Intendant's-office, April 28, 1785.
AS many purchasers of confiscated British prop-
erty, for the emissions of June 1780, and the
emission of May 1781, neglected to give bond be-
fore the first day of this month, agreeably to the
directions of the act to establish funds, &c. such
debtors as are able to pay, are liable to immediate
suit, and judgments can be obtained the first court,
and executions thereon issue to compel the pay-
ment of the money due the state in the money con-
tracted for: The intendant of the revenue, desirous
to avoid bringing suits, if the intention of the act
can be complied with, and substantial justice can be
done without, gives notice to such debtors who have
not given bond, that if they will pay to the treasurer
of the western shore, on or before the 10th day of
July next, in specie, or in the emissions of June
1780 (commonly called state, and state continental)
one sixth of the sums due from them respectively,
that they shall, on giving bond before the said 10th
day of July next, with security for the residue, in-
cluding interest to the first day of September last,
have credit until the first day of January 1790; and
they may discharge such residue of their debt in any
specie certificates issued by this state. All debtors
who do not comply with this offer, will be sued im-
mediately after the said 10th day of July, without
any distinction.

DAN. OF ST. THO. JENIFER, intendant
of the revenue

Intendant's-office, April 28, 1785.
TH E R E appearing to be about the sum of
twenty thousand pounds of the emissions of
June 1780, including interest, commonly called
state and state continental paper money, in circula-
tion, more than the amount of bonds lodged in the
treasury, and particularly appropriated by law for
the redemption of these emissions; to secure the pay-
ment of which bills, the act to establish funds, &c.
directs, that after the first day of June next, a
draught shall be made of bonds taken for the re-
demption of the emission of May 1781, and of the
bonds taken in virtue of the said act for property
sold, and not bonded for before the act passed: It
being the desire of the intendant to avoid a draught,
if the redemption of the bills to the amount above
stated can be secured in any other manner, he pro-
poses to all those who have bonds in the office liable
to a draught as aforesaid, that the balance aforesaid
directed to be secured, be paid by the 10th day of
July next, into the treasury, by the debtors, in prop-
erty to their several debts, in specie, or of the said
bills. This will require about one eighth of the sums
due to be paid. If, therefore, the said debtors, be-
fore the day above mentioned, pay into the treas-
ury one eighth of their debts respectively, in specie
or of the bills aforesaid, and the sum paid in is equal
to the balance to be secured as aforesaid or nearly so,
the intendant will apply the same, with such other
means as may be in his power, to the purpose aforesaid;
and the debtors to the state will be relieved
from the hazard of a draught, which might be very
distressing to individuals, though the contribution
made by all will make the burthen very light, by
being divided; and if there should not be a suffi-
cient sum for the purpose aforesaid made up by the
debtors, with the other means in the intendant's
power, by the day aforesaid, and a draught must
take place, then those who do pay into the treasury,
in consequence of this notice, shall have their money
returned, and must stand their chance of being
draughted, as the intendant has no power to excuse
any individual, if there is a draught.

Anne-Arundel county, June 21, 1785.
ON the 6th ult. was held the anniversary com-
mencement of the Pennsylvania university for
the conferring degrees in the arts and sciences,
where the several following species of degrees were
conferred in the presence of a very numerous and
discerning audience, whose unaffected demonstra-
tions of satisfaction at the exhibitions of the several
graduates was a proof of the character and impor-
tance of that university, as well as the estimation of
the graduates.

The graduates for the degree of bachelor in the
arts and sciences were in number five; for the degree
of master of arts five; for the degree of doctor of
divinity three, for the degree of doctor of laws one,
for the degree of bachelor in medicine, which the
American States furnished to that college this year,
(to the honour of that medical school) were in num-
ber nine, of which states that of Maryland has main-
tained its usual credit, having furnished two of the
number, of which was Dr. Richard Hopkins of
this county, a gentleman who, with a very liberal
education, has completed his studies under the tu-
tion of one of the most respectable and eminent pro-
fessors of the above college; the doctor is about
returning, with some intention of serving his country
in the character of practitioner of physic, a pro-
fession, when ornamented with the gentle virtues,
and distributed with a generous hand, under the
guidance of a philanthropic heart, does honour to
human nature, as well as a blessing to society; how
far the doctor may be found possessing these qualities
must be left to the decision of the impartial public;
his extensive knowledge in the several departments
of his profession, and his character in the literary
world, is a sufficient recommendation to the learned
as well as those whom pain and disease would drive
to seek relief from the hands of the sons of Escu-
lapius.

Per order of the Pennsylvania university.
