Published according to Act of Parliament. The great and learned Doctor SANXAY'S IMPERIAL GOLDEN DROPS.

AFTER a very long Course of private Practice with the tender and most delicate Constitutions, the First Nobility and Gentry in Great-Britain, Ireland, and many Persons eminent for Fortune and Character in America, and in the West-Indies, the Doctor has proved beyond all Doubt his Imperial Golden Drops, to be the greatest Cordial to Nature, Medicine ever produced. These Drops are composed from the best Essence of the richest Gums and Balsams of the East and West Parts of the World; therefore, this Medicine is truly the Balsam of all the other known Balsams. It is from the combined Power, Efficacy and Virtue of these rich and natural Balsams, that these Drops are able to fortify the weak and enfeebled Parts; to give Health, Strength, and Vigour to a worn-out Constitution. So friendly is this great Cordial to human Nature, that it is a medical Aliment; nourishes the vital System, and prolongs Life. It is by these unequalled Virtues, that the Causes of Barrenness and Sterility in Women, and Impotency in Men, are to an almost Certainty removed. All rheumatic and gravelly Complaints are most assuredly relieved, and if continued for some Time, will radically cure the Disorders: Besides, all obitinate Gleet, seminal Weakness, Whites in Women, and every Weakness of the Reins and Loins, from whatever Cause proceeding, except the venereal Virus; these Imperial Golden Drops in a few Days effects a Cure. Those Patients labouring under an improper Treatment of Mercurials from unskillful Persons, in a certain Disorder, and find their Juices impoverished, will soon find their Account in the Use of these admired Drops. They who feel the secret Infirmities of advancing Years; or where the Power of Youth begins to decline, will find this Nature's grand Restorative their only Friend. It was for something like this grand Secret in Medicine, that the Fathers of Physick, the immortal Boerhaave and Sydenham laboured their whole Lives in vain to discover for the good of mankind.
