from us as the Americans are from you;never enriched us by their Labour or their Com-, merce; they never engaged in our Wars, and fought, as Brothers, Side by Side with us and for us, bleeding as Brothers, Side by Side with us and for us, bleeding by the Caufes—they never loved and honoured in.—they are not our Children.—But all this your American Colonits have been, and are to you!—Yet at this very Moment, while you are abusing us for attempting to reduce the Corficans, you yourselves are about to make Slaves of a much greater Number of those British Americans, depriving them Number of thole British Americans, depriving them of their Property by the Authority of your Laws; taking away the Right of giving their own Money; arbitrarily disloving their Parliaments and dragooning their Citizens. In short, you appear to have no Idea of Liberty, or real Desire to see it flourish and increase; all the Liberty you seem to value, is the Liberty of abusing your Superiors and of tyrannizing over those below you." those below you."

CHARLES-TOWN, (SOUTH-CAROLINA) March 2.

The Superfluities imported here from Britain, and other Articles which we may make among ourselves, are supposed to have drawn upwards of 100,000 Sterling from among us, for feveral Years preceding the passing of the Stamp-Act.

A Calculation having been made of the Amount of the Purchale-Money of Slaves expected here the pre-fent Year, it is computed at 270,000l. Sterling, which Sum will by that Means be drained from this Pro-

vince.

A Subscription is actually setting on Foot for establishing and supporting a Manusactory-House in this Town. And it is said to be in Contemplation, also to establish a Paper Manusactory in this Country.

The last Advices from Mobille are, that the Spanish Frigates, lest by Don Juan d'Ulloa, at New-Orleans, were gone from thence: That the Vessel, in which the Gentieuen who were charged with Remonstrances to

Gentlemen who were charged with Remonstrances to the French King, after having been at Sea for some Time, sprung a Leak and put back, and did not pro-ceed on her Voyage til the 12th of January: And, that the French Inhabitants were determined never to fuffer a Spaniard to fet Foot in that Country again, but fuch as may put in by Stress of Weather.

B O S T O N, March 20.

It is faid that the Duke of R-ch-d and Earl of The Noblemen who have diffinguished them-felves by their steady Attachment to the Cause of Li-berty and Truth, diffented from the late Resolves, passed in a certain august Assembly; alledging that it was not consistent with their Sentiments to proceed to Censure upon hearing one Side only.

At a Meeting of the Select-Men, it was unanimously woted, that the jellowing Address be presented to his Excel-LENCY FRANCIS BERNARD, Esq;

Moy flease your Excellency,

T a Time, when artful and mischievous Men have A T a lime, when artiful and milicinevous Men have fo far prevailed, as to foment and spread Divisions in the British Empire: When mutual Considence, which had so long substited, with mutual Advantage between the Subjects in Britain and America, is in a great Measure broken: When Means are at length found, even to excite the Resentment of the Mother-search her Colonies. and they are published. State, against her Colonies; and they are publicly charged with being in a State of Disobedience to Law, and ready to refift the constitutional Authority of the Nation: The Select-Men of this Metropolis, cannot be the unconcerned, or filent Spectators of the Calamities which in Consequence thereof, have already fallen upon its Inhabitants.

To behold this Town furrounded with Ships of War,

and Military Troops, even in a Time of Peace, quartered in its very Bowels; exercifing a Discipline, with all the Severity which is used in a Garrison, and in a State of actual War, is truly alarming to a free People. And what still heightens the Missfortune, is, that our Gracious Sovereign and his Ministers, have formed fuch an Idea of the present State of the Town, as to induce a Necessity of this Naval and Military Force, for the Aid of the Civil Magistrate in the Preservation

of its Peace and good Order.

of its Peace and good Order.
Your Excellency can witness for the Town, that no fuch Aid is necessary: Loyalty to the Sovereign, and an instexible Zeal for the Support of his Majesty's Authority, and the happy Constitution, is its just Character: And we may appeal to the impartial World, that Peace and Order were better maintained in the Town helps it was even rumoused that the Majesty. Town before it was even rumoured that his Majelly's Troops were to be quartered among us, than they have been since. Such a Measure then, we are persuaded, would never have been ordered by the Wisdom of the British Administration, had not the Necessity of it been drawn from the Representations of some of his Ma-

orawn from the Representations of tome of his Majesty's Servants in this Province.

