BOSTON, AUGUST 3.
LATEST FROM SPAIN.
Mr. Choate has arrived here, via...
...ket, from Cadiz, which he left June 23. A...
...few days before it was reported in...
...that a French squadron with troops had...
...from Toulon: on which the British...
...in Cadiz, put to sea immediately with...
...part of the line, in search of it. Mr. C...
...was informed by an English officer, the day...
...he failed, that the French near Badajoz...
...had been reinforced by an army of 20,000...
...and that the siege of Cadiz continued. We...
...have a flying report from Madeira, that...
...the Toulon fleet was out and had been...
...captured by Admiral Cotton.

FROM LISBON, JUNE 6.
The English have a fleet here of four...
...of the line, 6 frigates and smaller vessels...
...under Admiral Berkeley, in the Bay of...
...guns. The Admiral had released all the...
...pressed American seamen on board the...
...under his command, and I believe is well...
...disposed towards the Americans.

AUG. 6.
Late from Portugal.
Yesterday arrived the barque Sally &...
...ry, captain West, in 33 days from Oporto...
...which he left July 1st.

Considerable alarm prevailed in Portugal...
...left they should again have a visit from...
...the French, who having been reinforced at...
...Badajoz, were said to be advancing. The...
...British and Portuguese forces which recently...
...invaded that place had fallen back about 50...
...miles and were within 60 or 70 miles of...
...Lisbon. It appears that this movement was...
...not so much owing to a dread of the power...
...of the enemy, as to great scarcity of provisions...
...from which the army had suffered considerably...
...the French having destroyed everything...
...the country afforded even to the mules...
...We do not learn that a junction had...
...been effected between lord Wellington's...
...forces under Gen. Spencer, and the division...
...under Beresford; nor that the remnant...
...of Massena's army had joined Soult, though...
...their movements it was expected.

Capt. W. was informed by an American...
...gentleman, who left Lisbon on the 25th...
...of June, that he had seen a letter from a...
...British officer of Beresford's army, stating...
...that they had retreated, left by remaining...
...in Spain they should be cut off by the...
...French forces (late Massena's) who were...
...descending through Estremadura. He likewise...
...mentioned the great scarcity of provisions...
...A few days before capt. W. failed the...
...commissary at Oporto received a letter from...
...lord Wellington, directing him to suspend...
...purchasing provisions, as he should draw...
...supplies from the Tagus. The commissary...
...immediately shipped all the stores on hand...
...having taken up several American vessels for...
...that purpose. A report prevailed that the...
...army which had lately been driven out of...
...Portugal, amounting to 25,000, were returning...
...and were within sixty miles of Oporto, and...
...the inhabitants were much alarmed. (It is...
...certain this army cannot both advance...
...towards Oporto and join Soult. There seems...
...to have been more alarm than danger.)

The general complexion of captain West's...
...intelligence is gloomy, though not...
...speculative. But we cannot see any probability...
...of a considerable reverse of fortune. The...
...British had advanced so far as to render...
...supplies of provisions from Lisbon difficult...
...As they approached Lisbon they will be...
...furnished with abundance, for there they are...
...in great plenty. If the French follow, they...
...in turn, will be obliged to suffer, for...
...Portugal affords nothing and the Imperial...
...army must be expected to suffer the same...
...difficulties which before rendered their...
...stay impracticable. Lord Wellington, we...
...presume, is too circumspect a commander...
...to be circumvented by his enemy. Massena...
...had not returned from France.

PAUL'S DOMESTIC INFALLIBLE COLUMBIAN OIL.
THE inventor of this highly esteemed medicine...
...is a native of America, and the composition...
...is the production of American soil, consequently...
...it is in every sense of the word domestic. It is...
...not puffed up with a numerous train of pompous...
...foreign certificates of persons from whom by the...
...great distance that separates us 'tis impossible to...
...obtain information, therefore the public has bet-...
...ter security for their money, as there cannot be...
...the least shadow of deception to cover his medi-...

...with his invention and an experimental detail of...
...the various cases in which it really is so won-...
...derfully efficacious, and in which he is supported...
...by the following certificates of respectable characters...
...whose names are not only subscribed, but their...
...persons may be also consulted, being residents with-...
...in the circle of our own neighbourhood. The fol-...
...lowing are the complaints in which the Columbi-...
...an Oil has been found so efficacious and rarely...
...ever fails of effecting a cure, viz: Rheumatism...
...Consumption, Pains in any parts of the body...
...but particularly in the back and breast, Colds and...
...Coughs, Toothach, Pleurisies, Cholic, Cramps...
...External and Internal Bruises, Sprains and Flesh...
...Wounds, Scalds and Burns, Whooping Cough &...
...Mumps, and Dysentery or Bloody Flux; Croup...
...and the summer complaint in children, and in...
...a weak stomach that is caused by indigestion, a...
...constant sinking and loss of appetite, it will act...
...as a powerful brace to the relaxed fibre and restore...
...it to its proper tone.

It seems also as if nature had ranked it the first...
...of the class of all pedorals and expectorals for...
...the relief of the breast and lungs, as it scarce...
...ever fails of removing obstructions in either, particu-...
...larly those who are troubled with Phthisick or...
...Asthmatic complaints, who in the act of walking...
...fast, stooping or lying down, are almost suffocated...
...half a teaspoonful of the Columbian Oil will...

...prove a radical cure by producing the full power...
...of dilatation to the lungs and free expansion to the...
