N. B. The PRESIDENT and DIRECTORS think necessary to inform the Subscribers, that it is with the greatest resuctance they make this additional call, and that nothing but the apprenention of suspending the work at this favourable leason could induce them to it. Annapolis, October 1, 1788. BSERVING a number of debtors to the state, as well as other individuals, are often in want of some kind of certificates, and at a loss where to get them on proper terms for their money, and the holders of certificates when in want of cash for them, are likewise at a loss for a market, for want of some particular place to apply, where they could be on a certainty of getting an exchange on reasonable terms.

The subscriber being well acquainted with the different kind of certificates and their passing value, has induced him to offer his service to provide, and informthose that do or may want, that by lodging the needful he will supply them with certificates, or cash, at a short notice, on reasonable terms, on paying a moderate commission. There being a number, who have payments to make in certificates to the treasury, that live at a considerable distance, many of whom wish to make payments as they provide money for that purpose, are prevented for want of the certificates, and not being convenient to ride 50 or 100 miles to get them and make a small payment; these who are thus situated that wish to be provided with certificates, and have them placed to their credit, by forwarding the money at any time may depend on being furnished with certificates, and payment made to those orders, on as good terms as if they were present, by their Humble fervant,
