

FOREIGN.

NEW-YORK, JUNE 5. The ship Trident, Forman, arrived last night in the quarantine ground, in 26 days from Greenock, with 68 passengers.

The editors of the New-York Gazette have received London papers to the 1st inst. and Greenock to the 4th May, inclusive.

Mr. Pinkney and Mr. Folter had left London, and were on the eve of departure for the U. States.

A British fleet was preparing to enter the Baltic, and take possession of Gothland.

The report of the capture of Ney and 8000 French troops is contradicted.

There were serious insurrections in many parts of Holland. There appears to be an effort amongst the Dutch to regain their liberty.

LONDON, APRIL 20.

The private letters from America are fraught with apprehensions that a war will certainly take place between this country and the U. States. If there is any understanding between Buonaparte and the American government, it is necessary that our ministers should not confine their attention alone to the Baltic.

If Napoleon should succeed in getting the Sheldt and Texel, fleets to sea, which is now his object, he will be afraid to fend them into the Baltic, and will probably order them to make a run for America, to unite with the government of the U. S. in attacking our West-India colonies.

It is necessary, in addition to the Baltic fleet, that we should also have one of observation on an extensive scale, to frustrate his object; and it is therefore with pleasure we find the most active preparations are making, by the Admiralty to meet him in all quarters.

A letter from Plymouth states that an order has been received from government, to detain all American vessels bound to France.

MAY 1.

Despatches from Lisbon, and a mail arrived yesterday morning, with papers and letters to the 22d ult.

Lord Wellington, as we predicted, has left the British army under the command of Gen. Spencer, and has gone to take the command of the army under Marshal Beresford. The latter was at Zafra on the 17th, Mortier still retreating before him. The 13th dragoons had taken 300 French dragoons on the road to Zafra.

With the exception of the siege of Almeida, the operations in Portugal have ceased to be of any importance. The place has not been surrendered; but it could not hold out long, nor is its holding out any injury to our cause, or any advantage to the enemy. Massena is gone with part of his shattered army to Salamanca—another division is at Placentia, whilst the advanced guard 5000 strong, with which Ney was sent under arrest, has reached Valladolid, in a most deplorable state. There were 2000 fresh troops there, and with these Ney proceeded to Burgos on his way to Bayonne.

Heligoland, April 23.—We have had one or two arrivals from the opposite coast to-day, the first for some time. It has been informed, that almost the whole of the French troops have now quitted the coast and marched to the frontiers of Prussia.

A gentleman states that in travelling between Bremen and the coast, he did not see more than 50 soldiers; that all which could be spared were recently sent off with great despatch in wagons, and that every exertion was made to accelerate their march to the army of Magdeburg. From this circumstance a war with Russia is confidently expected.

April 26.—His majesty the king of Sweden still continues on board the Horatio frigate in this harbour. We understand he has made application to allow the Horatio to carry him to the Baltic.

INSURRECTIONS.

By a vessel just arrived from Holland, information has been obtained that the insurrection there gains ground, and that there is a disturbance at Paris.

RUSSIA.

By a gentleman who is arrived in town from the Russian capital, we learn, that during the space of the last two months upwards of 800 pieces of artillery had been forwarded to the various frontier towns of Russia. An immense army had also followed in the same direction; and the general impression on the public was, that a war on Russian ground, with France, was on the eve of taking place. With respect to trade, the intelligence from St. Petersburg is most afflictive. Immense quantities of produce were on hand, for which there was no vent. The only hope of the merchants being saved from utter ruin, was in some favourable determination on the part of our government with respect to a limited trade by licences. France is sending troops into Prussia by every expeditious mode that can be adopted.

The American frigate John Adams, Capt. Dent, arrived 16th inst. at L'Orient, France, with Mr. Irving, minister plenipotentiary from the United States to the court of Denmark.

MARYLAND GAZETTE.

ANNAPOLIS, WEDNESDAY, JUNE 12,

APPOINTMENTS

By the Governor and Council of Maryland, June 6, 1811.

John Brewer, Register of the Land Office for the Western Shore, vice John Kitly, deceased. John Galloway, Adjutant-General of Maryland. Osborn Williams, Brigadier-General of the 8th Brigade.

COMMUNICATED.

In John Galloway, Esq. who was yesterday appointed Adjutant-General of the Maryland Militia, the public will readily recognize a gallant Soldier of the Revolution, who has already devoted the morning of his life to the service of his Country. Should occasion once more require him to take the field, we are persuaded his military talents and courage would not fail to reflect credit on the State, and shew the discernment of those by whom he was appointed.

June 7.

DIED.

