Patent Machine for Shelling Corn.

WHEREAS by virtue of an act of congress, entitled, An act to promote the progress of useful arts, &c. PAUL PILSBURY, of Newbury, in the state of Massachusetts, hath obtained letters patent for a machine for shelling Indian corn on a new and improved method, bearing date on the 25th day of October, 1803. And whereas the said Paul Pilsbury hath assigned all his right, title, and interest, of and to the said patent machine to Paul Adams, of Newbury, Thomas Burnham, Joseph Swaley, and Joseph Lord, Esquires, of Ipswich, and state of Massachusetts, and thereby giving to them the exclusive right of constructing, using, and vending to others to use the said machine for fourteen years from the date of said letters patent, with full power to receive all benefits and profits accruing therefrom, and to perform and execute all such acts relative to the same as the said Paul Pilsbury might have legally performed or executed.

NOTICE.

That by virtue and authority of the above assignment, the aforesaid Adams, Burnham, Swaley, and Lord, hath given, granted, and assigned, unto James Williams, of the city of Annapolis, the exclusive right, liberty, and authority, to construct, use, and vend to others to be used, the aforesaid shelling machine, during the whole unexpired term of fourteen years, (for which the exclusive privilege has been secured as aforesaid by letters patent) for the state of Maryland; and all that part of the district of Columbia lying on the north side of the river Patowmack. Said Williams has one of the machines, which may be seen at Annapolis at any time, and is now ready to furnish any person or persons with one or more of the said machines, with licence to make use of the same, or to grant licence to make use of them without furnishing the machine, one machine might serve four or five persons in a neighbourhood, by each person getting licence to use it, which will not exceed five dollars each.

This machine has been seen and much approved of by the president, and most of the members of congress, as well as by a great number of gentlemen, farmers and others from different parts of the United States. The cost of a machine, with licence to work it, will not exceed thirty dollars. I will sell the exclusive right of making use of this machine for one or more counties, on very moderate terms. A man and a boy with this machine worked by hand, may easily shell one hundred bushels of corn in a day. The machine may be easily fixed to be turned by a horse, or water.

Please to take notice, that no other in this or any other state can grant licence to use this machine within the state of Maryland, or part of the district of Columbia; any person making use of it without proper licence will be preferred if known.
