Council Chamber,

Annapolis, April 8th, 1812. Ordered, That the following proclamafor be published twice in each week for the space of two weeks in the Maryland Republican and Maryland Gazette at An-The National Intelligencer at Washington. The Star at Easton. The American, Whig, Sun, and Federal Garette at Baltimore. The Republican Ga-rette at Frederick-town; and the Mary-land Herald at Hagar's-town.

By order, NINIAN PINKNEY, Clk.

By His Excellency ROBERT BOWIE, Esquire, Governor of the State of Maryland, A PROCLAMATION.

WHEREAS, it is directed by the sixth section of the supplement to the act, enti tled, "An act to regulate and discipline the militia of this state," that the field officers and captains of cavalry, shall meet in the city of Baltimore, on the second Monday in March, 1812, for the purpose of fixing upon a system of cavalry tactics and trumpet soundings: and an uniform dress for the cavalry field-officers of this state whether regimental or general; and that the result of their meeting, shall be forthwith transmitted to the governor of this state, signed by the officers present, er a majority of them, who shall thereup-en make the same public by proclamation: I do, therefore, in pursuance of the said act, publish the following to be the result of the meeting of the cavalry officers of this state, viz.

Resolved, That in the opinion of this board, the "abstract of Colonel Herries' instructions for volunteer corps of cavalry, adapted to the use of the volunteer and militia cavalry of the United States," is the best treatise extant, or now to be procured; and that the same be adopted for the cavalry of this state. With the exception, that in as much as but one lieutenant to a troop is allowed or provided for by that system, and in order that too many commissioned officers may not be placed

in the Serre file Rank: Resolved, That the captains of troops when in squadron or line, shall take post, each one horses length in front of the centre of his respective troop; the first lieu-tenants on the outward flanks of the frontrank of their respective troops; the senior cornets in the centre of the front rank of the squadron; the second lieutenants in serre file in the rear of the first outward fink files of their respective troops, and the junior cornet in serre file in the rear of

the centre of the squadron. And as it does not appear to us that in the "abstract" as abovementioned, the formation of a troop for parade or exercise with the disposition of its officers and non-commissioned officers, is provided for, Resolved, that the captains take post in front of the centre; the first lieutenant on the left of the front rank, covered by a corporal; the second lieutenant on the right of the front rank covered by a sergeant, the cornet in the centre, covered by a corporal; a sergeant on the right of every sub division except the right sub-division, covered by a corporal or intelligent private; and the quarter-master sergeant, farrier and saddler in the rear.

Resolved, That it is deemed impractica ble at this time for the board to determine upon proper "trumpet soundings" to be adopted by the cavalry of this state; but that lieutenant colonel Moore, and majors Ridgely and Barney, be and are hereby appointed a committee to agree upon a system of trumpet and bugle soundings, and report the same to the governor, which with his approbation shall become binding and obligatory upon the field-offi cers, and captains, and subalterns of all

troops concerned. Resolved, That the "Uniform dress of the cavalry field-officers of this state" shall consist of a black cap of beaver or polished leather, seven inches high in the crown and one inch and three quarters more in diameter at top than bottom, with a front of leather projecting downwards, a black velvet ribbon one and an half inches wide round the upper and lower extremities of the crown; a long white plume in front, its casing concealed by a black polished leather cockade, with a silver eagle in the centre grasping athunderbolt in its talons; a white plated band or tress hanging in a festoon before and behind from a silver button affixed to the upper part of each side the crown, with a double cord three feet long, and tassels of the same pendant from the button on the Tight side, and a tassel from that on the

left; a black stock; a coat of dark blue cloth, cape and cuffs of the same, single breasted, standing collar or cape, short in the waist, narrow military skirts not to reach lower than the middle of the thigh, with three buttons on each, equi-distant helow the waist buttons, pockets in the folds, large bullet buttons set close in front, cape trimmed with silver lace or cord, or embroidered with silver ;-pantaloons of dark blue cloth, side seams and front trimmed as the coat. Silver epaulets and sword knot, red silk sash to tie on the right side, sword (not particularized.) Sword belt (not particularized) to be worn under the coat. Half boots to come to the knee with black silk tassels in front, spurs either plated or silver. Gloves of yellow buckskin, and pistols (not particularized.)

