TO THE PUBLICK.

WHEREAS the heavy Burthens lately imposed, and as yet in Part continuing, by Great Britain, on the American Colonies, hath raised a noble patriotic Spirit amongst all real Friends to the Liberty and Happiness of their Country, for the Encouragement of our Manufactures and Manufacturers, the better to enable us to provide our own Necessaries, and thereby preserve our Money among ourselves, (the only Way to maintain our Freedom and Independence) instead of remitting it to England, in Pay for the Supplies by them furnished, which they can Tax at Pleasure without our Consent.—And whereas it is a Matter well known in the City of Philadelphia and Province of Pennsylvania, that Mr. Whitehead Humphreys, by his Application, Study, Labour, and Loss of Time, hath discovered and brought to Perfection the Art of converting Bar-Iron into Steel; and is, in fact, the first Inventor and real Profecutor of that important Branch of Business on this extensive Continent, and now makes and vends as good Steel as any imported from Europe, which Article only, if effectually prosecuted, would be an immense Saving to this almost exhausted Country.—His Inability, at this Time, to carry it on to the best Advantage, either for himself, or the Publick, calls for the Aid and Encouragement of all Well-wishers to American Manufactures; to take him by the Hand, and give him that Assistance so able an Artist justly Merits.—And for that Purpose, it is therefore proposed, by very many such Well-wishers, to erect a small Lottery, for the raising the clear Sum of Seven Hundred Pounds, for the support and Encouragement of the American Steel Manufacture, in this Infant oppressed Country, to be called