In this city, on Saturday afternoon last, after a short and severe illness, Mr. FRANCIS TUCKER, in the 26th year of his age.

Col. Sparks has been honourably acquitted by the court martial at Baton Rouge, and the decision approved by Gen. Hampton.

The brig Ofmin sailed from New-York on the 1st inst. for Bourdeaux, with Gen. Turreau on board.

Commodore Rogers, in repairing the mast of the frigate President, has discovered, that the shot from the British ship which struck them were 42 instead of 32 pounders as they were at first believed to be.

[Nat. Intelligencer.]

We are informed that Walter Rodgers, the boy wounded on board the frigate President and who behaved with so much firmness, has been appointed a Midshipman in the navy of the U. States.

WARREN, R. I. JUNE 1.

On Saturday last, we received the following letter from the U. States Consul, at Cadiz, through the officer at this port, giving us information of the Capture & Burning, by the French, of the scho. FLORET, owned by us, which you are at Liberty to publish, for the benefit of your readers.

[Ibid.]

Warren, May 31, 1811. UNITED STATES CONSULATE, Cadiz, April 5, 1811.

I have received information, from the coast opposite, that the scho. Floret, William Sherman, master, on her passage from Baltimore to this port, was captured off St. Leger by a French privateer, on the 8th-ult. and the vessel BURNED on the same evening off the harbour. Captain Sherman and crew are detained at Seville.

Being uninformed of the owners names, I have deemed it proper to communicate this unpleasant information to them, through you. With much respect, Sir,

Your very obedient servant,

RICHARD S. HACKLEY.

To the Collector of Warren, R. I.

DREADFUL FIRE.

NEWBURYPORT, JUNE 1, 1811.

This town has at last suffered the dreadful fate, which we have long feared from fire. The appalling alarm was given about a quarter past ten last evening; when, almost instantly, a range of wooden buildings more than 100 feet in length, near the market, which have been improved as stables by David Lawrence, Samuel Shaw and others, were in a full blaze, which soon extended down to the market. Every effort to subdue or controul the fire, proved ineffectual, till all the north side of State-street, from the Market to Pleasant-st.; and all the south side from Essex-st. to the Ferry ways, including all the brick stores on the Ferry-wharf (and excepting Maj. Perkin's store, on S. E. side the market) Middle-R. half way through, and all below, from the Ferry-wharf to Marquan's wharf, both inclusive, were included in one common ruin.

The flames spread with such rapidity that but a small proportion of the vast property in this centre of business was saved.

There has, perhaps, never been a fire in this country attended with such accumulated devastation, and such general distress, as the conflagration in Newburyport. Near 200 houses destroyed. The loss of property in goods and real estate, cannot be estimated at less than two millions; and it is presumed that many hundreds of individuals are left completely destitute of house or home, or the means of procuring support for their wretched families.

An independent Fortune may be gained at a cheaper rate than has ever before been offered to the Public!!!

For Sale,

ON Monday the 24th inst. will be sold to the highest bidder, the house in Annapolis, the property and lately the residence of the subscriber. The terms of sale thirty, sixty and ninety days; notes, with approved security, will be required, and the sale to commence at 12 o'clock at the City Tavern kept by Mr. Wm. Brewer. Any gentleman wishing to view the house and premises may apply to Mr. John Shaw.

Having a larger flock of cattle than I can conveniently support, will sell at private sale, any time this summer or fall, cattle from one to five years old of the best breed in this country; the original flock was of that valuable breed imported by James Dickinson, of Talbot county, some time previous to his death, and crossed with a bull imported by the father of the present governor, immediately from the celebrated breeder, Mr. Bakewell of England, and since crossed with that importation of the same breed made by the late Col. O'Donnald, and William Patterson, Esq. Their meat is delicious and very fine grained, give rich milk, are easily kept, and will certainly winter on less food than any breed I have known. I will also sell part of a small flock of well selected Merino Sheep, purchased of the best importations to this State, and I will venture to say none exceeds them in quality of wool, if equalled. Any gentleman disposed to commence the improvement of his common breed of sheep with this great acquisition to the country, may be supplied with a three years old ram, ewes in lamb, or ram lambs, or common ewes of the country, affording more wool than any breed I have heard of, as several have been tried and yield a pound of wool for every nine and three-quarter pounds of carcase; these ewes will be in lamb by a Merino ram of very superior wool; but none of the above mentioned sheep would be delivered before the 10th day of October next, or as soon after as required, and then to be delivered at my farm, on the north side of Magotty river, or at this place. JOHN GIBSON. Baltimore, Pratt-street, June 3, 1811.
