To be SOLD,

TWO blooded stallions, the property of the late Mr. John Patterton, viz the noted horse RO-CHESTER, who, for activity, elegance, and pedigree, is exceeded by none on this continent; his performance on the turf is so well known to most of the sportsmen of this state, as to render recapitulation needless. ROMULUS, an elegant full blooded horse, (except a small mixture of the hunter) full sixteen, and an half hands high, eight years old this spring, was esteemed a good runner until he met with a small lameness in training, which he has now got over; the above horses will be sold on a credit, the purchaser giving bond and approved security, if not sold by the twentieth of March next, they will be farmed for the season. There is likewise for sale at the same place a handsome mare, three quarters blood, very gay, and a good hack, with an elegant filly, rising two years old, got by Rochester, equal in figure and size to any thing in the state. Any person inclining to purchase or to farm either of the above stud horses, will meet with a good bargain by applying to the subscriber, living four miles on the road from Bush-town to Havre-de-Grace. All persons indebted to the estate of the above John Patterton, deceased, are requested to make payment, and those who have any claims against the estate are desired to bring them in, that they may be adjusted and paid by

FIVE POUNDS REWARD.

Upper Marlborough, Prince-George's county, September 12, 1786.

As I purchased him of Notley Young, Esq; on Patowmack, I apprehend he is lurking about in that neighbourhood. Whoever takes up and secures the said fellow, so that his master may get him again, shall receive if above ten miles from home thirty shillings if out of the county forty shillings, and if out of the state the above reward, including what the law allows, paid by

To the worthy gentlemen merchants, and others, concerned in wharfs and crafts in the city of Annapolis. THE subscriber humbly proposes to erect or trans-a machine for the security and safe-guard of the wharfs already finished, or that may be finished in this city, it is called a pile-driving machine, and requires a block of 350 weight, and a fall of 35 feet, the utility of which will be of the greatest advantage to the proprietors of wharfs, as by driving the piles at proper distances they will not only preserve the wharfs from bilging, but will likewise keep them firm and solid, and at the same time prevent either shipping or small craft from surging. He likewise proposes to frame and make a machine for clearing the dock, and making every wharf navigable for vessels of any burthen. Any gentlemen who choose to encourage so useful an undertaking will please to communicate the same to the subscriber soon, as if properly encouraged, he will have the pile-driving machine completed by the first of April next; and as wharf building, where the water can be made navigable, has been of the greatest advantage, as well as a beauty and an ornament to the place where properly encouraged, the subscriber hopes to meet with the public's approbation and encouragement.