The undersigned not considering themselves authorised by the act under which they are convened, to decide upon any uniform caparison for the horses of the "cavalry field-officers," they nevertheless deem it expedient and do agree to adopt the following which they recommend to those who may not have had it in their power to attend, viz. the bridle with a bit and bridoon; black reins, front and nose band; a bearskin, housen or schabrache, trimmed with white cloth indented to be thrown over the saddle and holsters,

and a breast plate and crupper.

BOSTON, APRIL 10. LATE FROM ENGLAND.

By the arrival yesterday of the ship Lothair, captain Jackson, in the remarkable passage of 20 days from Liverpool, we have received the papers of that city of the 18th ultimo, and London papers of the 16th. They contain nothing of importance. The orders in council had not been again a subject of discussion. Licences are granted for import from the Baltic and from France. The king had improved a little in health. The war in the north still remained an expected event.

LONDON, MARCH 16.
Mails from Anholt and Heligoland, arrived this morning. The former states that Buonaparte is to take the command of the French army in person. It is divided into four grand detachments of 50,000 men each. Massena commands the first—Davoust the second—Oudinot the third—Berthier the fourth. The French troops have left Hamburg for the Polish frontiers. Hamburg is garrisoned by the Danes.

The accounts respecting Prussia are contradictory—some assuring that she will join France; others, that she will unite with Russia; that she has positively rejected all the demands of Buonaparte to admit French troops into Colberg, and that her army is in

excellent condition. The Swedish government has published full details of the hostile treatment which Swedish Pomerania has experienced from the French government. A joint declaration of war from Russia, Prussia and Sweden, is the prevailing expectation at Stockholm.

Don Jose Artegos, who commanded the Buenos Ayres troops, had a battle with a party of Portuguese in Dec. from Rio Janeiro, sent on to Monte Viedo, and caused them to retire. This man commands the Gouchas (country people) and has collected about 8000 men in the country of the Misstores, near the Uraguay. The junta sent to his assistance, on the 1st January, 800 men, a black regiment of Buenos Ayres. This gave umbrage to the government of Monte Viedo. All vessels bound to Buenos Ayres were immediately embargoed, and 1 or 2 cruisers sent up the river with the intention, it was supposed, to prevent troops

A plot was discovered in December to remove the Junta, and replace Savedra the former President, whose particular regiment was active in this affair, and required the whole strength of the government to oppose and quell, in which they succeeded, after some lives being lost, and the principal lea-ders arrested, and a number immediately shot. A captain Taylor, who had command of one of the armed ships of Buenos Ayres, was in close confinement under charges of

Yesterday afternoon between 3 and four o'clock, the U. S. frigates President, com-modore Rogers, and Essex, sailed from this port on a cruise. When the frigates got op-posite Castle Williams, they fired from 6 to 8 24 pound shot at the Castle for the purpose of trying its strength, which we are happy to state was found to be ball proof, and more than answers the most sanguine expectations. Three balls were fired into one of the embrazures, which did little other damage, than shattering the gun carriage. One 24 pound shot struck the wall of the Castle, a little above the 2d tier of guns, and made an indentation in the stone of nearly six inches, without defacing it any other manner. The frigates then proceeded on their course, and in the evening came to anchor at the watering place Staten-Island. FROM PORTUGAL.

By the ship Canton from Lisbon, which place she left on the 10th March, we have received the following account of the British

and French armies, viz.

"That Lord Wellington will have it in his power to open before Badajos, at least 70 pieces of heavy artillery, and although it should cause him to risk a general battle, some people believe he would not abandon

the siege.
"The French general Marmont is moving with a large force, towards Badajos (in which place it is supposed there are 10,000 French) should it be invested, and there is a great probability that a general action will soon take place. Lord Wellington will have a force of 70,000 men in the neighbourhood of Badajos, and the French force are sup-posed to be about the same number.

"On the 3d March, Lord Wellington's head quarters were at Ferrandas, about 4

days march from Elvas; which place he would move for that day. On the road thither, it was not expected the army would halt only for a few days—Not only the spare artillery of the garrison of Elvas, but a large quantity of heavy pieces of ordnance were sent from Lisbon to the neighbourhood of Badajos for the siege.
