NATURE AND LOVE.

When spring came on, with fresh delight, To cheer the soul and charm the sight, While easy breezes, softer rain, And warmer suns salute the plain, Twas then, in yonder piny grove That Nature went to meet with Love. Green was her robe and green her wreath Where'er she trod twas green beneath; Where'er she turn'd the pulses beat, With new recruits of genial heat; And in her train the birds appear To match for all the coming year. Raised on a bank where daisies grew, And violets intermixed with blue, She finds the boy she went to find; A thousand pleasures wait behind, Aside a thousand arrows lie, But all unfeathered, wait to fly.

When they met the dame and boy, Dancing graces, idle joy, Wanton smiles, and airy play, Conspired to make the scene be gay: Love paired the birds thro' all the grove And Nature bid them sing to Love : Sitting, hopping, fluttering sing, And pay their tribute from the wing, To fledge the shafts that idle lie, And yet unfeathered wait to fly.

Tis thus, when spring renews the blood, They meet in every trembling wood, And thrice they may the plumes agree, And every dart they mount with three, And every dart can boast a kind Which suits each proper turn of mind. From the towering eagle's plume,

The generous hearts accept their doom; Shot by the peacock's painted dye, The vain and airy lovers die: For careful dames and frugal men, The shafts are speckled by the hen; The pyes and parrots deck the darts, When prattling wins the panting hearts; When from the voice the passions spring, The warbling finch affords a wing; Together. by the sparrow stung, Down fall the wanton and the young ; And fledged by geese the weapons fly, When others love, they know not why.

All this; (as late I chanced to rove) I learned in yonder waving grove;— And so says Love, who called me near, How much I deal with Nature here; How both support a proper part, She gives the feather, I the dart. Then cease for souls adverse to sigh, If Nature cross you, so do I; My weapon there unfeathered flies, And shakes and shuffles thro' the skies, But if the mutual charms I find, By which she links you mind to mind, They wing my shafts, I poise the darts, And strike from both thro' both your hearts.

NATIVE BEAUTY.

There was no eye that did not trace That nymph-like form, that lovely face. In slender foot, in rounded arm, They marked the evanescent charm. Now in her seraph head it lies, And o'er her swelling bosom flies; Whilst all that sweet attractions claim, Charm undefined, and Grace its name. There was no eye that was not bent, On that fair form, in gaze intent; But not a tongue in all the croud, Spoke one admiring thought aloud!
For still as through the dance she past. A softer spell was round her cast It checked her step, alert and high,) It downward bent her radiant eye, That holy charm was-Modesty.

War Department, April 15th, 1812. His Excellency the Governor of the State of Maryland.

I am instructed by the president of the United States to call upon the executives of the several states to take effectual measures to organize, arm and equip, according to law, and hold in readiness to march at a moment's warning, their respective proportions of 100,000 militia, officers included, by virtue of an act of congress passed the 10th instant, entitled, " An act to authorise a detachment from the militia of the United States."

This therefore is to require of your excellency to take effectual measures for having six thousand of the militia of Maryland (being her quota) detached and duly organized in companies, battalions, regiments, brigades and divisions, within the shortest period that circumstances will permit, and as nearly as possible in the following proportions of artillery, cavalry and infantry, viz. one twentieth part of artillery, one twentieth part of cavalry, and the residue infantry. There will, however, be no objection on the part of the president of the United States to the admission of a proportion of riflemen, duly organized in distinct corps, and not exceeding one tenth part of the whole quota of the states respectively.

Each corps should be properly armed and equipped for actual service.

When the detachment and organization shall have been effected, the respective corps will be exercised under the officers set over them, but will not remain embo died or be considered as in actual service. until by subsequent orders they shall be directed to take the field.

Your excellency will please to direct that correct muster rolls and inspection returns be made of the several corps; and that copies thereof be transmitted to this department as early as possible.

I have the honour to be,

Very respectfully, Your obedient servant, WILLIAM EUSTIS.

HEAD QUARTERS,

Government-House, April 25th, 1812. PAUL'S PATENT COLUMBIAN OIL.

The inventor of this highly esteemed Medicine is a native of America, and the composition is the production of American soil, consequently it is in every seme of the word Domestic, it is not puffed up with a numerous train of pomposs foreign certificates of persons from whom by the great distance that separate us, 'its impossible to obtain information, therefore the public has better security for their money as there cannot be the least shadow for deception to cover this medicine, for he simply appears before the community the least shadow for deception to cover this medi-cine, for he simply appears before the community with his invention and an experimental detail of the various cases in which it really is so wonder-fully efficacious, and in which he is supported by the various cases in the property of the following certificates, whose names are not only subscribed but their persons may also be consulted, being residents within the circle of our neighbourhood. The following are the complaints in which the Columbian Oil has been found so efficacious and rarely ever fails of effecting a cure: viz Rheumatism, Consumption, Palns in any cases the body but particularly in the back and viz Rheumatism, Consumption, Palns in any part of the body-but particularly in the back and breast, Colds and Coughs, Tooth Ach, Spleen, Pleurisies. It seems as though nature had ranked it the first of the class of all pectorals and expectorals for the relief of the breast and lungs, as it scarcely ever fails of removing obstructions in either, par-ticularly those who are troubled with Phtnisic or Asthmatic complaints, who in the act of walking fast, stooping or lying down are almost suffocated, half a teaspoon full of the Columbian Oil will render some relief instantaneously, and if continued agreeably to the directions in such cases, will prove a radical cure, by producing the full power of inflation to the lungs, and free expansion of

