FOR SALE,

Tracts of land in the commonwealth of Virginia, one of them lying in the county of Berkeley, joining the lands of Messrs. Rutherford, Nourse, and Washington, containing 643 acres, without improvements. This tract lays in an agreeable neighbourhood, and is of the best quality. Captain Thomas Rutherford, who lives adjoining, will show the land, and is empowered to sell it. The other tract lays in Loudoun county, on the east side of the Blue-Ridge, near Snickers-Gap, contains about 2500 acres. This land produces fine crops of Indian corn and small grain of every kind, is well watered, some improved meadow, and a large quantity of land capable of being made into meadow. It would be unnecessary here to give a further description of these lands, as no doubt the purchaser would chuse to see them. Mr. Snickers, or Mr. Sanford, who lives on the land, will show this last mentioned tract, and I will attend myself on the premises, the 30th day of November next, to treat with any gentleman disposed to purchase, or at any time before or after at my own house in Westmoreland county, Virginia.

JOHN AUG. WASHINGTON.

NOTICE is hereby given, that the corporation of the city of Annapolis intends to petition the next General Assembly for a law to pass enabling them to lay a further assessment on all property, and to regulate ordinaries, within the said city, and to dispose of TEMPLE and DEAN streets, now stopped up and useless to the inhabitants.

To be SOLD at the PRINTING-OFFICE, LAWS passed last Session of Assembly, and VOTES and PROCEEDINGS of the SENATE and HOUSE of DELEGATES. Likewise ALMANACKS for the year of our Lord 1780.

Dente quid horridius nigro, quid pulchrius albo?

THOUGH bred to physic and surgery, I have, for these six years past devoted and dedicated my whole time and attention to that part of surgery, which concerns the dentist's art; I observed, with regret, that no material instructions were to be derived from writers, who have touched (I think) but collaterally on the subject; therefore I endeavoured, for my own improvement, and the advantage of my country, to preserve the teeth, and regulate their growth, and to remove the multiplicity of disorders and deformities to which they are exposed. As the teeth serve for mastication, for the distinct articulation of sounds, and for ornament, their care and preservation are, perhaps, of more importance than is generally imagined. From an assiduous application and practice, I have a perfect knowledge and perception of the structure of the teeth, the anatomy and physiology of the teeth, and parts adjacent. The design of this advertisement is to offer my assistance, and inform the public, that the SCURVY in the gums, be it ever so bad, may be cured. I clean and scale the teeth, from that corrosive, tartarous, gritty substance, which impedes the gums from growing, infects the breath, and is one of the principal or primordial causes of the scurvy, which, if not timely prevented, eats away the gums, so that many peoples teeth fall out round. I prevent teeth from growing rotten, keep such as are decayed from becoming worse, even to old age, make the gums grow firm up to the teeth, and restore and preserve their beauty. I fill up with gold, or lead, those that are hollow, so as to render them useful—it prevents the air getting into them, which aggravates the pain. Those who have had the misfortune of losing their teeth, may have natural teeth transplanted, from one person to another, which will remain as firm in the jaw (without any ligation) as if they originally grew there. Natural teeth grafted on old stumps; also artificial teeth, from a single tooth to a complete set, which can be made and fixed in with the greatest exactness and nicety, without pain or the least inconvenience, so that they may eat, drink, or sleep with them in their mouths, as natural ones, from which they cannot be discovered by the sharpest eye. I extract teeth and stumps after the best and easiest methods, be they ever so deeply situated in the jaw. I beg to be consulted in all the disorders of the teeth, gums, sockets, ulcers, cancers, abscesses, fistulas, suppurations and inflammations in the gums, which are more or less of a malignant nature. My DENTIFRICE, I beg leave to recommend to the public, which I have found to be greatly superior, not only in elegance but also in efficacy, to any thing hitherto made use of for the teeth and gums. It is quite free from any corrosive preparation, will restore the gums to their pristine state, will prevent the tooth-ach, and render the breath delicately sweet, (if the tartarous substance is off the teeth) and will remedy all those disorders that are the consequence of scorbutic gums. I think it necessary to add also, for the sake of undisturbed truth, that it is the best DENTIFRICE I ever knew. It preserves the teeth and gums, keeps the teeth white and beautiful, without in the least impairing the enamel. It was communicated to me by Dr. John Baker, and may be always procured at my residence, in Charles county, near Port-Tobacco. I propose to be in the city of Annapolis, on the 12th day of October, where, perhaps, I may stay a month.

THREE HUNDRED POUNDS REWARD.

September 25, 1779.

RAN away from the subscriber, on the 21st instant, living near Northampton furnace, about 11 miles from Baltimore-Town, a likely black NEGRO man, named SIMON, about 36 years of age, 5 feet 8 or 10 inches high, well made, by trade a blacksmith; and on when he went away, a new tow linen shirt and trousers much worn, a blue broad-cloth waistcoat much worn, one old linsley ditto, a pair of shoes lately soled and nailed in the heels, an old hat, if any other cloaths they are unknown, but it is suspected that he will get other cloaths and endeavour to make his escape, as he is a very artful fellow. Whoever takes up and secures the said negro, so that his master may get him again, shall have if taken within 100 miles from home, twenty-five pounds; if 200 miles, fifty pounds; if out of the county, one hundred and fifty pounds; if out of the State, the above reward, and reasonable charges if brought home, paid by the subscriber.

CHARLES TOWSON.

THERE is at the plantation of John Ferguson, in Prince-George's county, a very dark bay MARE, about 12½ hands high, docked, and branded on the near buttock as appears to be about 4 years old. The owner may have her again on proving property and paying charges.

Annapolis, September 9, 1779.

THE subscriber wants a number of COAKS SHOES made, for which good wages will be given; shoemakers may take them out in quantities.

A CURRIER will meet with encouragement by applying to WILLIAM GOLDSMITH, Of whom a good price may be had for coarse shoe thread.

September 1, 1779.

ONE HUNDRED DOLLARS REWARD.

RAN away last night, an English convict servant man named JOHN JAMES, by trade a butcher; he is about 5 feet 8 or 9 inches high, stout and strong made, has a remarkable black beard, and always appears to be shod winded when at any violent exercise; had on and took with him a brown kersey jacket, hem linen shirts and trousers, a red great coat and a duffel blanket, has been five years in this country, and has near two to serve. Whoever apprehends the said servant, and secures him so that his master shall get him again, shall receive the above reward besides what the law allows, and if brought home all reasonable charges paid by the subscriber, living in Kent county Maryland.

ISAAC PERKINS.

N. B. Good encouragement for 3 or 4 good nailors will be given by I. P.
