2 Annapolis, October 19, 1785. STOLEN or strayed from this city, about three weeks ago, a light gray HORSE, full fifteen hands and a half high rising eight years old. Whoever will deliver the said horse to the printer shall receive four dollars reward, and reason-ble charges.

THERE is at the plantation of Samuel Tyler, in Prince-George's county, near the governor's bridge, taken up as a stray, a bright bay MARE, about thirteen hands high, has a blaze face, four white feet, and branded on the near buttock with something like an horse shoe, and appears to be rising four years old. The owner may have her again on proving property and paying charges. W 3

St. Mary's county, October 10, 1785.

THIS is to forewarn all persons from hunting or going through my plantation with gun or dogs from the date hereof, as I am determined to take the advantage of the law in that case made and provided.

2 WILLIAM GREENWELL, jun.

St. Mary's county, October, 1785.

To be SOLD on the premises, to the highest bidder, agreeable to the last will and testament of Hugh Hopewell, deceased, on the third Friday in November next, if fair, if not the next fair day.

A VERY valuable tract of land, situated on Patuxent river, in St. Mary's county, containing upwards of 500 acres, four miles from the mouth of Patuxent, and adjoining Town creek; on the land are a large cow house, and several other houses convenient for three families; its prospect and situation for fish and oysters are equal to any on Patuxent river; there are about 200 acres in cultivation, and upwards of 300 well wooded and timbered; there may be erected a very good water mill at a small expence, as there formerly stood a mill, and nothing is now wanting but the house; the plantation is in good repair, and immediate possession will be given. Four or five years credit will be given the purchaser for the greatest part of the purchase money, as may be agreed on the day of sale, on his giving bond with interest and approved security.

All persons having claims against the aforesaid Hugh Hopewell, deceased, are desired to bring them to Charles Chilton, who is authorized to receive any monies due the estate of the said Hugh Hopewell, and give every necessary acquittance or discharge, or to the subscriber, that they may be adjusted and paid, and all those who are any ways indebted to the estate are requested immediately to settle and discharge the same. Those who neglect complying with this notice may depend on being dealt with as the law directs. W 4

people of the house went with him to her lodging, hard by, and charged her with having taken away the halcyon, which she denied positively; and added, that she wished "the might break her neck if she had stolen them." She was then standing on the top of the stairs, and had scarcely uttered these words before she fell down from the top to the bottom, and broke her neck. By the UNITED STATES in CONGRESS assembled, February 23, 1785.

RESOLVED, That the quartermaster-general, commissary of purchases, commissary of issues, commissary of forage, and all the late heads of departments, or their successors or agents, be required without delay, to forward to the board of treasury or to the comptroller, a list of their respective deputies who have been duly authorized to issue certificates. That the heads of departments aforesaid, and each of their deputies who have not settled their accounts, and all other persons who have issued certificates of debts due by the United States, loan-office certificates, and certificates of final settlement excepted, be required forthwith to deliver to the board of treasury, or to some commissioner of accounts in the state where such persons reside, a fair abstract of all the certificates which they have issued, and they shall specify those certificates for which they have taken receipts as for cash paid, and a copy of those abstracts shall be transmitted by the board of treasury to the several commissioners of accounts, to whom they may be of use in detecting frauds.

That a copy of these resolutions be published in the gazettes or public news-papers of the federal States, and that if any person or persons so required as aforesaid, shall refuse or neglect for the space of two months from such publication, to deliver a full and just account of the certificates, he or they have issued, the board of treasury, or in case it is not at the time organized, the comptroller, shall take proper steps for causing him or them to be prosecuted according to law.

RESOLVED, That the commissioners of accounts be intimated, to be careful how they admit charges against the United States, on certificates which are not duly supported by the authority of congress, and the accounts of the officers who have issued them.

0X CHARLES THOMSON, secretary.

Commissioner's office of army accounts, Annapolis, September 28, 1785.

HAVING long since taken every measure in my power to inform the officers and soldiers of the Maryland line, who have not received their arrears from the United States, that I should close the office for adjusting their claims in this state the first day of October, I find many have neglected to apply. Attention to their interest alone induces me to prolong the period until the tenth day of next November, after which no consideration whatever will render it possible to take notice of their demands, as the papers will then be sent to the commissioner for settling with the army, near congress, and should this intimation be neglected, the subscriber will hold himself fully justified from any difficulty or expence that may be the consequence.

5X JOHN WHITE, commissioner.

Intendant's office, September 2, 1785.

NOTICE is hereby given to all persons indebted to the state of Maryland, that do not pay the interest due upon their bonds by the last day of October, that execution shall issue agreeably to the directions of the act for the emission of bills of credit not exceeding two hundred thousand pounds, on the security of double the value in lands, &c.

DAN. OF ST. THO. JENIFER, intendant of the revenue. 7X

of fusion, is any other metallic substance. After its being fixed, I expose it to the fiercest fire, nor does it retrace (as was asserted by several connoisseurs, before my experiment) any share of its volatility, the principle of which I effectually destroy. I have remarked, on the contrary, its being to completely fixed, that the of- tener it undergoes the fusion, the more it condenses,
