PHILADELPHIA, June 13. The following extraordinary circumstance happened a few years ago.

On a farm belonging to the government of Petersburgh, a young Russian peasant, named Daniel Priputenkow, having been bit by a mad dog, but shewing no symptoms of hydrophobia, went to a wedding, where he had been previously invited; there he eat and drank cheerfully, without any one deeming it necessary to stand on their guard; but before they the executive for immediate assistance. Several settle arose from table, forty eight men and forty-one women ments have been entirely cut off, and others deserted, were suddenly taken ill, so rapid was the progress of owing to the general apprehensions which the inhabithe venom: some complained of a dreadful pain in the head, some spit blood abundantly, whilst others remained stupissed and senseless. Assistance was instantly procured, and those unfortunate guests were observed to have, under their tongue, little pustules, first of the size of a barley-corn, but every instant increasing in bigness. These were bored through with a needle, and evacuated a black gore. The operation was repeated nine times upon some of the patients, and then the wounds were rubbed with fine salt. The fame trial was made upon the young man, but to no purpose; and after having shewed all the symptoms of confirmed and incurable madness, he died in all the horror and agony of that dreadful disorder.

The furviving patients were preserved, and even restored to perfect health, by drinking, night and morning, a large tumbler of strong infusion of a plant known to the Betanists by the Latin name of Ginesta Tinaoria.

CURIOUS WRITING.

A most extraordinary piece of writing has been lately exhibited to a few curious persons of distinction in Dublin, designed and written in London by Joseph Ganthony, Esquire, F. S. A. which, it is said, has been purchased by a nobleman of the first taste in that country. The following is a description of this amazing display of penmanship, which is justly the admiration of all who have feen it.

It represents the death of our Saviour. The height of the cross five inches, and the length of the body two inches and an half, which feems at first to be drawn with a fine hair pencil, but on a closer inspection you perceive that the strokes which form the piece confissing of exceeding fine writing, that cannot be read with the naked eye, but by the help of a magnifying glass we may be plainly distinguished. The 19th chapter of St. John, in which are 42 verses; the 4th verse of the 53d of Isaiah, and 4th verse of 8th Pfalm, which are all verbatim with the Bible; and at the foot of the crois the Lord's prayer is wrote in a line two inches and a quarter long, but in much smaller letters than those that form the body and cross, being scarcely legible with a great magnifier.

In the whole piece, besides 37 figures, are 1206 words, with proper capitals, containing 5062 letters, entirely wrote with the naked eye, and almost finished in seven hours time.

The same person has also written the Lord's prayer, the creed, the ten commandments, and the Gloria Patri, in the fize of a filver penny piece.

CHAMBERSBURG, June 2. On Monday last, about three o'clock in the afternoon, the house of Mr. James Lindsay, on the Falling Spring, was struck by lighting, and one of his children, a lad of about 13 years of age, was killed by it. There were fix persons in the room at the time, all fitting very near each other, and this lad was nearest the fire place; the lightning had descended through the funnel of an upstairs chimney, and breaking through the hearth, came directly on his head-he fell back in his chair, and expired instantly. The hair on the crown of his head was burned off, and his Skin, though unbroken, was in some places much bliftered. Three other persons who were near him felt the shock, but escaped without material injury.

By Virtue of a Power of Attorney from Mesirs. Tennison Cheshire, & Benjamin Burch Cheshire, lately of St. Mary's County, but now of Cumberland County, in the Commonwealth of Virginia, I hereby offer to SELL, at PRIVATE

SALE, LL the LAND whereon the aforesaid Tennison and Benjamin Burch Cheshire formerly lived, containing three hundred and one acres. This land lies within a mile and a half of Chaptico, by far the most public trading place in the county. The soil is fertile, and well adapted to the produce of Indian corn, wheat, tobacco, flax and cotton, and affords good pafturage for stock, having a fine swamp running through the whole tract, twenty acres of which might, with little expence, be made as fine meadow ground as any in this part of the country. About one fourth part of the whole is now in woods, abounding in excellent rail stuff, and a sufficiency of board and shingle timber, also a number of gum and poplar for scantling, plank, &c. This land is at present let out in three tenements, at the rate of four thousand five hundred pounds of crop tobacco per annum. Two of these tenements are well improved, having on each a good dwelling house, and other necessary out-houses, every way suitable for the accommodation of a large and genteel family. There are on the aforesaid plantations two young apple orchards, which, at present, will produce, in a favourable year, upwards of two thousand gallons of cider, and from the present appearance there may be made on the land this year more than a hundred gallons of peach brandy. The fituation is healthy and agreeable, commanding an extensive view of the country around. One third of the purchase money will be expected in hand, and for the other two thirds likely young negroes will be taken. Any person inclinable to purchase is defired to view the land. The price will be made known on application to the subscriber, who will engage to ensure the purchaser a good ELISHA JOHNSON.
