HAMILTON'S
WORM DESTROYING LOZENGES.
RECENT CURES.

(From the Baltimore papers.)

An infant (aged 5 weeks) of Mr. Henry Ewbank's, tailor, Charles-street, was dangerously afflicted with convulsion fits, so that his life was despaired of, but was perfectly cured by one dose of Hamilton's worm lozenges, which expelled several worms, the undoubted cause of the child's disorder.

A sister of the above gentleman, aged 22 years, living at New-Castle, Delaware, after exhibiting for upwards of 15 months, every symptom of an increasing dangerous consumption, experienced a rapid recovery, by the use of this medicine.

A letter to the proprietor of Hamilton's worm destroying lozenges.

July 10, 1799.

SIR,

I had been a long time afflicted with a violent and gnawing pain in my stomach, a dull, heavy continual head-ache, with a frequent swimming in my head, accompanied with dimness of sight, and some times partial blindness, and was rendered incapable of attending my business, through loss of strength; some times could scarcely eat a morsel for two or three days; when my appetite would suddenly become astonishingly voracious. I firmly believed myself to be in a consumption, which must soon put a period to my life: when happily hearing of several cures performed by Hamilton's worm lozenges, in complaints which could not be accounted for, I took two doses, which expelled an incredible number of small sharp pointed worms: in short, I now enjoy as perfect health and strength as ever I did in my life, and I believe my cure to be entirely effected by means of your medicine.

My brother witnessing its surprising efficacy was induced to take a dose, though in tolerable good health, which occasioned him likewise to void a great quantity of worms of the same kind, and thereby probably prevented his experiencing those dreadful disorders with which I was afflicted.

A sincere desire that others in similar circumstances may receive the same benefit, is the reason for my sending you this account.

Yours, very respectfully,
AQUILA GOLDING, Harford road
two miles from Baltimore.

BILIOUS FEVERS,

DYSENTERY OR BLOODY FLUX.

Extensive and long experience in the East and West-Indies and in America has proved HAHN'S FEVER PILLS to be without a rival for gently discharging viscid and acrimonious bile, preventing the immoderate secretion thereof, and removing obstinate costiveness, the general causes of fevers of the inflammatory kind.

They possess a peculiar antiseptic quality, which they powerfully communicate to the system, and enable it to resist effectually the attacks of putrid and malignant fevers of every description.

They have never failed producing the happiest effects, in cases of languor and debility; sickness at the stomach, and loss of appetite; giddiness and severe head-ache, and ought to be taken by all persons on entering a warmer climate than their native.—They are of peculiar use to seamen, and ought to have a place in every medicine chest.
