FIFTY DOLLARS REWARD

For apprehending the murderous villain.

RAN away from the subscriber, living in Baltimore county, near the Gunpowder Quaker meeting-house, on the 23d ultimo, a dark mulatto man named **PAUL**, about 25 years of age, 5 feet 8 or 9 inches high, remarkably stout and well set, has a full round face, with thick lips, wears his wool queued about 3 inches in length, and plaited over each ear, walks with his toes very much out. It is uncertain what cloaths he has on, as I expect some of his friends may furnish him with others; he may probably change his name, and get some free negro's pass. He was raised at Annapolis by col. Richard Weems, and is acquainted in the lower counties, whither he may attempt to go now. The above reward will be paid for securing him in any gaol, and information given to me, so that I get him again.

WILLIAM HALL.

N. B. The evening he made his escape he attempted to murder his master, by giving him a severe wound on the head with a club, without the least provocation. Masters of vessels and others are forewarned harbouring or carrying him off at their peril.

Head of Severn; August 23, 1799.

For Rent or sale.

THE subscriber would rent or sell either 700 or 1200 acres of land, part of Marlborough Neck, on Patowmack river, and in the state of Virginia, comprising either one or two plantations or farms:—These lands lie extending about one mile and an half on the river Patowmack; and about one mile from the mouth of Acquia Creek, on the southern side; at that part of the Northern Neck where the Rappahannock and Patowmack approach, within nine miles, and they are not more than that distance from the Rappahannock markets of Fredericksburg and Falmouth; but their situation is rendered more peculiarly valuable by their convenience to the Patowmack markets of Alexandria, and the Federal city. The improvements consist of overseer's houses, negro quarters and crop-houses. The lands are well enclosed, and in excellent order for cropping. The fertility of the soil is equal to any in the United States, besides which the fields all lay convenient to banks (apparently inexhaustible), of the richest shell-marie, which by repeated experiments already made there, is found to be superior to any other manure whatever. These plantations besides furnishing grass in abundance for large stocks, would now yield annually for sale, on a moderate computation, 500 tons of exceedingly good natural grass hay, with no other trouble than cutting and curing. The grass lands naturally divide with each plantation, and each is furnished with good fishing shores, and high, dry, healthy situations for residence.

If rented to responsible persons (and no other need apply) who will cultivate under certain conditions of manuring, cross cropping, and improving, leases will be given. If sold the purchasers may be accommodated with about 30 or 40 Virginia born slaves, in families, who are resident on the lands, where they have been mostly raised, and to which they are attached—The whole estate is held under indisputable title, derived from the original patentee.

JOHN FRANCIS MERCER.
