DR. HAMILTON'S ELIXIR,

A sovereign remedy for colds, obstinate coughs, asthma,
sore throats, and approaching consumptions.

To parents who may have children afflicted with the
HOOPING COUGH,

THIS discovery is of the first magnitude, as it is
an immediate relief, checks the progress, and in
a short time entirely removes the most cruel disorder
to which children are liable, the Elixir is so perfectly
agreeable and the dose so small, that no difficulty
arises in taking it.

From **LUTHER MARTIN, Esq;** attorney-general
of the State of Maryland.

Gentlemen,

I comply with your request in stating my opinion
of Hamilton's elixir.—It has been used in my family
for two or three years past, with uniform success,
whenever colds, coughs, or similar complaints have
rendered medicine necessary.—I have myself found it
an excellent and agreeable remedy for a very pain-
ful and troublesome affection of the breast, accom-
panied with soreness and with obstructed and difficult
breathing.

On these accounts I do not hesitate to recommend
Hamilton's elixir, as a valuable medicine, and des-
erving public attention.

LUTHER MARTIN.

Mr. Abijah Henly, Bridge-street, Baltimore, was
cured by one bottle of Hamilton's elixir, of a very
complicated disorder occasioned by a severe cold
caught several months ago.—He breathed with the
greatest difficulty, and was often thrown into weaken-
ing sweats when he attempted to walk any distance, and
his voice would frequently fail in such a degree that he
could only attempt to whisper; he has been upwards
of six weeks without a return of his complaints, and
desires to give this public testimony in favour of this
invaluable medicine.

DR. HAMILTON'S GRAND RESTORATIVE

IS recommended as an invaluable medicine, for the
speedy relief and permanent cure of the various com-
plaints which result from dissipated pleasures—juvenile
indiscretions—residence in climates unfavourable—
the constitution—the immoderate use of tea, frequent
intoxication, or any other destructive intemperance to
the unskillful or excessive use of mercury—the diseases
peculiar to females, at a certain period of life—bad
layings in, &c. &c.

And is proved by long and extensive experience,
to be absolutely unparalleled in the cure of

- | | |
|-----------------------|---|
| Nervous disorders | Violent cramps in the
stomach and back |
| Consumptions | Indigestion |
| Lowness of spirits | Melancholy |
| Loss of appetite | Gout in the stomach |

| Hysterical affections | Relaxations |

| Seminal weaknesses | Obstinate gleet |

In cases of extremity where the long prevalence
and obstinacy of disease has brought on a general
impoverishment of the system, excessive debility of
the whole frame, and a wasting of the flesh which no
nourishment or cordial could repair, a perseverance in
the use of this medicine has performed the most asto-
nishing cures.

HAMILTON'S

ESSENCE AND EXTRACT OF MUSTARD,

A safe and effectual remedy for gout, rheumatism,
palsy, sprains, bruises, pains in the face and neck,
&c.—And has performed more cures in the above
complaints, than all the other medicines ever before
made public.

From **Dr. Weatherburn,**
Wythe county, Virginia.

Gentlemen,

I purchased at your shop the preparations you call
Hamilton's Essence or Extract of Mustard, which
I believe has perfectly removed a chronic rheu-
matism (of that kind named sciatica, or of the hip
joint) under which I had laboured for a long time,
and which had baffled every article in the Materia
Medica, and every mode of treatment received into
practice for the cure of this obstinate disease.—If
you think this letter useful you are at liberty to make
it public. Yours, &c.

P. WEATHERBURN.

JOHN HOOVER, rope-maker, South Second-
street, between Mary and Christian-streets, Philadel-
phia, voluntarily maketh oath as follows, namely—
that his wife Mary Hoover was so severely afflicted
with violent rheumatism, very dangerously situated,
the consequence of a severe cold after lying-in, as to
be confined to her bed for several weeks, and was at
length reduced to the melancholy apprehension of re-
maining a cripple for life, notwithstanding the most
respectable medical advice was followed, and every
probable remedy attempted; when seeing several
cases of cures performed by Hamilton's Essence and
Extract of Mustard, they were procured from Mr.
Hoover, No. 17, South Second-street. The first ap-
plication enabled her to walk across the room, and

the use of one bottle restored her to her usual state of
health and strength.

HAMILTON'S WORM DESTROYING LOZENGES.

Which have within four years past cured upwards
of one hundred and twenty thousand persons of both
sexes, of every age, and in every situation, of var-
ious dangerous complaints arising from worms, and
from obstructions or foulness in the stomach and
bowels.

This medicine bears no analogy whatever of similar
title, so commonly complained of as operating with
violence; on the contrary, a particular excellence
of this remedy is its being suited to every age and
constitution; contains nothing but what is perfectly
innocent, and is so mild in its operation that it can-
not injure the most delicate pregnant lady, or the
tenderest infant of a week old, should no worms exist
in the body; but will, without pain or griping, cleanse
the stomach and bowels of whatever is foul or offen-
sive, and thereby prevent the production of worms
and many fatal disorders. They are particularly ef-
ficacious in carrying off all gross humours and eruptions;
feverish and bilious complaints, and are the
safest and mildest purgative that can be used on any
occasion.

