their political doubtful events the dread of 4 the attainment mion being re-

moved, for a time at least, by the peace of 1783, which recognised that independent fovereignty which they had assumed and exercised for years, it became necessary to provide for its permanent security by the establishment of a permanent government. A kind of tederal government, under the designation of congreis, had already grown out of the circumstances of the times, but the authority which it had necessarily assumed, was not, in every instance, formally and solemnly recognised by each of the states of which that aftembly was composed; and new cases had arisen, But a natural jealouty of the supreme power, and a paratively speaking, resembling a fine courser. reluctance to confign new privileges into the hands of These two JACKS seem as if designed for difviolent and obstinate than in others. In this important lation and government. He recommends the constitution proposed by the convention, viz. an elective president, a senate and an house of representatives, by very sensible arguments, and a species of eloquence that

flows from fincerity of intention. "This treatile is written in a careless and somewhat slovenly manner, with regard to ftyle and composition; be it contains a great deal of sound political

observation. " As the subject of the remarks is in the highest degree interesting, we shall take occasion here to add to the observations of our ingenious author one of our own, which we submit to the consideration of American politicians. After the independence of the United States of the Netherlands was recognised by the Spaniards in the twelve years truce 1609, the individual states began to pay very little regard to the decrees of the states general; and even particular towns and lordships seemed desirous of maintaining entire independence on the states of the provinces within which they were fituated. The Dutch government, which had greatly relaxed, and was even threatened with difsolution, recovered its tone through the dangers with which the United Provinces were threatened by the war of thirty years in Germany, which was terminated by the peace of Westphalia. After this, dissentions prevailed uniformly among the Dutch, or were composed, according as they dreaded or were secure against their ambitious neighbours. But the American states have no neighbours by whom they can ever be in danger of being made a conquest. The points of similitude and dissimilitude between the American and Dutch provinces, furnish a curious subject H. H." of reflection and conjecture.

In COUNCIL, February 24, 1789.

A) HEREAS, by a report made by the treature: of the western shore to this board, it appears that several of the county clerks have neglected to make regular returns of ordinary and marriage licences, licences to retailers of spirituous liquors, licences to fell liquor at horie races, and hawker's and pedler's licences granted, and of fines and forfeitures, forfeited recognizances, and amerciaments, accruing in their respective counties, and also that several of the theritis and other officers have neglected to make annual payment of the public money collected by them on the above mentioned accounts, whereby the revenue of the state is greatly injured; notice is hereby given, that it is determined by this board to take ettectual iteps for compelling a compliance with the law in the before-mentioned respects, of which all perfons concerned, as well on the eastern as the western shore, are desired to pay attention:

T. JOHNSON, jun. elk.

Patowmack Company:

A Tamceting of the ESIDENT and DIREC-IT TORS of the PATOWMACK COMPANY the 17th of February, 1789.

Agreeable to the acts of the assemblies of Virginia and Maryland, the said president and directors direct, that the proprietors advance and pay into the hands of the treasurer five per cent, on the shares held by them respectively, on or before the tenth day of April

> GEORGE WASHINGTON, THOMAS JOHNSON, THOMAS S. LEE, GEORGE GILPIN, JOHN FITZGERALD.

The President and Directors, at the time of their last call, flattered themselves that another would not be necessary, till they could compel delinquent subscribers to pay up. Legal proceedings have been carried on as far as the service of executions against many, but the money is not yet in the treasury. The President and Directors have therefore been obliged, with other efforts, to make another call, or to fee their exertions by which the Shanandoah and Senega Falls are already so far reduced as to have permitted the passage of a few loaded boats, produce no substantial benefit. It is now, however, happily ascertained that a few months labour more, in a favourable state of the river, will effect a safe and easy navigation through the Shanandoah and Seneca, and to the Great Falls.

Those who have not complied with the two last calls: are requested to do it immediately, or coercive meafures will be purfued speedily.
