, chuse rather to
put in a Stock, any Way adequate to the Improve-
ments made by me, I will be at an equal Expence to-
wards the Working, Supporting, and Maintaining the
said Business, receiving my Proportion of the Profits;
but it is not to be supposed that I could advance any
Thing farther, than finding the Mills and all Improve-
ments, without any Rent. The Management and
Direction I will give up, and he, or they, may draw
his, or their, whole Stock out, when they please;
otherwise I will rent the whole, very reasonable, as be-
fore-mentioned.

“Here Water falls, and might do more, by Art!
“Majestic Nature shines in ev'ry Part.”

Besides the above; at the Seneca Falls, which is the
Public Landing-Place for all the Iron, and other Com-
modities, brought down the River Patowmack, from
above, at the said Landing, the said River being com-
manded and brought through a natural Race, where
there is a Fall of Ten Feet Water; I have to dispose
of, in the same Manner, one of the best Places for
Furnace, Forges, Saw, and Grift Mill, that can be
found.

The principal Articles to support those Works to Ad-
vantage, are Ore, Coals, Timber and Stone; all of which
are in the greatest Quantity, of the best Quality, and
easiest procured.—The Iron Ore is inexhaustible on the

River Side, and belongs to me, I will deliver it on the
Furnace Bank at Ten Shillings per Ton, Coal at
Twenty Shillings per Load of 144 Bushels.—Those Ar-
ticles are brought down to the Spot by Water in Bat-
toes; and I have 13,000 Acres of Land adjoining to the
said Falls above, binding the River Fifteen Miles in-
cluding several Islands: All those Lands are covered
with the best of Timber; and as the Navigation is so
easy up to the Seneca Falls, it is not possible there
should ever be a Scarcity of Timber and Ore to support
the Scheme.—The Situation is so good that the Fur-
nace, Forges, and Mills; may join to one another,
along Side of the said Race, at the Landing; and every
Article is conveyed to the Works, from the main
River; by this Race, which affords the Fall, as above-
mentioned. There being no further Expence attend-
ing the Water Part, the Foundation so good; with a
natural Race for the Water to run; and building Stone,
Timber, &c. so convenient; I can venture to affirm,
that one Year's Profit will reimburse the whole Expence
and Costs of Building.

Between the Landing at the Seneca, and that at the
Little Falls (where the Tide goes) is, by Survey, exactly
14 measured Miles. A public Waggon Road is lately
opened betwixt them, and is already much frequented.

I have also built, at the Seneca, a Smith's Shop,
with Two Fires, and a Wheelwright's Shop adjoining,
together with several Dwelling-Houses at the same
Place; I have likewise got new Battoes suitable for
bringing down the Commodities.

The Buildings and Improvements at both Landings,
so far as I have done, have actually cost me upwards
of Eleven Thousand Pounds; and I have so great an
Opinion of the many Advantages arising from those
convenient Situations, that I am willing to add a fur-
ther Stock of One Hundred Working Slaves; seated on
17,000 Acres of the most valuable Land on Patowmack;
joining the said Falls, actually in my Possession, and
convenient to support all the said Business. Those fe-
veral Plantations are well stock'd with Horses, Cattle,
and Hogs. Among the said Slaves, are very valuable
Tradesmen, such as Forgemen, Coopers, Smiths, and
Carpenters. I have several Waggons and Teams, that
work upon the Road, between the Two Landings;
and shall be ready to put the whole in Stock, provided
I get a suitable Partner, who understands Trade and
Business; or will rent the Whole, or Part, as we may
agree.

Any Person, or Persons, inclinable to increase his,
or their Fortune, by taking the Trouble to come and
view the Premises, and examine the same, will be fa-
voured, that I have not advanced any Thing farther
than they find agreeable to Truth; and I am confi-
dent, that there is no Business, whatever, at this
Time, that can afford more certain and larger Profit,
from so small an Advance, as the additional Expence
required. JOHN BALLENDINE.
