FOR SALE

TWO tracts of land in the commonwealth of Virginia, one of them laying in the county of Berkley, joining the lands of Messrs. Rutherford, Nourse, and Washington, containing 643 acres, without improvements. This tract lays in an agreeable neighbourhood, and is of the best quality. Captain Thomas Rutherford, who lives adjoining, will show the land, and is empowered to sell it. The other tract lays in Loudoun county, on the east side of the Blue-Ridge, near Snickers-Gap, contains about 2500 acres. This land produces fine crops of Indian corn and small grain of every kind, is well watered, some improved meadow, and a large quantity of land capable of being made into meadow. It would be unnecessary here to give a further description of these lands, as no doubt the purchaser would chuse to see them. Mr. Snickers, or Mr. Sanford, who lives on the land, will show this last mentioned tract, and I will attend myself on the premises, the 30th day of November next, to treat with any gentleman disposed to purchase, or at any time before or after at my own house in Westmoreland county, Virginia.

Whoever takes up and secures the said negro, so that his master may get him again, shall have if taken within, or 10 miles from home, twenty-five pounds; if 20 miles, fifty pounds; if out of the county, one hundred and fifty pounds; if out of the state the above reward, and reasonable charges if brought home, paid by

CHARLES TOWSON.

Montgomery county, Sept. 14, 1779.

ON Thursday the 14th day of October (if fair, if not the next fair day) will be SOLD on the premises, the LAND and PLANTATION whereon I now live, containing 350 acres, upwards of 200 of which are cleared and in good farming order, about 18 acres of meadow now in grass and more may be made, a considerable part of the meadow is now watered at pleasure. This land lies about 16 miles above George-Town, is level, well wooded and watered, and is for the size as complete a farm as any in the county. The improvements are, a convenient brick house, kitchen, barn, still-house, mill-house, and horse-mill, which is very convenient for chopping or grinding of grain, and the best cider mill in the state. The other improvements are many and very convenient. There are three English stills, which will be sold either with or without the land. Likewise at the same time will be sold some negroes, a very good waggon and gears almost new, a quantity of whiekey and wheat, and a considerable stock of horses, cattle, sheep, and hogs, and many other articles.

JAMES PERRY.

N. B. Should the purchaser want a larger quantity of land, there is now for sale a valuable well improved plantation, containing 500 acres, which very conveniently joins on the above land.

These two plantations would make a most complete farm.

ANY person that is master of the malting and brewing business, will meet with great encouragement in the neighbourhood of the subscriber, not only this year, but any year. He has a very convenient place to let, either from year to year, or a term of years. There is a dwelling house 16 feet square, with good plank floors above and below, a stone cellar under the house, 20 feet square, and convenient out houses. No one need apply, unless he can bring undoubted credentials of his good morals, and firm attachment to the glorious American cause. For further particulars apply to

Dentis quid horridius nigro, quid palcbrins albo?

THOUGH bred to physic and surgery, I have, for these six years past devoted and dedicated my whole time and attention to that part of surgery, which concerns the dentist's art; I observed, with regret, that no material instructions were to be derived from writers, who have touched (I think) but collaterally on the subject; therefore I endeavoured, for my own improvement, and the advantage of my country, to preserve the teeth, and regulate their growth, and to remove the multiplicity of disorders and deformities to which they are exposed. As the teeth serve for mastication, for the distinct articulation of sounds, and for ornament, their care and preservation are, perhaps, of more importance than is generally imagined. From an assiduous application and practice, I have a perfect knowledge and perception of the structure of the teeth, the anatomy and physiology of the teeth, and parts adjacent. The design of this advertisement is to offer my assistance, and inform the public, that the SCURVY in the gums, be it ever so bad, may be cured. I clean and scale the teeth, from that corrosive, tartarous, gritty substance, which impedes the gums from growing, infects the breath, and is one of the principal or primordial causes of the scurvy, which, if not timely prevented, eats away the gums, so that many peoples teeth fall out lound. I prevent teeth from growing rotten, keep such as are decayed from becoming worse, even to old age, make the gums grow firm up to the teeth, and restore and preserve their beauty. I fill up with gold, or lead, those that are hollow, so as to render them useful—it prevents the air getting into them, which aggravates the pain. Those who have had the misfortune of losing their teeth, may have natural teeth transplanted, from one person to another, which will remain as firm in the jaw (without any ligament) as if they originally grew there. Natural teeth grafted on old stumps; also artificial teeth; from a single tooth to a complete set, which can be made and fixed in with the greatest exactness and nicety, without pain or the least inconvenience, so that they may eat, drink, or sleep with them in their mouths, as natural ones, from which they cannot be discovered by the sharpest eye. I extract teeth and stumps after the best and easiest methods, be they ever so deeply situated in the jaw. I beg to be consulted in all the disorders of the teeth, gums, sockets, ulcers, cancers, abscesses, fistulas, suppurations and inflammations in the gums, which are more or less of a malignant nature. My DENTIFRICE, I beg leave to recommend to the public, which I have found to be greatly superior, not only in elegance but also in efficacy, to any thing hitherto made use of for the teeth and gums. 'Tis quite free from any corrosive preparation, will restore the gums to their pristine state, will prevent the tooth-ach, and render the breath delicately sweet, (if the tartarous substance is off the teeth) and will remedy all those disorders that are the consequence of scorbutic gums. I think it necessary to add also, for the sake of undissimulated truth, that it is the best DENTIFRICE I ever knew. It preserves the teeth and gums, keeps the teeth white and beautiful, without in the least impairing the enamel. It was communicated to me by Dr. John Baker, and may be always procured at my residence, in Charles county, near Port-Tobacco. I propose to be in the city of Annapolis, on the 22th day of October, where, perhaps, I may stay a month.
