The expences of the war in India are admitted on all sides—the policy of it only is disputed. If the Biitish army should be successful, and an acquisition of territory shall be the consequence, we will venture to predict that the ideas of Mr. Francis will be fully confirmed in the course of a very few years. On the other hand, if such success shall produce an accumulation of wealth, instead of an accession of empire, the profits may go some way towards defraying the expences of
