DR. HAMILTON'S ELIXIR,
A sovereign remedy for colds, obstinate coughs, asthmas, sore throats, and approaching consumptions.

To parents who may have children afflicted with the
HOOPING COUGH,

THIS discovery is of the first magnitude, as it is an immediate relief, checks the progress, and in a short time entirely removes the most cruel disorder to which children are liable, the Elixir is so perfectly agreeable and the dose so small, that no difficulty arises in taking it.

From **LUTHER MARTIN, Esq;** attorney-general of the State of Maryland.

Gentlemen,

I comply with your request in stating my opinion of Hamilton's elixir.—It has been used in my family for two or three years past, with uniform success, whenever colds, coughs, or similar complaints have rendered medicine necessary.—I have myself found it an excellent and agreeable remedy for a very painful and troublesome affection of the breast, accompanied with soreness and with obstructed and difficult breathing.

On these accounts I do not hesitate to recommend Hamilton's elixir, as a valuable medicine, and deserving public attention.

LUTHER MARTIN.

Mr. Abijah Herby, Bridge-street, Baltimore, was cured by one bottle of Hamilton's elixir, of a very complicated disorder occasioned by a severe cold caught several months ago.—He breathed with the greatest difficulty, and was often thrown into weakening sweats when he attempted to walk any distance, and his voice would frequently fail in such a degree that he could only attempt to whisper; he has been upwards of six weeks without a return of his complaints, and desires to give this public testimony in favour of this invaluable medicine.

DR. HAMILTON'S GRAND RESTORATIVE

IS recommended as an invaluable medicine, for the speedy relief and permanent cure of the various complaints which result from dissipated pleasures—juvenile indiscretions—residence in climates unfavourable—the constitution—the immoderate use of tea, frequent intoxication, or any other destructive intemperance to the unskillful or excessive use of mercury—the diseases peculiar to females, at a certain period of life—bad layings in, &c. &c.

And is proved by long and extensive experience, to be absolutely unparalleled in the cure of

Nervous disorders	Violent cramps in the stomach and back
Consumptions	Indigestion
Lowness of spirits	Melancholy
Loss of appetite	Gout in the stomach
Impurity of blood	Pains in the limbs
Hysterical affections	Relaxations
Inward weaknesses	Involuntary emissions
Seminal weaknesses	Obstinate gleet
Fluorals (or whites)	Impotency, &c. &c.
Barrenness	

In cases of extremity where the long prevalence and obduracy of disease has brought on a general impoverishment of the system, excessive debility of the whole frame, and a wasting of the flesh which no nourishment or cordial could repair, a perseverance in the use of this medicine has performed the most astonishing cures.

HAMILTON'S

ESSENCE AND EXTRACT OF MUSTARD,

A safe and effectual remedy for gout, rheumatism, palsy, sprains, bruises, pains in the face and neck, &c.—And has performed more cures in the above complaints, than all the other medicines ever before made public.

From **Dr. Weatherburn,**
Wythe county, Virginia.

Gentlemen,

I purchased at your shop the preparations you call Hamilton's Essence or Extract of Mustard, which I believe has perfectly removed a chronic rheumatism (of that kind named sciatica, or of the hip joint) under which I had laboured for a long time, and which had baffled every article in the Materia Medica, and every mode of treatment received into practice for the cure of this obstinate disease.—If you think this letter useful you are at liberty to make it public. Yours, &c.

P. WEATHERBURN.

JOHN HOOVER, rope-maker, South Second-street, between Mary and Christian-streets, Philadelphia, voluntarily maketh oath as follows, namely— that his wife Mary Hoover was so severely afflicted with violent rheumatism, very dangerously situated, the consequence of a severe cold after lying in, as to be confined to her bed for several weeks, and was at length reduced to the melancholy apprehension of remaining a cripple for life, notwithstanding the most respectable medical advice was followed, and every probable remedy attempted: when seeing several cases of cures performed by Hamilton's Essence and Extract of Mustard, they were procured from Mr. Birch, No. 17, South Second-street. The first application enabled her to walk across the room, and

the use of one bottle restored her to her usual state of health and strength.

HAMILTON'S WORM DESTROYING LOZENGES.

Which have within four years past cured upwards of one hundred and twenty thousand persons of both sexes, of every age, and in every situation, of various dangerous complaints arising from worms, and from obstructions or foulness in the stomach and bowels.

