

Charleston that venture into the country
in the autumnal months. T. A.

September 25.

Extra of a letter from Cape Francois, August 29th, to
a gentleman in this city.

"I have just time to tell you that peace is now
established throughout the whole island—that Rigaud
is gone with his family, that he was seen at St. Tho-
mas six days ago, and that he has sailed from thence
for St. Martin's—That gen. Toussaint is in possession
of all the south part, and that in consequence peace
has been proclaimed, *Te Deum* sung, and the town il-
luminated."

Government, we hear, have ordered a troop of se-
veral horse, from Harper's ferry, to be stationed near
Richmond.

BALTIMORE, September 25.

AMERICAN ENVOYS.

A letter received in London from Paris, of date
August 7, states, that the American envoys make no
progress in their explanations, and the two republics
are not likely for the present to be better reconciled.

In addition to this, a gentleman who came passen-
ger in the Hazard, informs, that he was in Paris
about the first of August, and that at that time our
envoys had made every preparation, and were on the
eve of departure from Paris, to take passage home in
the United States frigate Portsmouth, when the first
council requested that they would stop a day or two
longer, as he had something further to communi-
cate. [N. Y. Com. Adv.]

A method to preserve the roofs of houses from injury by the
weather and by the falling of flakes of fire—recommended
by William Patterson, Esquire, an Englishman:

Take three parts, by measure, of air-slacked lime,
two of wood ashes, and one fine sand, sift them
through a fine sieve, and add as much linseed oil as
will bring the mixture to the consistence of paint, so
to be laid on with a brush; great care must be used
to mix the ingredients perfectly, grinding them as
point in oils would be an improvement: two coats
are necessary, the first rather thin, the second as thick
as can be worked; it will improve in hardness by
time; it is much cheaper than paint and more durable.