DESCRIPTION OF WORMS,

And the symptoms by which they are known.

WORMS which infest the human body, are chiefly
of four kinds, viz. the Teres or large round worm,
the Ascariides or small maw worm, the Cucurbitina
or short flat white worm, and lastly, the Taenia or
tape worm, so called from its resemblance to tape—
this is often many yards long, and is full of joints—
it is the most hurtful and most difficult to cure.

Among the symptoms attending worms are, dis-
agreeable breath, especially in the morning; bad and
corrupted gums—itching in the nose and about the
seat—convulsions and epileptic fits, and sometimes
privation of speech,—starting and grinding of the
teeth in sleep—irregular appetite, sometimes loathing
food, and sometimes voracious—Purging, with stony
and fetid stools—vomiting—large and hard belly—
pains and sickness at the stomach—pains in the head
and thighs, with lowness of spirits—slow fever, with
small and irregular pulse—a dry cough—excessive
thirst—sometimes pale and unhealthy countenance,
and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms,
should have recourse to Hamilton's Worm destroying
Lozenges which have been constantly attended with
success in all complaints similar to those above de-
scribed.

A dose of this medicine given occasionally during
the warm season, will effectually prevent the vomiting
and purging of children, a dreadful disorder which
annually destroys thousands of the infant part of our
cities. It is likewise the mildest and most certain re-
medy known, and has restored to health and strength
a great number when in an advanced stage of this
fatal complaint. Particular and plain instructions are
given for every part of the necessary treatment in
such cases.

Children generally take this medicine with eager-
ness; having a pleasing appearance, and an agreeable
taste.

CASES OF CURES.

(Selected from thousands) the authenticity of which
any person may ascertain, either by letter or personal
application.

TAPE WORM.

Mr. SAMUEL FULLER, Inn-keeper, on the
Harford road, ten miles from Baltimore, began about
20 months ago to be grievously afflicted with a tape
worm, which increased fast in size and strength, so as
to excite the most horrid sensations by its writhing
motions and intolerable pains, resembling the gnaw-
ing and tearing of his bowels, which deprived him of
his necessary sleep, and caused such dreadful appre-
hensions as cannot be conceived but by one in a sim-
ilar situation—his appetite wasted rapidly, and with
that his strength, so that he was unable to attend to any
business—when he heard of some excellent cures per-
formed by Hamilton's worm lozenges, he took a large
dose, which brought away about **FOUR YARDS** of
the worm (now in the possession of Lee & Co.)—
but a renewal of his pains soon convinced him
that this monstrous reptile had recovered its first vi-
gour—Application was made to Lee & Co. for more
of their medicine, with their advice—from which re-
sulted the total expulsion of his formidable enemy,
in several pieces, which he supposed to be **SIX** or
EIGHT YARDS more. A few months have since
elapsed, and Mr. Fuller is now in perfect health.
The above facts are well known to a numerous circle
of his neighbours, and himself will gratify any who
may wish to make further inquiries on the subject.
Although Hamilton's worm-lozenges produce such
powerful effects, when necessary, yet they are per-
fectly innocent and mild in their operation on the
human body, even taken in large doses, as Mr. Ful-
ler will testify—their peculiar mildness is abundantly
evident in innumerable cures of infants.

Communicated by **Dr. John Spangler,** York-town,
Pennsylvania.

Letter from the reverend **Mr. JOHN MOLTHER,**
minister of the Moravian church, in York-town.

York, January 4th, 1802.

Dear Sir,
Dr. Hamilton's lozenges have been recommended
to me as a very adequate means for the cure of chil-

dren afflicted with worms, I procured a box for the
use of my family, to try whether by means of this
medicine, I might be enabled to gain a point, which,
to accomplish, different other means had proved abor-
tive. My eldest boy had a very sickly appearance,
was very restless at night, grew leaner from time to
time; in short, he seemed to be in a precarious state
of health, which would yield to none of the medicines
administered, until I gave him two doses of lozenges,
agreeably to the directions, which carried off a sub-
stance to all appearance a mere mucus, but upon close
inspection quite replete with very small living ani-
mals. Not one of that sort of worms which usually
afflict children, came from him. Since that pe-
riod he grew remarkably better in health, and though
lean, has got a fresh and lively complexion. Upon
different occasions I have used this medicine as a
purgative substitute, and found it to answer exceed-
ingly well, without bringing on belly-ache, or any
of those disagreeable sensations, so often occasioned
by purging medicines. Upon the whole, I judge this
medicine to be, besides its main object, one of the
most salutary means for restoring lost appetite, and
promoting a proper state of digestion, by carrying off
that bilious substance, which engenders to much in-
disposition both among children and adults.

I am, Sir, your most obedient servant,
JOHN MOLTHER.
