**CERTIFICATES.**  
 I have examined Mr. Biddis's Sago, and am of opinion, it is of an excellent quality, and do hereby recommend it as a pleasant and suitable article of diet for sick people.

**BENJAMIN RUSH, M. D.**  
 I have examined the Powder of Mr. John Biddis, it appears that it contains the greatest quantity of nutritive fecula that can be extracted from the common potato; it must therefore be an excellent substitute for vegetable food, to delicate, weak, and sickly persons, who are obliged to have recourse to more expensive and imported sago, tapioca, arrowroot, &c. I think this discovery deserves to be encouraged, and made profitable to him, and useful to the public.

**FELIX PASCALIS, M. D.**  
 We do hereby certify, that having carefully examined the Sago-powder prepared by Mr. Biddis, from the *solanum tuberosum*, or common Potatoe, and compared it with the patent Sago-powder of Bowen, we conceive the former to be, in several respects superior, and in every inferior to the latter. The superiority of Mr. Biddis's Sago-powder consists, principally, in its uncommon elegance, and the facility with which it may be converted into a fine vegetable jelly. The advantages which must necessarily result to the people of the United States, from the manufacture of an article so valuable, constitute its best recommendation to public patronage.
