PERFORMED in the most safe and approved method, practised in Great-Britain and Ireland, by Dr. Robert Lemmon, lately arrived from the city of Dublin; who after several years practice in physic in general, and inoculation, in particular, in Europe and America; as well as repeated opportunities of consulting the most able practitioners; proposes to inoculate at the house of Mrs. Ford near Leonard-town, Saint Mary's county; where he has now carried a set through the small pox by inoculation, and where suitable attendance is provided, at the trifling expence of two moidores, including board and attendance. Encouraged by his former as well as his present success; he doubts not but his patients in general, as usual, shall pass through so much dreaded a disorder, with little or no more confinement to bed than in health; without any prejudice to the most delicate constitution, or leaving any virulent remains, which too frequently happens in the hand of the injudicious. As the doctor is not determined to remain long in this country, he recommends it to all who desire to pass over the disease with safety, speedily to apply to him at Mrs. Ford's, where they shall be treated with the utmost integrity, by their humble servant,

The SHIP ANNAPOLIS, Feb. 10, 1774.
CAPTAIN EDEN takes this Method of informing his Friends in Patuxent, that, in compliance with the request of many of them, he intends to carry her round to Benedict next month, in order to remove the apprehensions they seemed to have, of too long a water carriage for their tobacco in small craft; and begs that, in order to prevent any unnecessary delays, those whom he may not have an opportunity of seeing, or applying to, will leave their notes for the tobacco intended for him with the inspectors of the different warehouses; and also any orders for goods they may want from England, by the return of the ship, in the latter part of the summer. Insurance is ordered, and shall be inserted in the bills of lading of those who do not desire to the contrary.

His correspondents, in other parts of the province, who are desirous of getting their tobacco home by this opportunity to a very early market, are requested to give him timely notice, when and where it is ready, in order that he may send craft. But if it should be convenient for them to send it by their own vessels, or to hire any upon the spot, he will acknowledge their taking that trouble as an additional favour, and will pay the usual freight on the delivery thereof on board the ship at Annapolis, where she will continue 3 or 4 weeks from this date, or afterwards in Patuxent.

The accounts of sales for the last voyage are daily expected.

TWO tracts of land at the mouth of Connecheague, containing five hundred thirty-three acres and three quarters of an acre, which I purchased at the sale of the manor, whereon Mr. Minor keeps public house, and where my brother George lived; whereon is a house two stories high with brick chimneys, three fire rooms below and three above, with cellars, barns, outhouses, &c. a good meadow, and plenty of timber to support it for many, many years. But it is so well known to every Jersey or Pennsylvania man, who ever went to the southward to look out for land for his children, that there is no occasion to say one word in praise of it. Whoever buys it shall have possession of it next fall, time enough to put a crop of winter grain in the ground.
