Several cases of a bilious and scarlet sever have reseveral cates of a officers and scarter lever nave re-cently appeared in New-York, and given origin to various reports—respecting the unhealthiness of that city. We are not authorised positively to contradict these reports. A letter from thence dated on Saturday, states " a few deaths have lately occurred, but no one feems alarmed, nor is there a fingle removal in confequence." Another letter of the same date positively states, "that great alarm prevails in New-York, and that several removals had taken place." Extract of a letter from Norfolk to a gentleman in this city, dated 26th ult.

"After going fo well through the fummer until

this late period, we had flattered ourselves that our town would have continued healthy, but this day, the mayor of the city, John Cowper, Elq; has found himself under the painful necessity of announcing to the public, that a malignant fever is now raging with fome confiderable violence; as yet it has been con-fined to strangers, of which we have had an uncommon influx this year. It has only been within three or four days that the fever has affumed a ferious afpect, and we do hope that the approaching cool weather, which we have a right to expect, will arrest its

progress.—This is an uncommon thing with us."

The Natchez paper of August 18, says.—A report is in circulation, to which we are inclined to give credit, that the yellow fever has made its appearance in New-Orleans, and that great numbers daily fall vic-

tims to its destructive ravage.