This medicine bears no analogy whatever of similar title, to commonly complained of as operating with violence; on the contrary, a particular excellence of this remedy is its being suited to every age and constitution; contains nothing but what is perfectly innocent, and is so mild in its operation that it cannot injure the most delicate pregnant lady, or the tenderest infant of a week old, should no worms exist in the body; but will, without pain or griping, cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders. They are particularly efficacious in carrying off all gross humours and eruptions; feverish and bilious complaints, and are the safest and mildest purgative that can be used on any occasion.

DESCRIPTION OF WORMS,

And the symptoms by which they are known.

WORMS which infest the human body, are chiefly of four kinds, viz. the Teres or large round worm, the Ascarides or small maw worm, the Cucurbitina or short flat white worm, and lastly, the Taenia or tape worm, so called from its resemblance to tape— this is often many yards long, and is full of joints— it is the most hurtful and most difficult to cure.

Among the symptoms attending worms are, disagreeable breath, especially in the morning; bad and corrupted gums—itching in the nose and about the seat—convulsions and epileptic fits, and sometimes privation of speech,—starting and grinding of the teeth in sleep—irregular appetite, sometimes loathing food, and sometimes voracious—Purging, with slimy and foetid stools—vomiting—large and hard belly—pains and sickness at the stomach—pains in the head and thighs, with lowness of spirits—slow fever, with small and irregular pulse—a dry cough—excessive thirst—sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms, should have recourse to *Hamilton's Worm destroying Lozenges* which have been constantly attended with success in all complaints similar to those above described.

A dose of this medicine given occasionally during the warm season, will effectually prevent the vomiting and purging of children, a dreadful disorder which annually destroys thousands of the infant part of our cities. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

CASES OF CURES.

(Selected from thousands) the authenticity of which any person may ascertain, either by letter or personal application.

TAPE WORM.

Mr. SAMUEL FULLER, Inn-keeper, on the Harford road, ten miles from Baltimore, began about 20 months ago to be grievously afflicted with a tape worm, which increased fast in size and strength, so as to excite the most horrid sensations by its writhing motions and intolerable pains, resembling the gnawing and tearing of his bowels, which deprived him of his necessary sleep, and caused such dreadful apprehensions as cannot be conceived but by one in a similar situation—his appetite wasted rapidly, and with that his strength, so that he was unable to attend to any business—when he heard of some excellent cures performed by Hamilton's worm lozenges, he took a large dose, which brought away about **FOUR YARDS** of the worm (now in the possession of Lee & Co.)—but a renewal of his pains soon convinced him that this monstrous reptile had recovered its first vigour—Application was made to Lee & Co. for more of their medicine, with their advice—from which resulted the total expulsion of his formidable enemy, in several pieces, which he supposed to be **SIX or EIGHT YARDS** more. A few months have since elapsed, and Mr. Fuller is now in perfect health. The above facts are well known to a numerous circle of his neighbors, and himself will gratify any who may wish to make further inquiries on the subject. Although Hamilton's worm lozenges produce such powerful effects, when necessary, yet they are perfectly innocent and mild in their operation on the human body, even taken in large doses, as Mr. Fuller will testify—their peculiar mildness is abundantly evident in innumerable cures of infants.

Communicated by **Dr. John Spangler, York-town, Pennsylvania.**

Letter from the reverend **Mr. JOHN MOLTHER,** minister of the Moravian church, in York-town.
York, January 4th, 1802.

Dear Sir,
Dr. Hamilton's lozenges have been recommended to me as a very adequate means for the cure of chil-

dren afflicted with worms, I procured a box for the use of my family, to try, whether by means of this medicine, I might be enabled to gain a point, which, to accomplish, different other means had proved abortive. My eldest boy had a very sickly appearance, was very restless at night, grew leaner from time to time; in short, he seemed to be in a precarious state of health, which would yield to none of the medicines administered, until I gave him two doses of lozenges, agreeably to the directions, which carried off a substance to all appearance a mere mucus, but upon close inspection quite replete with very small living animals. Not one of that sort of worms which usually afflict children, came from him. Since that period he grew remarkably better in health, and though lean, has got a fresh and lively complexion. Upon different occasions I have used this medicine as a purging substitute, and found it to answer exceedingly well, without bringing on belly-ache, or any of those disagreeable sensations, so often occasioned by purging medicines. Upon the whole, I judge this medicine to be, besides its main object, one of the most salutary means for restoring lost appetite, and promoting a proper state of digestion, by carrying off that bilious substance, which engenders so much indisposition both among children and adults.

I am, Sir, your most obedient servant,
JOHN MOLTHER.
