DR. HAMILTON'S ELIXIR,
 A sovereign remedy for colds, obstinate coughs, asth-
 mas, sore throats, and approaching consumptions.

To parents who may have children afflicted with the
HOOPING COUGH,

THIS discovery is of the first magnitude, as it is
 an immediate relief, checks the progress, and in
 a short time entirely removes the most cruel disorder
 to which children are liable, the Elixir is so perfectly
 agreeable and the dose so small, that no difficulty
 arises in taking it.

From **LUTHER MARTIN, Esq;** attorney-general
 of the State of Maryland.

Gentlemen,
 I comply with your request in stating my opinion
 of Hamilton's elixir. It has been used in my family
 for two or three years past, with uniform success,
 whenever colds, coughs, or similar complaints have
 rendered medicine necessary. I have myself found it
 an excellent and agreeable remedy for a very pain-
 ful and troublesome affection of the breast, accom-
 panied with soreness and with obstructed and difficult
 breathing.

On these accounts I do not hesitate to recommend
 Hamilton's elixir, as a valuable medicine, and de-
 serving public attention.

LUTHER MARTIN.

Mr. Abijah Henly, Bridge-street, Baltimore, was
 cured by one bottle of Hamilton's elixir, of a very
 complicated disorder occasioned by a severe cold
 caught several months ago. He breathed with the
 greatest difficulty, and was often thrown into weaken-
 ing sweats when he attempted to walk any distance, and
 his voice would frequently fail in such a degree that he
 could only attempt to whisper; he has been upwards
 of six weeks without a return of his complaints, and
 desires to give this public testimony in favour of this
 invaluable medicine.

DR. HAMILTON'S GRAND RESTORATIVE

IS recommended as an invaluable medicine, for the
 speedy relief and permanent cure of the various com-
 plaints which result from dissipated pleasures—juvenile
 indiscretions—residence in climates unfavourable—
 the constitution—the immoderate use of tea, frequent
 intoxication, or any other destructive intemperance to
 the unskillful or excessive use of mercury—the diseases
 peculiar to females, at a certain period of life—bad
 layings in, &c. &c.

And is proved by long and extensive experience,
 to be absolutely unparalleled in the cure of

- | | |
|-----------------------|-----------------------|
| Nervous disorders | Violent cramps in the |
| Consumptions | Stomach and back |
| Lowness of spirits | Indigestion |
| Loss of appetite | Melancholy |
| Impurity of blood | Gout in the stomach |

| Inward weaknesses | Relaxations |
| Seminal weaknesses | Involuntary emissions |
| Fluoribus (or whites) | Obstinate gleet |
| Barrenness | Impotency, &c. &c. |

In cases of extremity where the long prevalence
 and obstinacy of disease has brought on a general
 impoverishment of the system, excessive debility of
 the whole frame, and a wasting of the flesh which no
 nourishment or cordial could repair, a perseverance in
 the use of this medicine has performed the most as-
 tonishing cures.

HAMILTON'S

ESSENCE AND EXTRACT OF MUSTARD,

A safe and effectual remedy for gout, rheumatism,
 palsy, sprains, bruises, pains in the face and neck,
 &c. &c. And has performed more cures in the above
 complaints, than all the other medicines ever before
 made public.

From **Dr. Weatherburn,**
 Wythe county, Virginia.

Gentlemen,
 I purchased at your shop the preparations you call
 Hamilton's Essence or Extract of Mustard, which
 I believe has perfectly removed a chronic rheu-
 matism (of that kind named sciatica, or of the hip
 joint) under which I had laboured for a long time,
 and which had baffled every article in the Materia
 Medica, and every mode of treatment received into
 practice for the cure of this obstinate disease. If
 you think this letter useful you are at liberty to make
 it public. Yours, &c.

P. WEATHERBURN.

JOHN HOOVER, rope-maker, South Second-
 street, between Mary and Christian-streets, Philadel-
 phia, voluntarily maketh oath as follows, namely—
 that his wife Mary Hoover was so severely afflicted
 with violent rheumatism, very dangerously situated,
 the consequence of a severe cold after lying in, as to
 be confined to her bed for several weeks, and was at
 length reduced to the melancholy apprehension of re-
 maining a cripple for life, notwithstanding the most
 respectable medical advice was followed, and every
 probable remedy attempted: when seeing several
 cases of cures performed by Hamilton's Essence and
 Extract of Mustard, they were procured from Mr.
 Birch, No. 17, South Second-street. The full ap-
 plication enabled her to walk across the room, and

the use of one bottle restored her to her usual state of
 health and strength.

HAMILTON'S WORM DESTROYING LOZENGES.

Which have within four years past cured upwards
 of one hundred and twenty thousand persons of both
 sexes, of every age, and in every situation, of vari-
 ous dangerous complaints arising from worms, and
 from obstructions or foulness in the stomach and
 bowels.

This medicine bears no analogy whatever of similar
 title, so commonly complained of as operating with
 violence; on the contrary, a particular excellence
 of this remedy is its being suited to every age and
 constitution; contains nothing but what is perfectly
 innocent, and is so mild in its operation that it can-
 not injure the most delicate pregnant lady, or the
 tenderest infant of a week old, should no worms exist
 in the body; but will, without pain or griping, cleanse
 the stomach and bowels of whatever is foul or offen-
 sive, and thereby prevent the production of worms
 and many fatal disorders. They are particularly ef-
 ficacious in carrying off all gross humours and eruptions;
 fevers and bilious complaints, and are the
 safest and mildest purgative that can be used on any
 occasion.