Sir-Conceiving it to be my duty not to conceal from the public the virtues of your most valuable Columbian Oil, from which I received so much Columbian Oil, from which Tected a miner benefit, I am therefore induced, from a principle of gratitude for my recovery, to give a short statement of the complaint under which I suffered. I was first seized in the right hip with a most intolerable pain, which seemed exactly in the joint, and on the day following a dreadful pain in my back which based about three weeks, during which back which lasted about three weeks, during which back which lasted about three weeks, during which time I could not walk upright, but always in a bent posture; and if seated in a chair, the pain would be so excruciating in the act of raising that it was impossible for me to refrain from screaming My appetite had entirely left me, and a constant head ach would sometimes almost deprive me of my senses; In fact, I was in a deplorable condi-tion A number of remedies were tried but to no tion A number of remedies were tried but to no purpose, I had also the advice of an eminent phy-sician, who prescribed a hot bath, &c. which were regularly attended to, but without the small-est advantage I had about nine cunces of blood taken from me, still the complaint did not give way in the least degree. I was then advised to try Paul's Columbian Oil, but with very little try Paul's Columbian Oil, but with very little hopes of succeeding: when to my great surprise and comfort, I was sensible of some ease in my hip on the first time of anointing; the next day the pain in my back abated, the head ach let the pain in my back abated, the head ach left me, and in four days I was perfectly recovered.

By order, NINIAN PINKNEY, Clk.

By His Excellency ROBERT BOWIE, Esquire, Governor of the State of Maryland, A PROCLAMATION. WHEREAS, it is directed by the sixth

section of the supplement to the act, entitled, "An act to regulate and discipline the militia of this state," that the field-officers and captains of cavalry, shall meet in the city of Baltimore, on the second Monday in March, 1812, for the purpose of fixing upon a system of cavalry tactics and trumpet soundings: and an uniform dress for the cavalry field-officers of this state whether regimental or general; and that the result of their meeting, shall be forthwith transmitted to the governor of this state, signed by the officers present, or a majority of them, who shall thereupn make the same public by proclamation: I do, therefore, in pursuance of the said act, publish the following to be the result of the meeting of the cavalry officers of

this state, viz.

Resolved, That in the opinion of this toard, the "abstract of Colonel Herries" nstructions for volunteer corps of cavalry idapted to the use of the volunteer and militia cavalry of the United States," is the best treatise extant, or now to be prosured; and that the same be adopted for the cavalry of this state. With the excep-tion, that in as much as but one lieutenant o a troop is allowed or provided for by that system, and in order that too many commissioned officers may not be placed

in the Serre file Rank:

Resolved, That the captains of troops when in squadron or line, shall take post, exh one horses length in front of the centre of his respective troop; the first lieu-tenants on the outward flanks of the frontrank of their respective troops; the senior cornets in the centre of the front rank of the squadron; the second lieutenants in serre file in the rear of the first outward flank files of their respective troops, and

the junior cornet in serre file in the rear of the centre of the squadron. And as it does not appear to us that in the "abstract" as abovementioned, the formation of a troop for parade or exercise with the disposition of its officers and non-commissioned officers, is provided for, Resolved, that the captains take post in front of the centre; the first lieutenant on the left of the front rank, covered by a corporal; the second lieutenant on the right of the front rank covered by a sergeant, the cornet in the centre, covered by a corporal; a rergeant on the right of every sub-division except the right sub-division, covered by a corporal or in-

telligent private; and the quarter-master sergeant, farrier and saddler in the rear-Resolved, That it is deemed impractica. ble at this time for the board to determine upon proper "trumpet soundings" to be apted by the cavalry of this state; but that lieutenant colonel Moore, and majors Ridgely and Barney, be and are hereby appointed a committee to agree upon a system of trumpet and bugle coundings, and report the same to the governor, which with his approbation shall become binding and obligatory upon the field-officers, and captains, and subalterns of all troops concerned.

Resolved, That the "Uniform dress of the cavalry field-officers of this state" shall consist of a black cap of beaver or polished leather, seven inches high in the crown and one inch and three quarters more in diameter at top than bottom, with a front of leather projecting downwards, a black velvet ribbon one and an half inches wide round the upper and lower extremities of the crown; a long white plume in front, its casing concealed by a black polished leather cockade, with a silver eagle in the centre grasping a thun-derbolt in its talons; a white plated band or tress hanging in a festion before and behind from a silver button affixed to the apper part of each side the crown, with a double cord three feet long, and tassels of the same pendant from the button on the right side, and a tassel from that on the