Your Excellency will allow us to express our Opinion, that the Public Transactions of the Town, and the Behaviour of some of its individual Inhabitants have been greatly misapprehended by his Majesty's

We therefore in Duty to the Town we have the Hoand pray that you would be pleased to communicate to us, such Representations of Facil only, as you have judged proper to make, since the Commencement of the last Year. And as there is a prevailing Report, that Depositions are, and have been taken ex Parte, to the Prejudice of the Town and particular Persons, may we not assure ourselves that your Excellency will, in Justice, cause to be laid before us such other Representations as may have come to your Knowledge, that the Town knowing clearly and precisely, what has been alledged against it, may have an Opportunity of vindicating itself.

Atteft. WILLIAM COOPER, Town-Clerk. The foregoing Address was accordingly presented his Excellency by the Select-Men of the Town last Friday Morning, and on Safurday Afternoon his Excel-lency was pleafed to return the following Answer.

GENTLEHEN,

THE Propriety of your addressing me upon Public Business,
I shall not now dispute; but in my Answer I shall confine myself to such Parts of your Address, as relate to you
as the Select Men, or to the Town as a Body.

I have no Reason to think that the Public Transactions of this Tovun, have been misapprebended by his Majesty or his Ministers, or that their Opinions thereon, are jounded upon any other Accounts than those published by the Town itself. If therefore.

If therefore, you can windicate yourfelves from fuch Charges as may arife from your own Publications given will in my Opinion, have nothing further to apprehend.

Extract of a Letter from a Gentleman in London to bis Friend in this City, dated Jan. 19, 1769.

"I had the Pleasure of dining, a few Days ago, with Mr. Wilkes, in the King's-Bench Prilon, in Company with several Gentlemen from America, and others from different Parts of England. He is one of the most entertaining Men in the World. I heard a Number of Sentiments from him, that would have done Honour to a Sidney or a Hamden. He is an Enthusiast for AMERICAN Liberty; and says, if you can but preserve an Equality among one another, you will always be free in Spite of every Thing. Titles are the Bane of an Infant Country. He enquired in a particular Manner after Mr. Dickinson: His Farmer's Letters, he says, are superior to any Thing of the Kind that was ever published in any Age or Country. He spoke with as much Virulence as ever against Scotland, for you must know, all the Scots Members of Parliament, in both Houses, are against America. The Toasts we drank were as follow: His Majesty and all the Royal Family. Liberty to the British Empire. John Glynn, Esq. The Pennsylvania Farmer. Number to Daniel Dulany. Esq. of Maryland John Glynn, Efq; The Pennsylvania Farmer.

Extract of another Letter of the same Date.
"Mr. Dickinson's Farmer's Letters, have carried his Name and Reputation all over the British Dominions, I was a few Days ago in a large Company of Patriots and Advocates of Liberty, where I heard a Thousand fine Encomiums passed upon them. It is a general Remark here, that all the State Papers, such as Addresses, Petitions, &c. which come from America, are wrote in a Stile not to be equalled in any Part of the British Dominions. There is a plain Reason for it; Men will always write well upon Subjects they feel

thoroughly.' By Capt. Young, we learn, that Capt. Kennedy, in a Snow for Liverpool, left Jamaica the latter End of December last, but Two Days after, about Ten Leagues off the West-End of the said Island, the Snow sprung a Leak, and the Water was up to her Lower-Deck before it was discovered; they fell to the Pumps, but could do nothing, on which they hossed out the Yawl, and had but just Time to put One Keg of Bread, another of Water, and a Handkerchief of Dollars into it, when the Snow sunk. Thus were they, 15 in Number, with very little Provisions, no Cloaths, or Instruments, at the Mercy of the Wind and Sea; they made a Sail with their Handkerchiefs, and stood before the By Capt. Young, we learn, that Capt. Kennedy, in a Sail with their Handkerchiefs, and flood before the Wind. In a short Time their Provisions and Water were expended, when 8 of their Number died for Want; the others, after being 14 Days in the Boat, arrived at the Northern Triangles in the Bay of Honduras, but could find no Provisions there, on which they again set Sail, leaving one Man, who chose to stay behind, and in Two Days arrived at Key-Ambergreafe, where they killed Two Boobies, and fuck'd their Blood, which, together with a few Cocoa Nuts, revived them 'til they were taken off by a Sloop, and carried to George's Key, where the Captain, and Five others, arrived in a most dismal Condition.