DESCRIPTION OF WORMS,

And the symptoms by which they are known.

WORMS which infest the human body, are chiefly
 of four kinds, viz. the Teres or large round worm,
 the Ascariides or small maw worm, the Cucurbitina
 or short flat white worm, and lastly, the Taenia or
 tape worm, so called from its resemblance to tape—
 this is often many yards long, and is full of joints—
 it is the most hurtful and most difficult to cure.

Among the symptoms attending worms are, dis-
 agreeable breath, especially in the morning; bad and
 corrupted gums—itching in the nose and about the
 seat—convulsions and epileptic fits, and sometimes
 privation of speech—stating and grinding of the
 teeth in sleep—irregular appetite, sometimes loathing
 food, and sometimes voracious—Purging, with slimy
 and foetid stools—vomiting—large and hard belly—
 pains and sickness at the stomach—pains in the head
 and thighs, with lowness of spirits—slow fever, with
 small and irregular pulse—a dry cough—excessive
 thirst—sometimes pale and unhealthy countenance,
 and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms,
 should have recourse to Hamilton's Worm destroying
 Lozenges which have been constantly attended with
 success in all complaints similar to those above de-
 scribed.

A dose of this medicine given occasionally during
 the warm season, will effectually prevent the vomiting
 and purging of children, a dreadful disorder which
 annually destroys thousands of the infant part of our
 cities. It is likewise the mildest and most certain re-
 medy known, and has restored to health and strength
 a great number when in an advanced stage of this
 fatal complaint. Particular and plain instructions are
 given for every part of the necessary treatment in
 such cases.

Children generally take this medicine with eager-
 ness; having a pleasing appearance, and an agreeable
 taste.

CASES OF CURES.

(Selected from thousands) the authenticity of which
 any person may ascertain, either by letter or personal
 application.

TAPE WORM.

Mr. **SAMUEL FULLER,** Inn-keeper, on the
 Hasford road, ten miles from Baltimore, began about
 20 months ago to be grievously afflicted with a tape
 worm, which increased fast in size and strength, so as
 to excite the most horrid sensations by its writhing
 motions and intolerable pains, resembling the gnaw-
 ing and tearing of his bowels, which deprived him of
 his necessary sleep, and caused such dreadful appre-
 hensions as cannot be conceived but by one in a si-
 milar situation—his appetite wasted rapidly, and with
 that his strength, so that he was unable to attend to any
 business—when he heard of some excellent cures per-
 formed by Hamilton's worm lozenges, he took a large
 dose, which brought away about **FOUR YARDS** of
 the worm (now in the possession of Lee & Co.)—
 but a renewal of his pains soon convinced him
 that this monstrous reptile had recovered its first vi-
 gour—Application was made to Lee & Co. for more
 of their medicine, with their advice—from which re-
 sulted the total expulsion of his formidable enemy,
 in several pieces, which he supposed to be **SIX** or
EIGHT YARDS more. A few months have since
 elapsed, and Mr. Fuller is now in perfect health.
 The above facts are well known to a numerous circle
 of his neighbours, and himself will gratify any who
 may wish to make further inquiries on the subject.
 Although Hamilton's worm lozenges produce such
 powerful effects, when necessary, yet they are per-
 fectly innocent and mild in their operation on the
 human body, even taken in large doses, as Mr. Ful-
 ler will testify—their peculiar mildness is abundantly
 evident in innumerable cures of infants.

Communicated by **Dr. John Spangler,** York-town,
 Pennsylvania.

Letter from the reverend **Mr. JOHN MOLTHER,**
 minister of the Moravian church, in York-town,
 York, January 4th, 1809.

Dear Sir,

Dr. Hamilton's lozenges have been recommended
 to me as a very adequate means for the cure of chil-

dren afflicted with worms; I procured a box for the
 use of my family, to try, whether by means of this
 medicine, I might be enabled to gain a point, which
 to accomplish, different other means had proved abso-
 lute. My eldest boy had a very sickly appearance,
 was very restless at night, grew leaner from time to
 time; in short, he seemed to be in a precarious state
 of health, which would yield to none of the medicines
 administered, until I gave him two doses of lozenges,
 agreeably to the directions, which carried off a sub-
 stance to all appearance a mere mucus, but upon close
 inspection quite replete with very small living ani-
 mats. Not one of that sort of worms which usual-
 ly afflict children, came from him. Since that pe-
 riod he grew remarkably better in health, and though
 lean, has got a fresh and lively complexion. Upon
 different occasions I have used this medicine as a
 purging substitute, and found it to answer exceed-
 ingly well, without bringing on belly-ache, or any
 of those disagreeable sensations, so often occasioned
 by purging medicines. Upon the whole, I judge this
 medicine to be, besides its main object, one of the
 most salutary means for restoring lost appetite, and
 promoting a proper state of digestion, by carrying off
 that bilious substance, which engenders so much in-
 disposition both among children and adults.

I am, Sir, your most obedient servant,
JOHN MOLTHER.
