We are told that the Number of Seamen to be employed for the Service of the present Year is to be 16,000, including Marines, which is the same Number employed for the preceding Year; this shews obviously, that there are no Thoughts of an immediate War, as has been propagated to deceive the Public.

The Cessions made to France by the House of Austria

The Cessions made to France by the House of Austria in the Low Countries, in the late Barrier Treaty, have greatly and justly alarmed the States-General. In Consequence of several Deliberations, their Ministers at Paris and Vienna have in Vain remonstrated, and we are assured, that they are recalled from those Courts. The States-General have put their Navy upon a respectable Footing, and are now recruiting all their Regiments, as they are resolved no longer to be a mere Cypher in the political System of Europe.
