Falls of Patowmack, in Virginia, Aug. 22, 1774.  
THE subscriber, being just arrived from Great Britain, with a number of engineers and artificers, in order to remove the obstructions to the navigation of Patowmack river, at and above the Lower Falls; thinking himself fully qualified for such an undertaking, agreeable to his proposals before his emigration or Europe, he is desirous to have a meeting of his principal subscribers and others interested in necessary work; and considering it most convenient to all concerned to have the same at Georgetown in Maryland, he proposes that it shall be there Monday the 26th day of September next. At such time and place he will certainly attend, and be ready to lay before them an accurate plan, and estimate of the expence; also an act of the Virginia assembly, and likewise a subscription from some of the principal proprietors, &c. of the province of Virginia now residing in England, for the further encouragement of the proposed undertaking.

RAN away last night from the subscriber, living in Baltimore county, Maryland, near the Falls of Gunpowder, two convict servant men, lately imported to Baltimore, in the ship Alton Hall, John Parker, master. Mark Coe, an Englishman, about 22 years of age; 5 feet 8 or 9 inches high, a middling full face, straight bony fellow, with short brown hair; had on and took with him, when he went away, a hat cut small in the brim and tarred or oiled, two white linen shirts, one red cloth jacket with sleeves, a light coloured ditto without sleeves, one pair of crocus trousers, one pair of leather breeches, a pair of gray yarn or worsted stockings ribbed, and a pair of old shoes nailed round the heels. John Paxman, an Englishman, a weaver by trade but has been used to going by water, about 25 years of age, 5 feet 6 inches high, a well set fellow, dark eyes, has short hair, quick spoken, has lost part of one of his little fingers and has lately had a cut over one of his eyes, is a little knock-kneed and his toes turn very much out; had on and took with him, when he went away, a hat much as the above described, of snabrig shirt, old brown cloth coat with tar on it, crocus trousers, black ribbed stockings and old shoes. Whoever takes up said servants, and brings them to the subscriber, or secures them so as the owner may get them again, if 20 miles from home shall have 40 shillings for each, if 40 miles 4 pounds each, and if 80 miles the above reward including what the law allows, paid by...

In order to render the various complaints incident to the teeth and gums as little grievous as possible, takes this method to acquaint the gentry and public in general, that he makes and fixes natural and artificial teeth, from a single tooth to a whole set, to appear as well, and to be as easy and useful, as natural ones; likewise cleans teeth and draws stumps in the easiest and best manner, and makes a preparation for cleaning and preserving the teeth and gums. Also cures the scurvy, and has a potion which is excellent for curing all disorders in the mouth, eradicating every degree of the scurvy in the gums, preserving them from decaying, and rendering them beautiful and sound, with an excellent tincture for the tooth-ach. The said operator has practised five years in New-York with great success. His stay will be short here. He lives at Mrs. Sarah Flynn's, near the Dock, Annapolis.

THE subscriber takes this method to acquaint the public, that he hath declined the baking business, and as he purposes to leave this province as soon as he can get his affairs settled; requests all persons indebted to him to make speedy payment, and all those that have demands against him to send in their accounts, and they shall be settled by...

Annapolis, September 1, 1774.  
DR. BAKER, surgeon-dentist, from Williamsburg, Virginia, is just arrived in this city in his way to Baltimore, and intends returning the beginning of October next; that those who are disposed to apply to him may not be disappointed, he will be at the coffee-house, where they may consult him in all disorders of the teeth, gums, sockets, ulcers, cancers, abscesses, fistulas; suppurations and inflammations in the gums, which are more or less of a malignant nature; and in this way not only the gums are destroyed but also the teeth. Those persons who have had the misfortune of losing their teeth, may have teeth transplanted, and natural teeth grafted on the old stumps; also artificial teeth from a single tooth to a complete set, so that they may eat, drink, and sleep with them as natural ones. His antiscorbutic dentrifice for preserving the teeth and gums, is quite free from any corrosive preparation, and is a certain cure for all disorders of the teeth, gums, and foul breath. Its superior efficacy over any thing yet offered to the public will be evinced in once using; it concocts the vitiated juices, and renders a juvenile fragrance to the breath beyond description; which no nauseous tincture, or cloying odours of perfumed essence can give; it also makes the teeth white and beautiful, causes the gums to grow firm to the teeth, makes the saliva pure and blamless, is perfectly innocent, will eradicate the scurvy, and restore the gums to their pristine state, if the teeth and gums have been thoroughly cleaned by some skilful dentist: its efficacy is well known to the principal nobility, gentry and others of Great-Britain, France, Ireland, Holland, and other principal places in Europe, also to some thousands in America. The dentrifice may be had with proper directions at Mrs. Howard's coffee house, and at his house in Williamsburg, where all mercantile, shop-keepers, masters of vessels, may be supplied with any quantity to send to foreign parts, with proper directions in any language. Each pot is issued with his coat of arms, as in the margin of the directions to prevent fraud.
