

BOSTON, DEC. 18.

Latest from England.

Captain Gray, who arrived yesterday, left London on the 1st of Nov. at which time the orders in council had not been repealed, and it was not known what was the intention of the British government on the subject. We received London papers to the 31st of Oct.—(4 days the latest)—from which the following articles are copied:

LONDON, OCT. 31.

"The king has been indisposed for a few days past. His majesty has had a fever, and his nights have been restless; but he has had several hours sleep this morning." Oct. 30, 1810, 10 o'clock, A. M. "The king has passed a restless night, and his majesty is much the same to-day as yesterday."

Negotiation for peace between Russia and Turkey.

A Gottenburg mail arrived yesterday, which has brought intelligence of considerable importance. It is said in a letter from Petersburg, that fresh overtures of peace have been made to Turkey, and that gen. K. has even received orders to concede the point, which caused the rupture of the last negotiation. The point was understood at the time to be the demand made by Russia of the cession of Moldavia and Wallachia. If this statement be well founded, we may hope that change is about to take place in the political system of the cabinet of St. Petersburg, and that the emperor Alexander, at length, perceives the dangers to which his alliance with Buonaparte exposes him.

The idea of the establishment of a kingdom of Poland, with Berthier for its sovereign, has given the alarm to the cabinet of St. Petersburg; and it is said that several orders for Turkey, have been issued to march to the Polish frontiers.

There is a report that since the negotiation of the return of Mr. Canning to the cabinet, overtures have been made to Lord Amherst, and his friends, to join the present administration; and, certainly, a friendly intercourse subsists between them. It is expected that Lord Sidmouth will take the place of president of the council, in the room of Mr. Camden—and that Mr. Bathurst will succeed Mr. Ryder as secretary for the home department. The Earl of Buckinghamshire, also, it is said, be placed in a conspicuous situation.

It is stated, in a ministerial paper, that the late Lucien Bonaparte has been submitted to the lawyers, and the question put, whether, from the circumstances under which he fell into our power, we have a right to consider him a prisoner of war. The lawyers have decided in the affirmative, and government have acted accordingly. A ship of war, in consequence, been sent to Malta, to convey him on board, and to convey him, his family, and effects to this country.

LATEST FROM LISBON.

Capt. Bartlett, in the brig Comet, arrived yesterday, in 36 days from Lisbon.—He left the city on 6th Nov. at which time two grand armies occupied the same spot, and they did at the date of our previous news. Some skirmishing had taken place between the outposts—and the fortifications, on each side, were daily strengthened. A few days before Capt. B. failed, it was reported that Massena had detached 6000 men, across the Tagus, for the purpose, it was supposed, of gaining provisions; and that a number of Portuguese troops had proceeded over to watch them. The participation of the French, as it regards provisions, was not exactly known; in want of most every article of subsistence; while the British camp, supplies of every kind, were in the most ample abundance.

MATCHEZ, NOV. 19.

A gentlemen from West Florida, we are told, that an election, under the new constitution, was held on the 10th inst. Our informant only heard from New Feliciana, that the following gentlemen were elected:—John Rhea.

Representatives—John H. Johnson, William Morrow, Lewellyn C. Griffith, and John

last, six gunboats, under the command of Lieut. Dexter, having on board companies of the second regiment of the 7th, commanded by Col. Cushing, failed at Scudder.

It is understood, from a source that may be depended on, that orders have been received from the commanding officer at Cantonment, near this place to hold the armaments to march at a moment's warning. The order, we learn enters into such details as to indicate a speedy movement.

TERRITORIAL LEGISLATURE.

House of Representatives, Nov. 20.

Mr. Shaw, agreeably to his notice of yesterday, offered a bill providing for, and in consequence of the call of a convention to draw up a constitution, preparatory to the admission of the territory into the union as an independent State.

By a return of the criminals in the State Prison, at New-York, on the 30th Oct. last, there were confined therein at that period, 498. There had been received since its first establishment in 1797 to the 30th Oct. 1810, 2272 prisoners, of whom 599 had been discharged by pardon, 53 only of whom were ever returned for subsequent offences. This is a mild philosophy triumphing by example over the sanguinary codes which too long have disgraced many parts of the U. S. All punishments have a twofold object in view, the prevention of crime by intimidation and the reformation of offenders; when these objects fail, the mode of punishment becomes no longer useful. If a man be sunk by his vices deep into public contempt, life to him is but a burden; he is to himself a living testimony of his own degradation, and he emerges deeper into crime to seek that death which his coward hands forbid him to embrace. On the contrary, solitary confinement and hard labour give him time for reflection on his past life, and inures him to the habits of industry, at the same time, it gives him an opportunity, by a virtuous course of living, to avoid his former errors and regain the character which he had forfeited by his impious ways.

The Legislature of this State closed their Session last Evening, having passed 172 Laws.

WILLIAM HILLEARY, Shff. Dec. 14th. 1810. / 7/6

Academy for Young Ladies.

MR. N. PALMER &

RESPECTFULLY informs the citizens of Annapolis, and its vicinity, that he has made arrangements for succeeding the Rev. WILLIAM NIND, in the establishment for the tuition of Young Ladies, to keep up the credit of which, every possible exertion will be made; and he flatters himself, that such parents as may think proper to intrust to him the care of their daughters education, will have no cause to regret the confidence with which they may honour him.

Young Ladies in the country, desirous of acquiring a polite and liberal education, will experience no difficulty in obtaining comfortable accommodations in genteel and respectable families.

Mr. PALMER purposes commencing on Monday the 8th of October, in the room formerly occupied as a place of instruction by Miss HEFFERNAN, near the residence of Nicholas Brewer, Esq.

By Authority.

Tobacco will be received in payment at a fair market price.

Paul's Domestic Infallible Columbian Oil.

THE inventor of this highly esteemed medicine is a native of America, and the composition is the production of American soil, consequently it is in every sense of the word domestic, it is not puffed up with a numerous train of pompous foreign certificates of persons from whom by the great distance that separates us 'tis impossible to obtain information, therefore the public has better security for their money as there cannot be the least shadow of deception to cover his medicine, for he simply appears before the community with his invention and an experimental detail of the various cases in which it really is so wonderfully efficacious, and in which he is supported by the following certificates of respectable characters, whose names are not only subscribed, but their persons may be also consulted, being residents within the circle of our own neighbourhood. The following are the complaints in which the Columbian Oil has been found so efficacious and rarely ever fails of effecting a cure—viz Rheumatism, Consumption, Pains in any parts of the body, but particularly in the neck and breast, Colds and coughs, Toothach, Pleurifies, Cholice, Cramps, External and Internal Bruises, Sprains and Flesh Wounds, Scalds and Burns, Whooping Cough and Mumps, and Dysentery or Bloody-flux, Croup and the summer complaint in children, and in a weak stomach that is caused by indigestion, a constant sinking and loss of appetite, it will act as a powerful bracer to the relaxed fibre and restore it to its proper tone.

It cures also as if nature had ranked it the first of the class of all pectorals and expectorals for the relief of the breast and lungs, as it scarce ever fails of removing obstructions in either, particularly those who are troubled with Asthmatic or Asthmatic complaints, who in the act of walking fast, stooping or lying down, are almost suffocated, halt a tea spoonful of the Columbian Oil will render some relief instantaneously, and if continued agreeable to the directions in such cases, will prove a radical cure by producing the full power of nature to the lungs and free expansion to the breast.

CERTIFICATES OF ITS EFFICACY.

No. 1. Sept. 1809. I do certify, that I have been ailing nearly two years with a hectic cough and violent impression at the breast—I applied to the most eminent physicians and could get no relief from my low state of health, until I got Paul's Columbian oil, and found immediate relief I take this method of informing the public of the efficacy of this valuable medicine, from the cures which I have experienced—I think it an incumbent duty to offer the same to the public.

ELISHA SOWARD.

Baltimore, No. 16, Water-street, sign of the plough.

No. 2. Sept. 1809.

SIR, From the great benefit I received from your Columbian Oil, I am induced to state, I was taken with a violent sore throat, about the 26th of Aug. last, which continued till the first of the month, when I applied your oil externally, and washed the part affected with the oil diluted in the same quantity of molasses, which took away pieces of putrid flesh and healed my throat in about 48 hours.

N. B. I also certify, that I nursed my grand-child, an infant of 17 months old, which was taken about the first of August with slow fevers and loss of appetite. We immediately applied for a physician who gave every attention for about 10 days but all to no effect; the child was given up by the physicians, and had every appearance of death, when I applied for Paul's Columbian Oil, and gave five drops morning and evening for five days, when the child began to recover, and is now in perfect health.

MARY UNDERWOOD.

Baltimore, by Peters's Bridge.

No. 3. Sept. 6.

I hereby certify, that I had a cough and pain in my stomach for upwards of two years, when I was recommended to Paul's Columbian Oil I procured one phial of that valuable medicine, which has restored me to a good state of health again.

THOMAS ELIOTT.

On the Hook's-town road near the turnpike gate.

No. 4. Feb. 12, 1809.

I have great reason to be very thankful for being recommended to Paul's Columbian Oil I had been afflicted with a violent pain in my back, that to I was not able to walk I procured one phial of the oil, and I received immediate relief, & I have been very well ever since.

N. B. I had a violent toothach about two or three months ago, when I dropped a few drops of the above oil on some lint, and applied it to the tooth affected, and I received immediate relief.

ELEANOR ELIOTT.

No. 5.

SIR, I comply with your request, of stating my opinion of Paul's Columbian Oil, being an effectual remedy for the tetter worm. I have been afflicted with the tetter in my hand for 12 years, and have made trial of many medicines which have been recommended, but all to no effect. Hearing of Paul's Columbian Oil, about the 15th of January last, proving an effectual cure for the ringworm and similar complaints, I immediately got a phial of your Oil, and applied it agreeably to the directions for about two months successively—when the tetter left me, and has not made its appearance since.

SUSANNA PURDEN.

N. B. My Susanna, a child aged twenty months and six days, was taken about the middle of July last with a violent cough, which the neighbours said was the whooping cough. I gave her six drops of the Columbian Oil, which gave immediate relief, and proved an effectual cure.

Saratoga-street, Baltimore, Aug. 21, 1809.
